

NEW PRESIDENT OF NORTHWESTERN LEAGUE

SEATTLE, Wash., Oct. 8.—Robert H. Lindsay, who was elected president of the Northwestern Baseball league last night to succeed W. H. Lucas, said today he expects some sort of answer soon on question of entering the circuit of the Northern leagues. It was expected that the question would be taken up last night previous to the election of officers, but it was put over until later.

W. D. Hayward was chosen vice-president of the league. George Shreeder of Tacoma was elected a director to take the place of Eddie Quinn, resigned. This is taken to indicate that Shreeder still controls the Tacoma club.

MONKEY KILLS SELF IN HUMAN FASHION

RED BLUFF, Cal., Oct. 8.—A pet monkey belonging to John English is dead today, a victim of suicide by approved human methods. The monkey is said to have hanged himself with a rope made from strips of quilt thrown into his cage for a bed. The lifeless body was found suspended from the roof of the cage by Ed McGovern, the keeper.

WOMAN'S PREROGATIVE TO POP THE QUESTION

SEATTLE, Wash., Oct. 8.—It is woman's prerogative to "pop the question."

This is the opinion of Professor H. G. Brown, who delivered a lecture before an audience of 500 people here last night. Here is what he said:

"Woman's little sphere is the big sphere of the universe. Man simply gains nutrition for the race and woman is the means of propagation of the race. Therefore, since woman performs the greater function, she should have the free right of choice. Bernard Shaw tells us that woman will propose anyway, even if she has to chase a man all over Europe and into the Pyrenees mountains. It ought to be so. It's the cosmic principle."

There is a Wonderful Difference
between the light afforded by an ordinary carbon incandescent and the brilliancy of our new General Electric MAZDA lamp. The latter radiates two and one-half times as much light with the same amount of electric current.
A 40-Watt MAZDA Affords Twice the Light
of the 50-watt carbon lamp now in general use and costs one-fifth less to burn. We recommend its use to our customers as it more than cuts their light bills in two, making electric light so inexpensive that no home, however humble, and no store, however small, can afford to be without it.
Ask us to show you the new General Electric MAZDA lamps and clusters.

THE ESSENTIALS

of an Orchard Platting Proposition for a home or an Investment are

**Good Soil, Good Location
And a Price** WHICH GIVES THE OTHER FELLOWS AN OPPOR-TUNITY TO MAKE A PROFIT

We have a 200-acre tract between Talent and Ashland, located on the main road, with about 75 acres planted to pears with peach fillers. Stock and machinery go with the place. The price per acre is about half what others are asking for similar tracts, and we can make very easy terms. If you want a platting proposition you should not overlook this. It is priced low for a quick turn. If interested let us show you this property.
