Make Every Dollar Worth More Than a Dollar!

An educated ad reader will never be poor. To "know advertising" is to have a practical knowledge of values—of things—of when and how and where to buy. No one, having and utilizing such knowledge, could ever be unthrifty, or in any sense careless or reckless of expenses. For such knowledge makes for thrift—for saving. It makes one proof against shams—false values—manipulated reductions.

The intelligent ad reader uses as much thought and ability in buying things as is required in earning the money that is spent for them. And that amounts to a substantial increase of the value of every dollar of the family revenue!
