FRENCH REVOLUTION MAY BE REENACTED

GOVERNMENT MAY BE OVERTHROWN BY RAILWAY STRIKERS

PARIS, Oct. 13.—The railroad strike has developed into a revolutionary struggle for the purpose of overthrowing the government.

Bloodshed and rioting are imminent.

Scenes approximating the French revolution are expected when the troops, half loyal to the republic and half favorable to the "syndicate," are ordered to suppress anti-foreign demonstrations.

Blood Flows.

Blood flowed in the streets of Paris today when the first real fight between strikers and soldiery was waged for more than two hours. At least six men and two women were seriously hurt. One soldier was reported killed.

The battle began when 300 police discovered a meeting of strike leaders in progress in the office of the La Humanite, a socialistic newspaper, and demanded that they submit to arrest. The leaders refused and barricaded the doors of the newspaper.

First Blood.

Under Premier Briand's instructions that they were enemies of the republic and plotting against it the police ordered them to surrender, threatening to fire through the windows if the order was not obeyed.

M. Jaures, leader of the men in the building, appeared at a window and shouted defiance.

"We will surrender only when you come and take us," yelled Jaures. As he stepped back into the building a bullet crashed through the window above his head. It was answered from within the building and a battle which lasted nearly two hours was on.

People Run Down.

Immense throngs surrounded the building on the outside and the police charged and countercharged in an effort to keep the space around the building clear. Men and women were run down and one woman was reported killed.

Reinforcements were rushed to the aid of the sorely tried police and after a sharp conflict the mob dispersed. The police then turned their attention to those in the newspaper.

TEDDY ROASTS

MOTORMAN WHO BOTHERED HIM

Shakes His finger and with Savage Show of Teeth Says Some People Haven't any Sense as Motorman Drives His Car Through Crowd--Denounces Corrupt Politics.

DANVILLE, Ill., Oct. 13.—While speaking to a crowd of more than 3000 residents of this city Colonel Roosevelt took occasion to vent his spleen against a street car motorman who interrupted the proceedings when he allowed his car to pass through the middle of the crowd.

Roosevelt stopped short in his speech. Directing a finger at the motorman, and with a savage show of teeth, the colonel said:

"Some people haven't any sense," even in Danville.

The motorman, whether he heard the colonel's remark or not, quickly put on the power and was out of sight in short order.

Colonel Roosevelt's speech was one round of denunciation for corrupt politicians and breakers of the public faith.

Referring to the bribery scandals in connection with the election of William Lorimer to the United States senate, Roosevelt said:

EIGHTEEN BODIES ARE RECOVERED

Work of Bringing Them Out of Starkville Death Hole Is Revolving as All Bodies Are Horribly Mutilated--Necessary to Carry Them for Miles Through Underground Passages of Big Mine.

STARKVILLE, Col., Oct. 12.—Eighteen bodies have so far been recovered and four others located, but as yet not brought to the surface in the Starkville mine, which was wrecked by an explosion Saturday night. It is now believed certain that a score of victims at least were not killed by the force of the explosion, but died from asphyxiation caused by after-damp.

The work of removing the corpses, all horribly mutilated, is revolting. It is necessary to carry the bodies for miles through the dungeon-like tunnels before they can be brought up. The main shaft to the surface of the pit. It will be days before the bodies of all the victims can be recovered.

EX-GOVERNOR STANLEY OF KANSAS IS DEAD

WICHITA, Kan., Oct. 13.—Former Governor W. E. Stanley, one of the most widely known men in Kansas, died at his home here today. He was prominent in Kansas affairs for twenty years, but retired from public life six years ago after serving a term as governor. He declined an appointment to the supreme court in 1904. Stanley's election as governor signalized the death of populism in Kansas.

THOMPSON TO FACE TRIAL FOR SWAN MURDER

Judge Dunne Refuses to Set Aside Indictment Although Attorneys Claim that Three of the Jurors Were Ineligible to Serve as Such--Must Face Trial.

SAN FRANCISCO, Oct. 13.—The effort of his attorneys today to have the indictment against Dr. Robert Thompson, charged with the murder of Eva Swan, set aside, failed in Judge Dunne's court. A further hearing of the motion, however, will be heard Saturday.

Attorney Greeley called Frank Maron, a searcher of records, to the stand. Maron testified concerning the position of Grand Jurors E. J. Laughrey, G. J. Oliva and J. T. Laventhol on the assessment roll in an effort to prove that none of the jurors were eligible to serve when indictment was brought against Thompson.

Assistant District Attorney Cotton contradicted Maron's testimony by showing all three jurors names appeared upon the assessment roll for either personal or real property.

COLONEL COMES TO SUPPORT OF SEN. BEVERIDGE

Declares Himself in Favor of a Tariff Commission and Says That Senator Beveridge Should Be Re-Elected As He is a Supporter of Good Government.

VEEDERSBURG, Ind., Oct. 13.—Declaring himself in favor of a tariff commission and urging the reelection of Senator Albert J. Beveridge to the United States senate, Colonel Roosevelt addressed a crowd of 1000 persons here today.

Roosevelt said that the people favor a tariff which equalizes the cost of production in this country and abroad, and in order to bring about this condition, he said, a commission is necessary.

"The difference between the cost of production here and abroad," said Roosevelt, "cannot be ascertained by dickering and log-rolling among the special interests whom the tariff directly affects. The commission experts must determine this after examining each schedule separately."

"If you defeat Senator Beveridge you will be defeating a man who is supporting a decent government. I came here to speak for him because he embodies all the best has been doing in its struggle for honesty."

PORTLAND WARS ON MILK TRUST

Investigation to Be Made by Officials in Portland of the High Prices Asked For Milk in the City of Roses--Gathering Evidence Long.

PORTLAND, Ore., Oct. 13.—Investigation of the present high price of milk, with a view of determining whether it is due to a combine on the part of the dealers, is to be carried on by the health and police authorities of the city council, assisted by members of the city board of health.

In a report filed with the council yesterday and referred to the committee which will investigate the milk prices, City Attorney Grant suggested that a committee be appointed to investigate conditions as his efforts to determine the existence of a milk

ENGLAND FEARS LABOR TROUBLE

Representatives of Spain in New York City Receives Letter Threatening Him With Death and Destruction of Consulate--Says He Does Not Expect a Revolution to Be Successful There.

NEW YORK, Oct. 13.—Emilio

Periera, consul general of Spain, stationed here, received a letter today threatening the consulate with destruction.

"I fear trouble," said Periera, who has been through the Carlist troubles on the French frontier, "and the

man who touches me today will be shot down."

The consul carries a revolver and is guarded by detectives.

"I don't think there will be a revolution in Spain," he continued. "The army and navy are loyal. Spain has had experience as a republic and did not like it."

POLICE ARE CLOSING ON DYNAMITERS

Detectives Today Are Searching for Mysterious Woman Who Is Said to Be Friend of Bryce and Morris in Times Case--Officers Believe They Are Close to Arrest of Men Who Committed Outrage.

SAN FRANCISCO, Oct. 13.—Seeking a mysterious woman, believed to have been the mutual friend of the so-called J. B. Bryce and the "squinny-eyed man" called Morris, suspected of the destruction of the Los Angeles Times plant by dynamite, detectives today began a systematic search of San Francisco. They believe they are close to the possession of facts that will lead to the arrest of the dynamiters within a few hours.

Information was furnished by Mrs. E. R. Ingersoll, who told the police that "Bryce" was brought to her home at 3656 Twentieth street two weeks before the Times explosion by a woman acquaintance. Bryce engaged a room and shortly was joined by the "squinny-eyed man."

One day she overheard them talking of dynamite, of possible police interference and of Los Angeles. Shortly before the night of the Times explosion Bryce left this city, but Morris remained.

Mrs. Ingersoll declared that she feared for her life and did not summon up courage to tell the police until last night.

She denied today that she had told the police anything, and said that the tale had been concocted by newspapermen.

Detective William J. Burns admitted this afternoon that the woman's story of the plot was true and that she had been instructed to deny it until the detectives could take advantage of her information without being hampered by amateur sleuths.

The woman who brought Bryce to the Ingersoll home is being sought. She undoubtedly will lead to the men wanted, provided Mrs. Ingersoll's suspicions are correct.

It was learned today that J. B. Bryce occupied a room at Mrs. Ingersoll's from September 4 until September 22.

ENGLAND FEARS LABOR TROUBLE

LONDON, Oct. 13.—With the approaching crisis in railway affairs in France, railway trainmen in England are showing increased unrest. Not long ago the country with a big tie-up of transportation lines and in many parts of England the men left their posts. A serious national calamity was averted at that time by compromise measures.

The trainmen, however, are not satisfied with either the wages or hours and the attitude of the French railway men is reflected here. Whether the discontent will become manifest will depend greatly on the success or failure of the French strike.

SPANISH CONSUL IS THREATENED

MARTIAL LAW TODAY PREVAILS IN SPAIN; KING READY TO FLEE

MADRID (Via Hendaie), Oct. 13.—The anniversary of the Execution of Francisco Ferrer is passing in Spain today with every manifestation of martial law. The entire army is under arms. The reserves have been mobilized and the cities are thronged with troops.

At Barcelona martial law already has been declared and Premier Canalejas announces that in the event of an uprising the king is confident of the support of the army. It is reported that Alfonso personally will command his forces. All leaves of absence have been suspended.

Reports from Barcelona indicate that the great stone prison, Spain's bastille, is guarded carefully by a heavy garrison for fear that an attempt will be made to dynamite the noted jail, in which hundreds of republican prisoners have been shot to death and in which Premier Ferrer was executed after a farcical trial.

Within the walls of the great edifice hundreds of political prisoners are buried alive in rat-infested, disease-filled cells. When the revolution comes in Spain, the great Barcelona prison will be one of the objects of attack, and the secrets that its shot torn walls will disclose will shock and thrill the world.

The execution squads of a tyrannical government have been at work three years shooting men for political offenses. Should Barcelona fall into the hands of the republicans of Spain the infamous prison will be torn stone from stone.

A great industrial strike on the railroads of France and the unrest in Spain today threatens to precipitate the fall of the already tottering throne of Alfonso XIII.

Preparations are being made secretly for the removal of members of the royal family to a point near the French frontier, presumably San Sebastian, the summer capital. Officials of the government deny any preparations for untoward events, but it is known here and admitted officially that the English fleet at Gibraltar is prepared to aid in protecting the royal family. Should the revolution overthrow the dynasty it is believed the Spanish princes will be placed on board a warship to rejoin the king and queen in England.

TEDDY STARTS N. Y. CAMPAIGN TOMORROW

CRAWFORDSVILLE, Ind., Oct. 13.—Arrangements were finally completed today for Colonel Roosevelt's campaign speeches in New York state, which will begin at Dunkirk tomorrow at noon. Before reaching New York City Saturday morning, the Colonel will speak at Jamestown, Salamanca, Wellsville and Elmira. He will speak fifty minutes at Wellsville and his Elmira address will be delivered in the evening.

TRIAL OF WEBB FOR MURDER IS NOW UNDER WAY

PORTLAND, Ore., Oct. 13.—In the trial of W. P. Webb for the alleged murder of William Johnson in the Grand Central hotel several months ago, Irene Trumbull, to whom it is alleged Webb confessed he killed Johnson to secure money for Mrs. Carrie Kersch, today testified that she was offered a bribe of \$250 to change her testimony in favor of Mrs. Kersch, who is charged jointly with Webb. Miss Trumbull said this proposition was followed by another to the effect that she would be given \$200 cash and a ticket to any city in the United States if she would leave Portland. Miss Trumbull asserted the alleged offer was made in the presence of another woman and that she refused it.

This afternoon the prosecution expected to bring out testimony to prove that Johnson was strangled into unconsciousness before his body was thrust into the trunk in which it was found at the Union depot, and that Johnson suffocated in the trunk.

SOAKING RAIN PUTS AN END TO FOREST FIRES

"Thank God for Rain" Wires Mayor of Beaudette--Every Home in Rapid River Section Is Destroyed--Martial Law Still Prevails in Burned District.

WINNIPEG, Man., Oct. 13.—"Thank God for the rain" was the message sent by Mayor Williams of Beaudette in his report that the forest fire crisis in northern Minnesota had passed.

A soaking rain fell throughout the night and the smoldering fires in the Rapid river country were quenched. Twenty-one men and boys who walked 25 miles from International Falls declare that every home in the Rapid River section was destroyed by the flames that raged for three days over a great area. They said, however, that they saw no human bodies.

Governor Eberhardt stated that he would return to St. Paul this afternoon, leaving militia officers in charge. Martial law is still prevalent in a portion of the burned district.

JOHN W. GATES TO WAGE WAR ON STANDARD OIL

New York Financiers Predict One of the Bitterest Financial Struggles in Years--Thirty-Three Distributing Points Already Established.--One for Brooklyn.

NEW YORK, Oct. 13.—Financiers predict one of the bitterest financial struggles in years when the Texas oil interests, headed by John W. Gates, begin operations against the Standard Oil company. Announcement has been made that Gates has just completed arrangements for a fight against the octopus and is now waiting to make the initial move.

With a view to underselling Standard, Gates and his associates have established 33 stations in the east and will shortly open a distributing station in Brooklyn, from which the lower priced oil will be sold.

Gates has opened up extensive offices in the financial district and will direct operations there.
