## Butte Falls Items

D. G. Karnes has purchased a fine piano with pianola attachment, and we often are regaled with music by Mrs. Karnes.

W. J. King of the Hale piano house of Medford, has been interviewing our musically inclined people and has the prospect of placing several orders. It is hoped that many instruments will find their way into the homes of our people, as "from time whereof the memory of man runneth not to the contrary" music has been one of the refining and uplifting influences that has made for higher civilization.

Engineer Beveridge, with his crew of assistants, has broken camp and it is quite probable that no more work will be done on the railroad from this point until later on.

Dillon Claspill has taken a position with the fire-fighting force and is doing good work.

Mr. and Mrs. W. H. Perry gave on Saturday a birthday dinner to their mother and her husband (Mr. and Mrs. F. M. Stewart) and to Mrs. Grover and Mrs. Nichols of Eagle Point. There were present Mrs. Stewart and Judge F. M. Stewart of Medford, J. W. Grover, Mrs. J. F. Nichols and several grandchildren. To say that they all were not entertained and that Mr. and Mrs. Perry did not do the honors of such an occasion with more than ordinary interest and excellence would be lacking in a proper commendation of these excellent people.

There was a slight rain on Saturday night, but Sunday was cloudy, with indications that a good rain would soon fall and which is very much needed, as there is but little stock feed and the woods are still dry.

John Allen of Derby has been looking after his stock interests at the Geppert ranch.

Gus Edmonson and a friend were visiting Butte Falls on Sunday. He says no definite, certain clue has been found to the parties who burglarized his father's home.

Quite a party of our young men have gone on a hunting expedition and we have the promise of some venison if any is secured, and which will be very welcome, as none has been enjoyed so far.

Frank Netherland has been moving his household goods from Derby to the Falls and will move into his new house.

Claspill & Wheeler have brought in a large load of assorted store goods from the valley.

Emerson Wheeler is off on a business visit to Medford to purchase stock.

A Mr. Bassett of Eagle Point has been here looking over the ground for an investment. He says more than 20 years ago he was in this section and he was surprised to note the many and favorable changes which have taken place and that he hardly recognized his old haunts.

We are pleased that the Mail Tribune is touching up the road question. It is a shame the waste of money and labor is so great and that so little real service is given and good done and that the roads are so bad.

Mrs. Salome Matthews, wife of one of the oldest citizens, is suffering from a severe attack of dropsy. Drs. Seeley of Medford and Holt of Eagle Point are attending physicians, and on Monday performed an operation of tapping Mrs. Matthews, which has brought to her temporary relief. Mrs. Matthews is a kind, hard-working woman and it is hoped that her trouble may be effectually cured.

W. S. Dewing, who has been here for several days looking over his large interests, left on Monday's stage for Kalamazoo, Mich. Mr. Dewing is very much pleased with the condition of his plant and the efficient services of Mr. Mills, his manager, and Superintendent Netherland. In due time developments will take place advancing very materially the present conditions.

C. E. Powers and son have purchased several lots in the south end of the town and are building on them comfortable homes.

Shorty Miles came up to the Falls on Monday, through a drenching rain, for hunting, but left us on Tuesday, the weather not being favorable.

Ira Tugate has returned from the valley, where he has been visiting for several days.

There was an itinerant photographer here during the week who has been taking views of our town and its many homes and buildings, as also of the surrounding country. We have so many beautiful and interesting views hereabouts that nearly every week some artist visits this section and goes away with many views which are used for various magazines and papers.

All danger of forest fires is now past, as the heavy downpour of rain on Monday has effectually quenched the last smoldering embers and the face of the country, the clearness of the atmosphere and the balmy air are most invigorating.

The primary election promises to be a tame affair, as the voters do not appear enough interested to come out and vote.

## Chase & Sanborns

COFFEE is used in hundreds of the best homes in Medford and the valley, and once used no substitute can be offered. Are you a Chase & Sanborn user?

## Eagle Point Eaglets

—By—  
A. C. Howlett.

U. G. Hurley, a photographer from Fruitvale, Cal., has been to Butte Falls and came out Wednesday, where he had been taking views of the scenery in that section. He has been stopping at the Sunnyside for a couple of days taking photographs of some of the buildings, orchards, our school, etc. He produces some fine pictures.

J. Moomaw has about completed his new house, E. S. Wolfer has just finished plumbing it, and James Ringer, who has been laid up with broken ribs, said today (Friday) that he thought that he would be able to go to work and finish up the painting next week.

I understand that J. W. Grover has sold that part of his place lying south of the county road, including his house, barn and orchard. I did not learn the price paid or the name of the man to whom he sold, but heard that he was a man from Seattle, Wash.

We have just stopped working on a new well we have been digging at the Sunnyside. We went down 37 feet and struck a kind of slate formation that experts say is a sure indication of coal, and it is the opinion of a number with whom I have talked that this entire Butte creek valley is underlain with a bed of coal.

Judging by the amount of building material on the different lots in Eagle Point, there will be something doing in the building line this fall, although it is very hard to get lumber either here, at the mills or at Medford. Wamsley and Smith are building a barn for T. E. Nichols and they complain that they can't get lumber enough to keep them busy much over half of the time.

Mr. and Mrs. Peyton of Peyton were here Friday trading with our merchants, and on their way to Medford, to see the show Saturday.

Miss Donna Rader, who was called home on account of her mother going to Klamath county to visit her sister and stepmother. Mrs. Severance was behind the counter again Thursday morning in Von der Hellen's store.

Henry French and Alex Foster were doing business in Eagle Point Thursday.

Mr. and Mrs. A. Clarno were smiling on their friends Thursday.

Old Grandfather Clarno, now 84 years of age, was down from his home near Reese creek, and while here called on your correspondent to talk over church matters.

Mrs. Dartz, who is on the Wilson place in Eagle Heights, had a lot of wire fencing arrive Friday and was taken to her place by Deeter & Daley the same day.

A gentleman by the name of Hutchison, who has a homestead on Reese creek, came out Thursday night on the P. & E. car and spent the night here, the next morning taking the Eagle Point and Prospect stage for home.

Miss Ina Willis of Persist, who has been engaged teaching school near Climax, came out Thursday evening, spent the night here and Friday morning went up home with her brother, who has the contract for carrying the mail from here to Prospect, via Trail and Persist.

Sheriff Jones came out Thursday morning and left the ballot boxes for Eagle Point, Trail, Flounce Rock, Lake Creek and Climax and Butte Falls at the Sunnyside, in care of his deputy, John W. Smith, and he started the same afternoon and went to Climax and Lake Creek and Friday morning started for Trail and the other precincts with them.

E. S. Wolfer is working on P. H. Daley's house today, doing the plumbing work.
