PLANNING POST SEASON GAME

Fielder Jones Will Lead Aggregation of All Stars Against the Beavers November 13. Provided the Weather is Good—Final for Season.

PORTLAND, Or., Oct. 27.—It was announced today that Fielder Jones, the former famous leader of the Chicago White Sox, would lead the All-Star aggregation against the Beavers. The game will be played on Sunday, November 13, provided the weather is favorable. The proceeds of the contest is to be divided among the Portland team.

"Speck" Harkness, one of the star twirlers of the Beavers last season, will don the uniform and pitch for the All-Stars and Billy Sullivan or Cliff Blankenship will catch for them.

Fielder Jones is in the east at present and may persuade some of the big league players who intend to spend the winter on the coast to come to Portland and play in the game. Jones will hold down center field.

Although it is not definitely known, Manager McCredie may decide to use his three star twirlers in the game, or may only use Vean Gregg throughout the session.

The Beavers will arrive here on November 9 and will start practice for the final game of the year.

EXPECT REVOLT IN EGYPT SOON

Foreign Office Making Preparations for Meeting Widespread Revolution—All Officers Are Required to Remain on Duty.

LONDON, Oct. 27.—Preparations for meeting a widespread revolt in Egypt are being made by the foreign office, the officials of which do not conceal their fears that an uprising of the African dependency will come soon.

All leaves of absence of officers in the British Egyptian forces were cancelled a week ago and the officers are scurrying to rejoin their commands and bring them up to a war footing.

It is believed that a "holy war" will be preached by the Mohammedans and that this propaganda will be the signal for a fierce outbreak which will require the utmost exertion to put down.

The disturbance in Egyptian circles is said to foreshadow the recall of Sir Eldon Gorst, British agent in Egypt, and the appointment of Sir Reginald Wingate, sirdar of the Egyptian army, to succeed him.

WALLA WALLA FRUIT SHIPPED TO COLORADO

WALLA WALLA, Wash., Oct. 27.—Fancy Walla Walla apples are being shipped to Colorado, reputed to produce more apples than any two of the northwestern states.

Only recently have local dealers attempted to invade this market, but their success was instantaneous. Since Monday a local firm has shipped to Denver three carloads of fancy apples.

Colorado buyers call for nothing but high grade fruit, stating in their orders that they have plenty of apples of inferior quality.

NEARLY DEAD, MAN TAKEN FROM SHIP

GALVESTON, Tex., Oct. 27.—Almost dead from hunger and thirst, Captain E. W. Walls of the schooner Hollisworth has been rescued in a delirious condition, after drifting 84 hours on his ship, which had been abandoned by all of the crew except himself. The Hollisworth sprang a leak two weeks ago and the crew took to the boats, taking a supply of water with them. Captain Walls refused to leave the ship, remaining on board until he was picked up by the steamship Parkwood on October 20.

Captain Walls is being acclaimed "the gamest skipper of them all."

Three hundred boxes of Newtown apples were packed up yesterday for the sweetstakes contesting car at the National Apple show at Spokane, November 14. The Ad Helms orchard south of Ashland is the contestant and the packing is being done by the best of packers in the valley, being under the foremanship of Walter Pierson, who packed the Chas. Pope car last year.

The Helms car leaves on the 5th of next month for the scene of the contest and glory.

STOCK MARKET STRONG

NEW YORK, Oct. 27.—The stock market today opened strong with sharp advances in several speculative favorites. The volume of business, however, was not large. Southern Pacific, St. Paul, Northern Pacific, Rock Island and Chesapeake & Ohio rose large fractions. The retention of the 5 per cent Bank of England rate had a reassuring effect on speculative sentiment. There was buying in Union Pacific on the expectation that the annual report to be given out during the day would make a favorable showing. The market closed strong.

Bonds were irregular.

CHINA PLANS ARMY OF MILLION MEN

PEKING, Oct. 27.—The recent intimation conveyed to the Chinese imperial commissioners that Japan is strengthening her position in Manchuria with the view of reducing Chinese to subjection led today to renewed activity in army circles. Prince Ching, head of the imperial army, is said to have been secretly notified that he must bring the armed strength of China up to 1,000,000 men within the next two years and it is believed that similar orders have been given to naval officers.

The recent visit of Secretary of War Dickinson to Peking gave added impetus to the military propaganda in China. Dickinson, in a speech delivered at a banquet in the Forbidden City, attended by the highest Chinese statesmen and leading diplomats of the orient, urged upon China the necessity of being in a position to check any aggression on the part of her powerful island neighbor.

Vessels Are Watched.

SAN FRANCISCO, Oct. 27.—Facts that came to light today indicate that the steamship San Juan of the Pacific Mail line is not the only one which officers who are engaged in the chase of suspects in the Los Angeles Times dynamiting case were watching, and it also appeared that Chief of Police Galloway of Los Angeles did not let out any valuable information Tuesday night.

While it is true that three of the supposed principals in the dynamiting case did take passage for South America and are now at sea, they are now far beyond the reach of the Mexican authorities and are on a boat which touched at Acapulco on October 15.

OHIO MAN IS A BOOSTER FOR FAIR

Never Ate Such Delicious Vegetables Nor Saw Them Grow So Fast as in the Rogue River Valley, the Gem of the Universe.

W. H. Nuding of the Eagle Park ranch, near Eagle Point, was in Medford Wednesday on a business trip, looking after his apple shipments.

Mr. Nuding purchased the ranch, comprising some 294 acres, last year, and took possession March 1 this year.

"I have a small family orchard on the place, he said, "with many varieties of the old-fashioned apples. Some of my Twenty-ounce Pippins were commandeered for exhibition at the northern apple show, and also the committee purchased a number of boxes of my Ortleys for the same purpose. When we took possession of the place and I set out a garden, and the way those vegetables grew was not only a pleasure, but a revelation to us. In Ohio, where we came from, irrigation is not so necessary, or isn't considered so, but from now on I am an enthusiastic believer in irrigation. My land lies under the Fish Lake ditch, and from the time I turned the water on the garden you could fairly see those vegetables grow. And I never tasted more tender, sweet and palatable garden truck in my life than here. I had corn that would stack up with the best of the Missouri valley product, and pumpkins, squash, cabbage and other things the old residents there would not believe could be grown. I am an Oregonian, and a Southern Oregonian, from this time on. It's good enough for me."

SNOW AND ZERO WEATHER IN EAST

CHICAGO, Oct. 27.—Freezing weather and snow held sway in the Mississippi valley today. For the first time this fall the air was filled with feathery flakes. PHILADELPHIA, Oct. 27.—Cornelius McGillicuddy, whose baseball name is Connie Mack, and the leader of the world's champion Athletics, was married today to Miss Katherine Hallahan of Pittsburg. The ceremony was performed in St. Paul's Catholic church at Ticonderoga. The wedding was intended as a surprise. Mack's family first knowing of it when he introduced his bride. Mr. and Mrs. Mack will go to Italy on their honeymoon. They will leave at once and Mack will not be present at the parade and banquet to the Athletics here on November 5.

NEW DIRECTORY IN FRISCO IS BULKY

SAN FRANCISCO, Oct. 27.—One of the six best sellers, at \$6 per sell, was issued here today in the form of San Francisco's new city directory.

The directory of 1910 contains 186,148 names against 175,214 for 1909, and 167,766 for 1908.

The compilers of the directory say that about 7000 names are of persons engaged in business occupations in San Francisco, but live outside. Eliminating these names, and basing the total population on the figures established on the eastern basis of two and one-half persons to each name in the directory, the population of San Francisco is estimated at 450,000. The directory people say, however, that in San Francisco two and three-eighths would probably be the proper multiple. This would indicate that San Francisco's population is about 430,000, or an increase of close to 100,000 since the federal census of 1900 was taken. And that, considering the trials of a great city reduced to ashes only four years ago, is showing remarkable growth.

"HAD BULLY TRIP" SAY AERONAUTS

Hawley and Post Found in Quebec, Canada. After Traveling 1355 Miles in Balloon America II—At No Time Were They Alarmed.

CHICOUTIMI, Que., Oct. 27.—Armed with affidavits to show they really broke all records by landing 1355 miles from St. Louis, Alan Hawley and Augustus Post, pilot and aide of the balloon America II, left here today for Quebec, whence they will make their way back to St. Louis.

Before leaving, Hawley and Post commissioned trappers to locate and recover the gas bag of the America II from the slope near Lake Tashigama, where the balloon landed.

Almost the entire population of Chicoutimi witnessed the departure of the aeronauts, giving them a rousing send-off.

Hawley and Post declared they had had a "bully" trip. At no stage of the race were they alarmed, they said, in spite of the fact that when they landed they were practically out of provisions. They fought their way through the wilderness for four days before they reached the camp of Jack Matthias at St. Ambrose. From there they were brought to Chicoutimi in a canoe. They said they had suffered nose, but lived on short rations until they reached the camp of the hunters.

Until they encountered a snow-storm late Wednesday, 48 hours after leaving St. Louis, Hawley and Post were confident of being able to reach the extreme coast of Labrador. The storm was too much for them, however, and, selecting an unnamed peak, they descended. The landing was easy, they said. That night they spent in the balloon basket. Next day they deflated the gas bag and set out on the return journey.

NEW YORK, Oct. 27.—Most of the \$12,000 raised as a reward for the discovery of Allan Hawley and Augustus Post, pilot and aide of the balloon America II, for whom a continent-wide search was started, will be spent in the entertainment of the two daring sky pilots when they reach New York early tomorrow, according to plans being formulated today.

Hawley and Post will be feted and banqueted by at least half a dozen organizations interested in aerial navigation and their friends are planning a series of entertainments.

WOUL'DST DIE? YOU HAVE A GOOD EXCUSE

CHICAGO, Oct. 27.—The high cost of living as justification for an attempt at suicide was upheld by the Chicago municipal court today when it released Mrs. Katherine Elson, wife of Jacob Elson, a cabman, and the mother of eight children, who was charged with attempted self-destruction.

Elson, pleading for his wife's dismissal, said he earned \$13 weekly.

"The children wanted feathers on their hats like other children," said Elson, "and \$13 a week wouldn't buy food. I sank deeper and deeper into debt. I knew my wife contemplated suicide, but couldn't blame her, and never said a word when I saw her bring home a bottle of poison."

Mrs. Elson drank poison, but was saved by prompt medical assistance.
