STRIKE IN FRANCE IS CHECKED

Determined Stand and Radical Orders of Premier Said to Have Broken Backbone of the Strike—Many of the Men Are Returning to Their Work on the Roads.

PARIS, Oct. 14.—Appalled by the riots of yesterday and overawed by the determined stand and radical orders of Premier Briand, the rank and file of the strikers wavered today and, deserting the "syndicate," returned to work on the trains in considerable numbers.

Wearing the sashes of the reservists, the men who yesterday fought in the streets against the soldiers and police, today manned the trains. The most loyal of the strikers gathered along the Western line, in the southern part of the city, shortly after dawn, when the first trains were started.

All day soldiers and police have been taking in the more prominent of the strike agitators. They will be tried on charges of inciting soldiers to insubordination through attempts to persuade the reservists not to obey the orders to assemble and with interfering with the employees of the state railroads.

In each case the prescribed punishment is severe. According to rumors, traffic on all roads except the Northern and Western is normal. Premier Briand is endeavoring to bring about a peaceable settlement of the difficulties, and it is said the remainder of the strikers will return to work within a short time.

BASS AND PERCH TO KILL RIVER EELS

Within a few years, if the plans of the fish commission "pan out," the big native lake trout of the upper Klamath will be free from the scars made upon them by the lamprey eels which infest the still waters of the lake and prey upon the big fish. This result, it is thought, will be brought about by the propagation of black bass and ring-necked perch in great many have already been planted by the fish commission.

BRYCE IS SAID TO BE IN FRISCO

Police Redouble Their Efforts to Dragnet City and Stop Every Loophole of Escape—Officers Say It is Only a Matter of Time Until They Have Man.

SAN FRANCISCO, Oct. 14.—That the man known as J. B. Bryce, suspected of being the ringleader of the Times disaster, is still in San Francisco has been proved to the satisfaction of the police, who today redoubled their efforts to dragnet the city and stop every possible loophole of escape.

When Daniel H. Ingersoll, husband of Mrs. Lena Ingersoll, the woman who overheard the alleged conspiracy to destroy the Times plant, rushed into the Mission police station last night and told the police that Bryce had just been admitted into his home at 3656 Twenty-Sixth street by his wife, a posse of policemen quickly went to the house and made a search. They found no one, however, except Mrs. Ingersoll, frightened and tearful. Though the man the police sought was not found in Ingersoll's home, the officers express their conviction that he is not outside the city and that a fine tooth sifting of all hiding places will bring him from cover.

Bryce and "William Morris," alias "Perry," alias "Smithy," both lodged at the Ingersoll home and it was while they were there that Mrs. Ingersoll says she heard the two men discussing the plot of the Times disaster.

That he saw Morris in this vicinity recently—in fact, not more than four or five days ago—is Ingersoll's statement to the police. They have secured a close description of their quarry from him and are preparing to send circulars all over the United States. Even if the man wanted gets out of San Francisco, the police say it will be but a matter of time until they are located elsewhere.

BOX OF APPLES IN CUPID'S ROLE

Orphan of John Day, Or., Puts Note in Box Seven Years Ago and Now Is Wife of Brother of Girl Who Received It.

PORTLAND, Ore., Oct. 14.—It was learned today that a romance which started in Oregon and developed in New York, has ended in Los Angeles, in a marriage, as all good romances should.

Bertha Luce, an orphan of John Day, Ore., put a note in a barrel of apples. The message was found by Minnie Pietrowsky of Jersey City. A correspondence resulted and the two girls became warm friends; although they have never met. Another resident of Jersey City, Mrs. Stosser, heard about the Oregon girl from Minnie and also began to correspond. Then the Stosser family moved to Los Angeles and Bertha Luce also went there. The eastern woman has six sons and one of them married Miss Luce. In a letter to a friend the bride declares she owes all her happiness to the note which she put in a crate of Oregon apples seven years ago.
