

WEATHER—Cloudy tonight.  
The Message of the Flags.  
White—Fair weather.  
Blue—Rain or snow.  
White and blue—Local showers.  
Black triangular—Above white, warmer; below white, colder.  
White with black center—Cold wave.

# MEDFORD MAIL TRIBUNE

Full Leased Wire Report.  
The only paper in the world published in a city the size of Medford having a leased wire.

FIFTH YEAR.

MEDFORD, OREGON, MONDAY, OCTOBER 31, 1910.

No. 191.

## 13-YEAR-OLD GIRL IS BURNED TO DEATH

### TRAGEDY ON NORTH CENTRAL

Little Casteen Carlson, daughter of Fred Carlson, an employee of the Woods Lumber Company, so badly burned she lives but an hour—No light on how flames started.

Little Casteen Carlson, the 13-year-old daughter of Fred Carlson, an employee of the Woods Lumber company, burned to death this morning at her home on North Central avenue. How the flames originated is not definitely known, but it is believed that the child's dress caught fire from the kitchen stove. With the exception of her younger sister, aged 11, she was alone in the house at the time.

The first known of the tragedy was when the child ran into the yard, screaming, and attracted the attention of Mrs. O'Brien, a neighbor. She was crying at that time for help. Mrs. O'Brien was forced to make her way around a fence to reach the child, and then rendered assistance, but it was too late.

Dr. Clancy happened to be passing at the time and rushed in. The child was carried into the house, where an hour later, in spite of the efforts of Dr. Clancy and Conroy, she passed away.

Mrs. O'Brien telephoned at once to the Woods Lumber company for the girl's father. He and Manager Wilson at once rushed out to the house, but they could do nothing.

For the past year Little Casteen has virtually been the mother of the home as her mother died a year ago. A housekeeper has been employed a part of the time. It is thought that the girl was working in the kitchen when her clothes were ignited.

Mr. Carlson and his family came to Medford three and a half years ago from Montana and has been with the Woods Lumber company the greater part of the time.

### PORTLAND WILL WIN PENNANT, IF

Only Chance Oakland Has Is to Win Seven Straight Games and Portland Must Lose Four Games to Vernon.

PORTLAND, Or., Oct. 31.—Although the word "if" has been not eliminated from their calculations as yet, Portland fans have concluded that the Beavers will win the pennant this season. According to pencil and paper tabulations Oakland's only chance to win the coveted bit of bunting is to defeat Sacramento seven straight games during the coming series commencing Tuesday, while Portland must lose four to Vernon during the series.

This is the final week of baseball for the Coast league, and with the Oaks handicapped as they are Portland is looking to her stalwart players to "bring home the bacon."

The fans mathematically inclined have figured out the dope this way: If Oakland wins four straight from San Francisco and Portland drops four to Vernon the standing will be as follows.

Club	Won.	Lost.	Pct.
Oakland	126	93	.5753
Portland	115	86	.5721

If, however, Portland wins the series from Vancouver, on a margin of four to three, and Oakland wins all her games with the Seals, this will be the result:

Club	Won.	Lost.	Pct.
Portland	116	85	.5771
Oakland	126	93	.5753

Should Portland win but three out of seven this week and Oakland all

### ONE OF THE BEST SHERIFFS JACKSON COUNTY EVER HAD

Wilbur A. Jones, candidate for re-election. Mr. Jones has been a capable and conscientious official and fearlessly and impartially fulfilled the duties of his office. (Not a paid advertisement.)

### SULTAN OF ZULA TO CIVILIZE HIS PEOPLE AT ONCE

Will Introduce Locomotive, Aeroplane, Hobble Skirt and the Coal Bucket Hat. Even if He Has to Behold of Few Hundred.

MANILA, Oct. 31.—The locomotive, the automobile, the aeroplane, the hobble skirt and the coal bucket hat soon will be seen in the Zulu archipelago. His majesty, the sultan of Zulu, announced today that civilization in Jolo and the surrounding islands of the Zulu group will be introduced, even if he has to behold a few hundred subjects to inculcate his ideals.

His majesty recently returned from a tour of the world. The wonders of the big cities appealed to his romantic imagination with such force that he shall be duplicated or imitated in his realm.

Following the railroad which the sultan plans in Jolo, will come the opening of schools and the education of the Moros to an appreciation of the benefits of the tariff the high cost of living, industrial strife and religious controversy, not to mention after dinner speeches and other tures invented by civilized man.

**Ball Player Recovering.**

TACOMA, Wash., Oct. 31.—Norman Pike, captain of the Whitworth College football team, who was injured in the game between Whitworth and Pacific university of Forest Grove, Or., Saturday and whose life was for a time despaired of, is reported by the Fanny Paddock hospital to be out of danger and today was resting comfortably.

In the game Saturday Pike was struck in the abdomen by the knee of Captain Ward of the opposing team while he was trying to make a tackle. He was taken to the hospital suffering severely and an operation was performed.

By denying the writ the action of the lower courts is virtually sustained.

### TEAMSTERS THREATEN BIG STRIKE

Unless City Officials Withdraw Men Riding on Express Wagons All Drivers in New York Will Go On Strike, Paralyzing Business of the Entire City.

NEW YORK, Oct. 31.—One of the greatest traffic strikes in the history of New York is threatened today by the officials of the Brotherhood of Teamsters, following a refusal of the city officials to withdraw policemen riding on the wagons of various express companies whose drivers and helpers are on strike.

The teamsters' union served an ultimatum on the city authorities today declaring that unless the guards were withdrawn every union teamster in New York would quit work. Val Hoffman, vice president of the International Brotherhood of Teamsters, said that the drivers of department store wagons, coal and ice wagons, drays, trucks and even of city garbage wagons are ready to strike at a moment's notice.

**Strikebreakers Arrive.**

Thousands of strikebreakers arrived this morning to man the wagons of the Wells Fargo, Adams, American and United States express companies. Scores of armed guards have been hired by the companies to protect the strikebreakers. In addition to these the Metropolitan police force practically has been placed at the disposal of the companies and it was this action that has called down the condemnation and anger of the union officials.

**Reserves Are Held**

In every precinct station of Manhattan, Jersey City and Hoboken police reserves are being held in readiness for riot duty. Agents of the express companies are urging upon the state authorities to intervene in the already serious situation and order out militia from the New York city armories.

Realizing the menace contained in the threat of the teamsters to tie up traffic, the express companies have appealed to the city board of health to prevent a strike among the garbage handlers and among the trades supplying the necessities of life to the people of New York.

### ROGUE MAGAZINE IS INCORPORATED

Arthur Brown, Lynn Purdin and F. B. Waite Are Incorporators—Capital Stock Amounts to \$10,000—Will Do Business in Medford.

The Rogue Magazine, which was launched two years ago by Arthur Brown, has been incorporated for \$10,000. Arthur Brown, Lynn Purdin and F. B. Waite are the incorporators. Mr. Purdin at present is the publisher of the Central Point Globe, while Mr. Waite is a wealthy land owner of Roseburg, also having interests in this valley.

According to present plans, the plant of the Globe will be moved to Medford. The magazine is to be enlarged and bettered in every way. The December issue will comprise 60 pages, whereas the magazine has carried 36.

The Rogue Magazine has ever been a booster for the valley and no doubt under improved conditions its scope will be greatly broadened.

You believed that "dead stock" to be salable when you bought it. Probably it was—and is. Concentrate a little advertising on it—and in a week, forget that it ever worried you.

As to that used article you want to sell: make the price attractive—and make the ad explicit. That's all!

### NEW CULVERT BRACED TO PREVENT ITS COLLAPSE

Photograph of new corrugated iron culvert on Medford-Talent road, showing supports to prevent caving in. Built under supervision of County Commissioner Patterson, who was defeated for re-nomination at the republican primaries and seeks re-election as an independent. It was improperly constructed, and will probably clog up with debris after the first heavy rain.

### PIPE LINE FIXED PLENTY OF WATER NOW FOR CITY

Officials Put in Strenuous Day's Work On Line Where It Crosses Little Butte Creek—Water Again Flowing Into Reservoir.

After a strenuous day's work on the city pipe line where it crosses Little Butte creek, 22 miles from the city, the break which occurred Saturday was repaired Sunday evening and water is again running into the city reservoir.

The entire day Sunday was spent by the city officials in repairing the break. The work was done under the direction of Engineer Roberts and Street Superintendent Baker with a crew of eight or ten men. Mayor Canon also was on hand and assisted.

### INSURRECTION IS RAGING FIERCELY

Troops Dispatched to Scene With Orders to Quell Worst Outbreak in Recent Years in the Philippine Islands.

MANILA, Oct. 31.—One of the greatest insurrections since the pacification of the Philippines is raging today in southern Mindanao. The Monobos are reported to have devastated several coast villages, sacked many hamlets and slaughtered the inhabitants.

Brigadier General Pershing is en route with 1000 United States troops and 500 scouts and constabulary.

Only meager details of the uprising have been received here, but it is believed the insurrection resulted from resentment over the policy of Dean Worcester, secretary of the interior.

Mass meetings are being held by the natives throughout the archipelago endorsing a demand for the resignation of Worcester for his alleged anti-Filipino utterances. Americans in the islands, however, support the action of the secretary.

**Guggenheims to Wed.**

NEW YORK, Oct. 31.—Henry Guggenheim, 20, son of Daniel Guggenheim, head of the smelter trust, this afternoon obtained a license to marry Helen Rosenberg, 24. The date of the wedding is announced as November 9.

### SUSPECTS IN TIMES CASE ARE CAUGHT

State Department at Work on Investigation Concerning Arrest of Five Men Off Mexican Coast—Smith's Cabin Found and Police Are Hard at Work.

WASHINGTON, D. C., Oct. 31.—The state department began today preparations for an investigation into the arrest of five men at Acapulco, Mex., suspected of complicity in the dynamiting of the Los Angeles Times. It was stated here today that Governor Gillett of California must first prepare authentic evidence before the department can request the Mexican government.

The Mexican courts also must first dispose of the cases before the state department will take action.

**Mexican Police Work.**

MEXICO CITY, Oct. 31.—The authorities who arrested Henry Ham, O. Carlson and Daniel Archer on the power schooner Kate when that vessel put into Acapulco after having been the object of a wide search by detectives investigating the Los Angeles Times dynamite case, are today endeavoring to learn why \$10,000 was carried by the men and why the vessel should have a crew of five men when but two are needed to operate her.

Carlson, Ham and Archer are being held in the Acapulco prison, while Captain Endeth and Adolph Adolphson, the engineer, are under police surveillance on board the Kate.

**Think Wrong Persons.**

LOS ANGELES, Oct. 31.—The Los Angeles police do not believe the men arrested at Acapulco, Mex., on suspicion that they might tell something regarding the Times explosion are the persons for whom the local authorities are searching.

The police have found Captain John Osterhaus, who took the Kate, on which the men were found, on the first leg of her voyage down the coast. Osterhaus, it is said, has convinced the authorities that the men on the little vessel know absolutely nothing of the Times affair.

It was reported here today that the police will do nothing to secure their return to Los Angeles. Further, it was demanded that no steps be taken to secure their extradition be taken.

**On Smith's Trail.**

LARKSPUR, Cal., Oct. 31.—If F. A. Bryce or "Smithy" as he was known, can be shown to have frequented an isolated cabin near here, as he is believed to have done, the authorities are convinced they have opened up a new trail that may lead to unraveling the Times dynamiting case.

Near the cabin a sub-case was found yesterday containing a small amount of dynamite. It is believed the cabin was used as a rendezvous for the dynamiters and that they experimented with infernal machines and explosives there.

While Smithy was living at Corte Madera he was seen going in the direction of the cabin almost every day. Usually he remained away for several hours. The police say there is no place in that direction except the cabin where he could have gone.

**Prince in Seattle**

SEATTLE, Oct. 31.—Prince Ghika of Roumania, whose family ruled that country for three years, is being entertained in Seattle today.

The prince says he has been hunting in Alaska and that he has had fine sport. He says he killed two bears, three mountain goats and two moose. Hunting in Alaska, he says, equals hunting in the dark continent.

In an interview with a reporter the prince absolutely renounced his rights to the throne of Roumania, declaring that the dynasty now in power, backed by the powers of Europe, is for the best interests of his country.
