PLUMP FOR JUDGE KING

JUDGE WILL R. KING of the supreme court should receive on next Tuesday the vote of every progressive citizen of Southern Oregon. He should receive the vote of every man who is in favor of the up-building of the state.

Those people who believe that the Crater Lake national highway should not be built with state aid and that the road would be merely a local road will probably vote against him. But at this election the people of Jackson county should go on record as favoring the retention in office of a fearless judge who was not afraid to stand up before a large majority, comprising the supreme court of the state of Oregon, and tell them to their faces that their decision was wrong.

A vote for Judge King is a vote in favor of progression. A vote in his favor is an acknowledgment by the people of Jackson county of the faithful work he did in the consideration of this case.

Judge King will probably be re-elected. His friends throughout the state are legion, but the majority that he should secure on next Tuesday in Jackson county should be one of which every citizen and taxpayer in the county might well be proud.

We urgently recommend each and every voter of Jackson county on next Tuesday, in marking his ballot, to place a cross between the number and the name of Will R. King of Malheur county for the office of justice of the supreme court for the six-year term. His majority in Jackson county should be overwhelming.

Judge King's election can best be brought about by "plumping" for him. Don't vote for any of the other candidates for supreme court justice for the six-year term, but him. Then your vote will count double.

CAN THANK PATTERSON

PEAR BLIGHT in the valley is now thoroughly under control. Had there been adequate inspection provided last winter, there would have been no trouble this year. As it was, holdover cases caused damage to some orchards.

The damage done by blight was attributed last May in a published statement by Professor O'Gara as due principally to "insufficient inspection, due to the fact that there were not enough inspectors to do the work. The force of inspectors from October up to spring has consisted of only two men."

The lack of proper inspection was due to a reduction in the force of inspectors by the county commissioners, at the instigation of Mr. Patterson last November, in the midst of the orchard cleaning campaign and against the protest of Horticultural Commissioner Carson, Professor O'Gara and orchardists.

On November 3, 1909, the commissioners discharged Inspector J. C. Aitken and the minutes show for the following reason: "It appearing that the services of three deputy fruit inspectors are unnecessary at this time, and the court being fully advised in the matter."

The action evoked widespread disapproval. The Mail Tribune pronounced it at the time, "penny-wise and pound foolish and little less than criminal." Mr. Carson and others interested called upon the county court, but no additional inspectors were appointed for months—until the damage had been done. And the fruit growers paid the penalty.

For the reappearance of blight in orchards last spring, orchardists can, in a large measure, thank Mr. Patterson.

READY FOR THE BALLOT

"THE tumult and the shouting dies." The end of the campaign is at hand.

The issues are clearly defined. In the state campaign it is assemblyism, and all that it stands for, versus the rule of the people.

It is restoration of machine rule, of government by politicians and corporations, of enemies of direct primary, against popular government.

It is Jay Bowerman, assembly nominee, Southern Pacific attorney and normal school slayer, against Oswald West, state railroad commissioner, direct primary and Statement No. 1 champion.

In the congressional campaign, it is Cannonism, Aldrichism and stand-patism versus insurgency and protest against government for special interests.

It is Hawley, knight of the pork barrel, dubbed by Senator La Follette, "faithful servant of the system," against Smith, native son of Jackson county, and advocate of the people.

Interest in the county centers in the triangular contest for county commissioner, where the issue is the application of modern methods of road-building and business system against the present makeshift highways and slipshod methods—the old battle for progress against established conditions.

The voters, or a majority of them, have made up their minds, and the results will show blind partisanship thrown to the winds, assemblyism smashed and insurgency triumphant.

A QUESTION OF LOCAL PRIDE

SOUTHERN OREGON has a chance to secure representation in the halls of congress, a chance that should be embraced with eagerness. It never has been represented there, and if this chance goes by, is not likely to secure another.

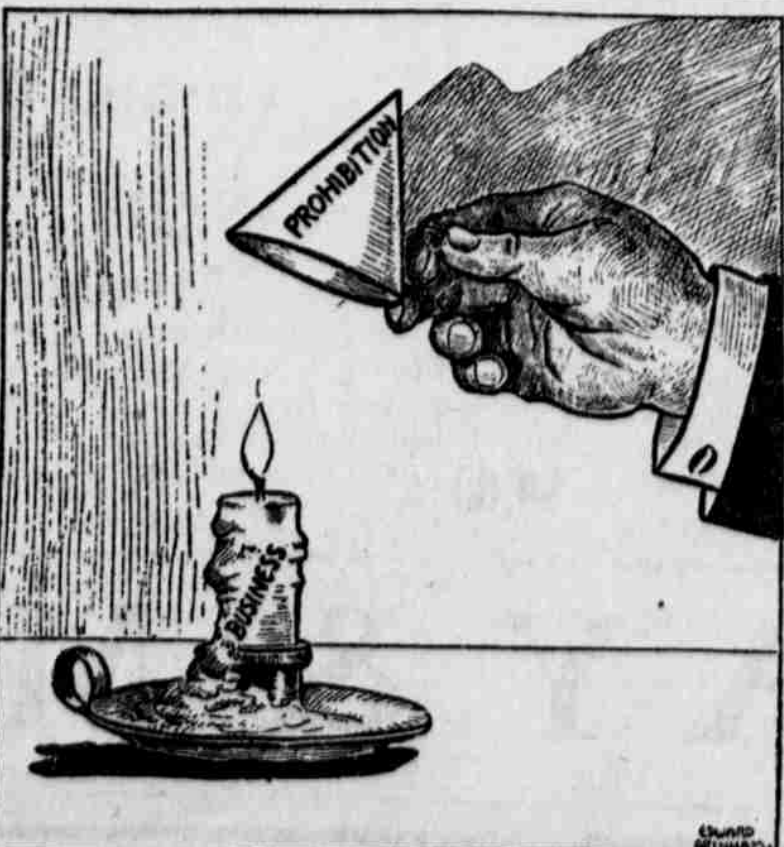

Robert G. Smith, a native son of Jackson county, her most brilliant orator and one of her most distinguished lawyers, a man who made his mark in the state legislature and proved himself an able debater, has excellent chances of election. A good vote in the county of his birth will probably insure his success.

Mr. Smith has ever been a militant, aggressive, able fighter for the rights of humanity as against those of the classes. If sent to Washington, he will be heard from.

Local pride, if not the principles involved, should cause every citizen of this locality, regardless of politics, to cast his vote for "Bob" Smith.

The good roads campaign in Jackson county has developed a humorist in the person of Judge Crowell. His eulogy of Joshua Patterson as good roads builder, his placing him, as "I were, in the same category with Appius Claudius, who built the Appian Way; with Tressiche, who constructed the roads across the Alps; with John Macadam, who revolutionized the construction of highways, is one of the subtlest pieces of satire yet written, equal to anything Dean Swift ever wrote, as ironical as Dick Steele's Spectator, as good comedy as ever penned by the late W. S. Gilbert of "Mikado" fame. It is a shame to hide such talents in the prosaic walls of a counting house.

Congressman Hawley voted against the bill introduced in congress to prevent the shipping of liquor from "wet" into "dry" states, which would have killed the "package" business and rendered prohibition effective. It is hard to understand how any sincere prohibitionist can support Mr. Hawley, who followed the lead of that ardent champion of the liquor industry, Uncle Joe Cannon, in opposing prohibition legislation.

PHILANTHROPIST'S FINE DAIRY FARM IS BURNED CHICAGO, Nov. 5.—The buildings on the model dairy farm of Mrs. Scott Durand, a Chicago society woman, at Lake Bluff, Ill., were destroyed by fire early today. There were about 100 thoroughbred cows on the farm, which is conducted on the most improved methods. Mrs. Durand applied the products of the dairy farm toward the support of several missions in Chicago. The loss on the buildings is about \$40,000. All of the cows were saved. The fire is believed to have been started by a tramp who was smoking a cigarette in one of the buildings.
