IRRIGATED ORCHARDS PLANTED TO STANDARD VARIETIES OF TREES

PLOWED, LEVELED AND FENCED

\$350 Per Acre

20 PER CENT CASH. BALANCE COVERING PERIOD OF FOUR YEARS.

The variety of trees in your orchard is of vast importance. When your orchard is in bearing it should produce marketable fruit, the kind that is in demand in the market and the kind for which this district is famous.

TRANSPORTATION

Nothing is more important to the grower than convenient transportation. This feature of our proposition is one of its attractions. The Hill System has built its P. & E. R. R. directly through the center of our lands and exactly in the middle of our orchard tracts the company will build a station, giving prompt and adequate service to the growers. both for shipment and for passenger traffic.

OUR LARGE AREA

We have 6500 acres of orchard land, which includes nearly every kind of soil represented in the valley, and every acre of this land carries with it a perpetual water right in the Rogue River Valley Canal Company.

OUR PAYMENT PLAN

Our small payment plan covering more than sufficient ' time for the development of your orchard, which provides for the care and development of orchard tracts, should interest every salaried man. If you will call at our office or write to us, we will take pleasure in giving you full information relative to this attractive proposition.
