PHILADELPHIA EASILY WINS THIRD GAME

TRIMS HIS FRIENDS OF \$800; GONE

"Greek Meets Greek" and Now There is a Weeping and Wailing and Gnashing of Perfectly Good Greek Teeth Out in the Construction Camps of the Pacific & Eastern.

There was weeping and wailing and more or less gnashing of really good Greek teeth in the P. & E. construction camps the first of the week when George Kegeloz failed to return from a Saturday night trip to Medford.

George had confided to a few of his friends in the gang—thirteen of them, that he intended to make a trip to the city that afternoon and that he could do some shopping for them. With all confidence in their compatriot, each Greek, unknown to the other, endorsed his pay check to George and gave him a list of groceries and "such" needed. George cashed the checks all right and that is as far as is known of his actions. Monday came, no George. Tuesday dawned, and still no George, with goods dear to the Grecian heart.

Wednesday morning the members (Continued on Page 8.)

MEXICAN AMBASSADOR SAYS DYNAMITERS ARE ON SHIP BOUND FOR MEXICO

So Informs Secretary Knox of State Department, Who in Turn Advises Governor Gillette—Governor Now Awaits Reply From Los Angeles Police—Mexican Officials Watch Carefully for Suspects—Mrs. Bell Lavin, in Jail in Los Angeles, is Not Allowed to See Newspaper Men—Hearing Soon.

SAN FRANCISCO, Oct. 20.—Governor Gillette today is awaiting word from the Los Angeles police in answer to a message he sent yesterday to the southern city in connection with the dynamiting of the Times building in Los Angeles.

As soon as he hears from Los Angeles the governor will wire Secretary of State Knox at Washington in reply to the latter's telegram yesterday, stating that he had received word that three men suspected of complicity in the dynamiting were now aboard a Pacific Mail steamer which would soon land at San Benito, a Mexican coast port on the gulf of Tehuantepec.

Knox's telegram said he had received the information through the Mexican ambassador at Washington, who is believed to have secured his facts from the Mexican police who

have been active in watching for the dynamiters. Governor Gillette wired Secretary Knox last night that he had forwarded the information to the Los Angeles authorities and would let him hear again as soon as the Los Angeles police sent him a reply.

LOS ANGELES, Cal., Oct. 20.—In her cell at the county jail, permitted to see no one and refusing the advice of an attorney, Mrs. Bell Lavin today is awaiting arraignment on a charge of murder. Mrs. Lavin was arrested in San Francisco on a "Jane Doe" warrant issued here. The warrant was one of six, all of which contained a like charge. It is alleged that one of the men suspected of knowing something of the crime had been seen at her home in San Francisco.

12 TO 5 IS SCORE

Teams	R. H. E.
Philadelphia	12 14 0
Chicago	5 7 5

CHICAGO, Oct. 20.—Outbatted, outfielded, outpitched, but not out-gamed, the Chicago Cubs lost their third straight game to the Philadelphia Athletics by a score of 12 to 5 this afternoon.

The avalanche of runs for Mack's men resulted from fourteen hits by the men from Philadelphia, combined with five errors and erratic pitching by three Cub twirlers.

Chance had relied upon Ed Reilbach to hold the oncoming Athletics to a loss. He lasted two innings, McIntyre, who relieved him, lasted a third in an inning, and Pfeister, who went in with a forlorn hope facing him, was slammed liberally, while his teammates made errors behind him.

Coombs was erratic, as in the (Continued on Page 8.)

DEATH LIST IN FLORIDA WILL PASS 500 MARK PROPERTY LOSS HEAVY

Greatest Damage Said to Have Been Done to Shipping—Many Ships Are Wrecked—Keys Lighthouse Blown Down—East Coast Road Washed Away—Hurricane Today Centers in Atlantic Ocean Off Coast of North Carolina—Many Vessels Reported Sinking Where No Aid Can Be Given.

NEW ORLEANS, Oct. 20.—Reports received here today place the total dead in the recent hurricane in the neighborhood of 500. Property loss has been tremendous.

Reports are meagre owing to lack of communication.

WASHINGTON, Oct. 20.—The Florida hurricane today centers in the Atlantic ocean off the coast of North Carolina, according to weather bureau reports.

HAVANA, Oct. 20.—Cables from Key West indicate that the greatest damage done by the Florida hurricanes was to shipping. The Norwegian steamer Fos still is stranded and a Standard Oil barge is ashore at Island Key.

The Keys lighthouse was blown down and the East Coast railroad below Miami was washed out.

NEW ORLEANS, Oct. 20.—Steamers arriving here report a death list of at least 100 in the Florida storm that swept the Gulf of Mexico as well as the Southern states.

Many vessels were reported sinking under conditions in which it was impossible to offer aid. The steamer Carthage, 400 miles at sea, sent a wireless that she reached the schooner Beacher waterlogged early today. The schooner's crew refused to abandon their craft. A tow line was thrown, but the cable parted and the half-sunken vessel drifted away. A lifeboat was sighted, aboard which no life was evident, and it is thought the crew were drowned.

WORK DONE; COMMITTEE DISCHARGED

Special Water Committee is Thanked by Council and Dissolved—Last Chapter Written in History of Construction of Medford's Water System.

The final chapter in the history of the construction of Medford's \$500,000 water system was written at a meeting of the city council late Wednesday afternoon when the special water committee—that same committee which has bore the brunt of a bitter municipal fight for three years—was discharged. And with the discharge was voted an expression of gratitude for their services.

The special water committee was known originally as the regular light and water committee of the council and consisted of Councilmen Elfert, Wortman and Merrick. They were appointed by Mayor J. F. Reddy. During the early part of their career as a committee the city, while deciding upon a water supply, was torn by dissenting opinions. The committee at that time, if they had been discharged, would probably not (Continued on Page 8.)

CRIPPEN TAKES WITNESS STAND IN OWN BEHALF

Attorney Says Crippen Refused to Accept an Offer to be Smuggled Ashore With the Cargo and Gave Himself Up Voluntarily

LONDON, Oct. 20.—The defense of Dr. Hawley H. Crippen, charged with the murder of his actress wife, Belle Elmore Crippen, began today in Old Bailey Court. Almost the first point adduced by Barrister Tobin, Crippen's counsel, was intended to show that Crippen and Ethel Clare Leneve voluntarily gave themselves into the hands of the authorities at Quebec.

Tobin declared that Crippen refused to accept an offer to be smuggled ashore with the cargo by the quartermaster of the steamer Montrose, on which he was arrested. Crippen was aware he was being watched, Tobin said, and was advised of the contents of every wireless message that came to or emanated from the ship.

"Crippen was daily told of the plan to capture him by the Montrose quartermaster," said Tobin. "The quartermaster agreed to secrete him in the freight.

DAVID BENNETT HILL, DEMOCRAT, DIES IN NEW YORK

Noted Leader Dies of Cold and Complications Due to Age and Waning Vitality—Only the Nurse Present When End Comes.

ALBANY, N. Y., Oct. 20.—David Bennett Hill, democratic leader, former governor of New York and ex-United States senator, died at his residence, Wolfert's Roost, at 3:50 a. m. today. Hill had been ill for two weeks with a cold and its complications. During the last week his condition grew more serious, but yesterday he seemed to improve in health and appeared in exceptionally good spirits.

Age and waning vitality caused a relapse last night and he died suddenly, only the nurse being present as Hill breathed his last.

With eyes always on the presidency, Hill, while governor of New York, seized the state machine. Following Cleveland's defeat for the presidency in 1888, the Hill and Cleveland forces fought bitterly for control of the New York delegation to the 1892 convention. Hill won and formed a combination with Senator Gorman of Maryland for a juncture of forces to defeat Cleveland.

REVOLUTION IS LOOKED FOR IN DER FATHERLAND

Growing Impression That Suffrage Demonstrations in Prussia and Mere Recent Disorders in Moabti Are Forerunners of Serious Trouble

BERLIN, Oct. 20.—There is a growing impression throughout Germany that last winter's Prussian suffrage demonstrations and the more recent disorders in the Moabti quarter are preliminaries to a real revolution. Though public men fear to be quoted on such matters, privately they make no effort to conceal their real views.

The suffrage demands and the Moabti disorders are believed to have been mere tests of the radicals' strength. From the standpoint of monarchists they were alarming tests. It was with the utmost difficulty that the disorders were suppressed, and the impression prevailed that they probably would not have been suppressed at all had not the "unseen leaders" decided eventually that the time was not ripe for a widespread revolt and when they say enough "called off their dogs."

Official prophets predict that the next outbreak will occur in the coming winter, when a fierce socialist attack will begin in the reichstag against the kaiser on account of his claims to rulership by divine right.

ALL RECORDS FOR BALLOON FLIGHTS MAY BE BROKEN

Four of Big Airships Which Sailed Monday From St. Louis Are Still in the Air—Heading for Hudson Bay Country.

ST. LOUIS, Oct. 20.—All American records have gone by the boards and international records are seriously threatened by four balloons that sailed away from St. Louis Monday afternoon, still up according to last reports received at the headquarters of the Aero club of America today.

Somewhere above the Canadian forests the four balloons still unheeded from are supposed to be heading in a straight line toward Hudson Bay. They are the America II (United States, Helvetia (Switzerland), Azuria (Switzerland), and the Dusseldorf II (Germany).

According to the last report from any of the four racers, which was received early yesterday, the American balloon was in the lead, 50 miles ahead of the Dusseldorf, which in turn led the Mamburg III by five miles.

Word has reached here that the Hamburg III had dropped 1800 feet into Lake Nipissing, Ontario, and that Pilot Vogt and Aide Assman had been rescued from an island where they had spent the night. Assman's arm was broken and he is being cared for by the Cherokee Indians who rescued the two aeronauts.

LOOKS LIKE FINE NIGHT FOR FIGHT IN COAST LEAGUE

Graham's Fighting Blood is Aroused and It is Expected That He Will Put Recent Letter of McCredie Squarely Up to Him

SAN FRANCISCO, Oct. 20.—One of the most important meetings in the history of the Pacific Coast League will be held today and the indications are that fireworks of the rarest sort will be set off. First and foremost in general interest, the matter of McCredie's reply to President Graham's decision in the Portland-Oakland games protested by Oakland and forfeited to that club because of the playing of Helling, who has been declared ineligible, will come up. Graham is determined to thoroughly thresh out the matter, and there is every prospect that punishment will be meted out to the Portland magnate and manager. The extremely discourteous language used by McCredie in his reply has stirred the fighting blood of Judge Graham.

Next in importance to the McCredie incident will be the Helling case. The McCredies will appeal to the directors from Graham's decision and another merry row is bound to follow.

All in all, it looks like tonight is going to be a fine night for fights in the Coast League. (Continued on Page 8.)

CLUB MEMBERS MAY PURCHASE MEGAPHONES

Orators Forced to Compete With Bowling Alleys, Dance Halls, Etc., but in Spite of That Commercial Club Holds Interesting Session

The Medford Commercial Club held its first meeting in its new hall in the Natatorium building Wednesday evening. The members had to compete with the thunder of the bowling alley underneath, the whir of a moving picture machine and the jangle of a piano alongside, a public dance overhead, and a constant stream of people coming and going through the main entrance on the other side. When the roller skating rink is completed, it is probable megaphones will be needed for the club members to make themselves heard.

Most of the evening was spent discussing the proposed apple exhibits at the various apple shows. R. H. Hanauer of the exhibit committee reported that arrangements had been made to send a car of Newtowns from the Renshaw orchard to the Canadian National apple show at Vancouver, and the committee was authorized by the club to have an expense not to exceed \$300 to forward the same car from Vancouver to the Spokane and (Continued on Page 8.)

CENTRAL PARK PROMISED BY S. P. RAILROAD

Railroad Will at Once Park and Afterwards Care for and Maintain at Its Own Expense Beauty Spot in Center of City.

The Southern Pacific will at once park and afterwards care for and maintain at its own expense that portion of the right of way extending from the depot to Main street east of the track and north to Wells, Fargo building. Later on the portion west of the track, as well as the block where the old depot stands, will be parked. For the present the old depot will be used as a freight station and will not be removed for some months.

Such was the assurance by Vice-President and General Manager O'Brien Wednesday afternoon to a committee of the Greater Medford Club, consisting of Mrs. H. C. Kentner, Mrs. J. F. Reddy and Miss Putnam, who called upon him with reference to the proposed park improvement.

Mr. O'Brien further promised the ladies, who informed him that they had no funds for parking purposes, (Continued on Page 8.)

SIX KILLED; TWENTY HURT BOILER EXPLOSION

NEW YORK, Oct. 20.—Six men were blown to atoms, two were fatally injured and nearly 20 others severely hurt in a boiler explosion at the American Manufacturing company's plant, a jute concern, at Green Point, L. I. today.

Twelve men were in the boiler room at the time of the explosion and several of them were hurled a city block by the force of the blast. As the boiler let a gale started among the 2,500 employees of the company and many were bruised and trampled in the rush and fight for the exits.

The walls of the building were wrecked and four cylinder heads were driven upward through three stories of the building, endangering the lives of scores of employees.

ORANGE SHORTAGE HELPS APPLES

General Manager of Northwestern Fruit Exchange Believes That Shortage Florida Crop Will Cause Better Prices to be Paid for Apples of This Section.

PORTLAND, Ore., Oct. 20.—That the shortage of the Florida orange crop will result in a good market for northwestern grown apples, is the opinion of F. R. Gwyne, general manager of the Northwestern Fruit Exchange.

The demand for northwestern apples, he believes, will be much larger this year.

"In addition to the orange shortage caused by the unusual weather conditions, which have visited the south have done a good deal of damage to the orchards," said Mr. Gwyne. "Prices will be larger this

season than usual. People will not buy as heavily of oranges and will naturally seek a substitute. The better grades of apples shipped from the Pacific northwest states will therefore take the place of oranges, particularly Oregon and Washington."

About twenty carloads daily are being shipped out of the apple district of the northwest. The shipments average about 12,000 boxes a day. The movement is expected to reach the maximum about November 1, with daily shipments of about 25 carloads.

TAFT IN WASHINGTON FOR WINTER GRIND

WASHINGTON, Oct. 20.—After a summer vacation, filled with Beverly sea breezes, Beverly golfing, hobnobbing with politicians and financiers, President Taft arrived at Washington at 7 o'clock this morning for the winter grind at the national capital. The president looked the picture of health and though he made no direct statement to that effect, the smiling face, the ruddy skin, and an elastic step, all noticeable as the chief executive stepped to the station platform from his car, indicated that he was in proper trim for the arduous duties before him.

During the last few hours of his stay in New York the president heard considerable from republican leaders that spoke well of republican prospects this fall.

JIM HILL'S SOIL EXPERT IS HERE

Thomas Shaw, Soil Expert for Great Northern, is in Valley Making Study of Conditions Here—Is Accompanied by His Son, Who is Connected With Washington State College at Pullman, Wash.

Thomas Shaw, soil expert, who has been in the employ of James J. Hill, the empire builder, for a number of years, doing much work along the line of the Great Northern railroad, is visiting Medford, and is making a study of soils in the valley. Just how extensive Mr. Shaw's investigations will be has not as yet been determined.

Since the Pacific & Eastern railroad was taken over by Mr. Hill his officials have been paying more and more attention to the Rogue River valley. Mr. Shaw's trip here at this

time indicates the compiling of information needed by the officials in their advertising of the lands along the roads for colonization purposes. Mr. Shaw is accompanied by his son, Prof. W. T. Shaw, who is connected with the Washington State College at Pullman, Wash.

You "pay" for neglecting to read classified advertisements—and sometimes you pay a big price. Maybe it's in the guise of too much "out-or-of too small wages. Inevitably, you "pay."

MANUEL MAY SEEK AMERICAN HEIRESS

LONDON, Oct. 20.—Don Manuel the deposed king of Portugal, Queen Mother Amelie and suite arrived on the royal yacht Victoria and Albert last night and today are on their way to the Duke of Orleans estate in Worcestershire, where the de-throned "boy king" and his mother, together with some noble friends, will rest for a time. As Manuel stepped ashore he looked pale and worried. The events of recent weeks had clearly been a severe strain to him. Reports are current regarding Manuel today. That he is badly in need of money is undisputed. There would be small surprise if the deposed ruler at once sought marriage in a rich American family with a view to retrieving his fallen fortunes.
