

Eagle Point Eaglets

—By—
A. C. Howlett.

A. B. Zimmerman, one of our leading merchants, is preparing to build a home near his store for a family residence, as he needs the rooms occupied by the family in his mercantile business.

Jud Edsall, John Foster, Harry Penn and Mr. Farlow, who have been in the surveying crew working on the railroad right of way between Butte Falls and Pilican Bay, came in Wednesday night and spent the night here, and Thursday morning Mr. Farlow went to his home. Jud Edsall went to his father's near Butte Falls, but returned the next day and John Foster went to work for us on a sewer pipe we are putting down. The surveying party has been disbanded for the winter.

County School Superintendent Percy Willis was out Wednesday and visited our school for a short time. Our school is growing in interest and numbers and we have a good prospect for a No. 1 school here again this winter.

The railroad company is making some changes in the work in this section. I understand that they are going to dispose of the steam shovel they have been using and put in another and are adding to their facilities for handling gravel.

Your correspondent took a spin over to Sams Valley Friday after a load of peaches, but found that the crop had been gathered and sold with the exception of a few, but I had been there before, and so we are not out of that luxury.

Friday while Mr. Woodburn was working loading ties for the P. & E. railroad he accidentally fell off the pile of ties and broke one of his legs. He was taken to the hospital at Medford for treatment.

The same day as Harry Smith was holding a heavy sledge against a large bolt in the steam shovel that they were taking to pieces to ship to The Dalles, and another man was striking the bolt, a piece of steel from the face of the hammer broke off and punctured Harry Smith's leg just below the knee, entering an artery. He was immediately placed on a handcar and brought to town and Dr. Holt removed the piece of steel and now Harry is looking for a soft job while he is unable to do heavy work.

The men having charge of the steam shovel here have taken it to pieces and it is now on a flatcar at the depot ready to be shipped to The Dalles.

GRAY HAIRS BANISHED.

The old idea of using sage for darkening the hair is again coming in vogue. Our grandmothers used to have dark, glossy hair at the age of seventy-five, while our mothers have white hair before they are fifty. Our grandmothers used to make "sage tea" and apply it to their hair. The tea made their hair soft and glossy

and gradually restored the natural color. One objection to using such a preparation was the trouble of making it, especially as it had to be made every two or three days on account of its souring quickly. This objection has been overcome and by asking almost any first-class druggist for Wyeth's Sage and Sulphur the public

can get a superior preparation of sage with the admixture of sulphur, another valuable remedy for hair and scalp troubles. Daily use of this preparation will not only quickly restore the color of the hair, but will also stop the hair from falling out and make it grow. It is sold by all druggists for 50c and \$1.00 a bottle,

or is sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York city, upon receipt of price.

THE ESSENTIALS

of an Orchard Platting Proposition for a home or an Investment are

Good Soil, Good Location And a Price WHICH GIVES THE OTHER FELLOWS AN OPPORTUNITY TO MAKE A PROFIT

We have a 200-acre tract between Talent and Ashland, located on the main road, with about 75 acres planted to pears with peach fillers. Stock and machinery go with the place. The price per acre is about half what others are asking for similar tracts, and we can make very easy terms. If you want a platting proposition you should not overlook this. It is priced low for a quick turn. If interested let us show you this property.
