

Mr. Businessman!

Can You Afford to Wait?

Prohibition Means---

A Slump in Property Values
 A halt in the progress of a wonderful progressive community
 A stagnation of business--and worse yet--
 A readjustment which will take two or three years to recover from

Can You Business Men Afford to Wait?

Will You Stand for a Business Upheaval at This Time?

The Prohibitionist, steeped in the fanaticism, farce and fraud of his hopeless theory--a theory which has bred perjury, hypocrisy, hate, lawlessness, riot and even murder and lynching, will hold up his hands at this time and say "All Bosh"

LISTEN The basements of three hotels in Medford have been completed. One of these will cost \$75,000, the other \$100,000 each. Work on all have been suspended pending the result of the vote on the Prohibition measure, November 8.

THAT IS NOT ALL, There are numerous other business deals, both large and small, held up pending the result--of what?

The adoption or rejection by this state of either statewide Prohibition--a curse, shame and failure in every state in which it has been tried--or

The adoption of the Home Rule Bill (328) which gives every city the right to regulate, suppress or prohibit the sale of liquors under the criminal and local option laws. The extension of local option in cities. In other words, a permanent solution of the liquor question.

Vote For Home Rule and let your own city and every other city decide the question for itself.
