

PERSONAL ITEMS

Lynn Purdin of the Central Point Globe was in Medford on business Friday.

Fifty-three acres special, 10 acres coming into bearing orchard. Call on J. B. Wood, Condor Water & Power Co.'s office.

Bittner & Clark report the sale of lots 16, 17, 18 and 19, in block 2, and lot 10 in block 1, in West Walnut Park, this week. They are exclusive agents for this addition.

T. E. Daniels and wife are on their way to Los Angeles on account of the serious illness of Mrs. Daniels' mother.

Is your house wired? One cigar less a day would pay for a hundred per cent increase in comfort. Start living the electric life.

Verne Pendleton and Emily May of Table Rock spent Friday night in Medford.

Every light but electricity gives off smoke and smoke contains soot which deposits on your wall paper, curtains, draperies. Electric light glows in an air tight bulb.

John Blass of Eagle Point was in Medford Saturday on a business trip.

H. O. Wood of Grants Pass made Medford a visit Saturday.

Dr. Stephenson, graduate optician, fits glasses to correct any defect of the eye. Office over Allen & Stegan's. Phone Main 1851. 212

R. J. Cole of Cole's, Cal., is a Medford visitor today.

Moor-Ehni Co., exclusive agents for property in Crescent and Wakefield, Or., townships on Hill's new railroad. See them. Crescent is division point. Phone 212.

Miss Minnie Williams of Gold Hill is visiting friends in Medford.

Contractors will next week complete the new sewer system in South-sea Addition, giving sanitary sewerage and drainage sewer, in addition to 30 lots in this addition, only five blocks from Main street, the closest-in good residence lots now offering in Medford. The matter of putting in the drainage sewer affords opportunity to drain basements and cellars and bring about the best sanitary conditions. Medford's up-to-date people only want up-to-date conditions in their residence quarters.

Peter Jensen of Council Bluffs, Ia., is in Medford, looking after business interests.

Six hundred feet of new cement sidewalk now being installed on grade established by the city engineer on South Riverside avenue shows the growth of the city. A large territory in this section will be taken within the corporate limits in a few months. It is within a few blocks of Main street and should have been included in the city limits ago.

Investors looking for good location for rooming houses will find it in two adjacent lots at end of paving on South Riverside, only five blocks from Main street. Sewer paid, sidewalks, cement, now being installed. Apply to Rogue River Land Co., No. 11 N. Central ave. If Bert R. Westbrook of Cottage Grove was in Medford Saturday, Mr. Westbrook is making a campaign for the establishment of Nesmith county upon his own volition.

Jesse Butler and Dr. J. E. Shearer were at Jacksonville Saturday morning, accompanying B. R. Westbrook, the Nesmith county booster.

H. B. Tronson of Eagle Point was a Medford business visitor Saturday.

Captain R. C. F. Astbury was in Medford Saturday looking after business matters.

J. C. Aitken of Woodville spent Saturday in Medford on a business trip.

Colonel and Mrs. R. C. Washburn of Table Rock were in Medford Saturday on a business visit.

B. H. Runney spent Saturday in Medford.

Married. WATSON-DOYLE—In Medford, Friday, November 4, 1910, William A. Watson and Mrs. A. I. Doyle, both of Ashland.

STUDENTS THINK THEY CAN CONTROL AFFAIRS UNIVERSITY OF OREGON, Nov. 5.—The University of Oregon is maintaining a municipal library for the benefit of the towns of the state. Prof. Young, dean of the department of social science, has gathered data and literature concerning public questions. Statistics and references for commission form of government, police systems, public finance, municipal parks, etc., can be had by any city for the asking.

The universities of Illinois and Kansas have taken up the plan of maintaining these municipal libraries, and the University of Oregon has copied the idea from them. In these states the plan worked very successfully and no doubt the cities of Oregon will find this library a valuable source of reference.

MOVING PICTURES MAY BE SHOWN IN PRISON LEAVENWORTH, Kan., Nov. 5.—Moving pictures may be introduced in the federal prison here and the state prison at Lansing for the entertainment of convicts. Warden R. W. McLaughery and Warden J. K. Coddling of the respective penitentiaries are considering the plan and both are in favor of it.

You may save ten dollars—or only ten cents—through reading the ads before going a-buying again. But you'll save something every time.

WANTED. Terms to contract for hauling lumber from mill to railroad, 1 1/2 miles. CRATER LAKE LUMBER CO. Apply Edgar Hafer, Medford, Or.

COLONIST TRAVEL BREAKS RECORDS

Portland, Nov. 5.—During the 30 days from September 15 to October 15, the O. R. & N. Co. brought 8048 colonists into Oregon from the eastern states, an increase of 884 over the corresponding period of last year. The number is the largest in the history of the company.

These settlers were recruited, principally from points east of the Missouri river and were distributed throughout the entire state. The ticket stubs show that 297 remained in Portland, while 232 stopped at stations in Eastern Oregon before coming to Portland and 128 went to towns in the southern part of the state. The remaining 227 went to Washington or to points immediately tributary to this city.

According to estimates of O. R. & N. officials, the great majority of these people settled on farms, most of the money to pay for their state own land being a most important represent families, while several that cannot be figured exactly are believed to be heads of families who will send for their wives and children as soon as they secure a permanent location in the state.

Thousands of others come. These colonists take a most important railroad brought thousands of persons into the state on regular tickets. Many will make their future homes here. The passenger department also figures that many who buy return trip tickets remain in the state, looking for a means of livelihood, being willing to sacrifice the return portions of their tickets for an opportunity to cast their fortunes in Oregon.

More than 90 per cent of these settlers are American citizens," said William McMurray, general passenger agent of the O. R. & N., yesterday. "Even if they are foreigners they are persons who have become thoroughly Americanized and are the most desirable class of settlers that the state can procure. They are by no means made up of the usual immigrant classes."

Mr. McMurray attributes the influx of colonists directly to the extensive campaign of community publicity conducted by the railroad and by many of the towns along the line. Reports show that during the year the road distributed 350,000 colonist folders through the middle western and eastern states and that thousands of inquiries were received directly as a result of this method of advertising.

Results Are Immediate. The folders were classified with reference to the particular communities to which it was desired to direct special attention, so that immediate results in some of the agricultural sections were noticeable and could at once be traced to the railroad's publicity department.

At first some of the smaller towns were not quite able to accommodate all the settlers, but they have arranged to care for all the new arrivals and are encouraging more to come. Medford is still maintaining its tent city and is building houses as rapidly as conditions will allow.

In addition to the colonists handled on the O. R. & N., the other transcontinental lines brought in many people from the eastern states, with the result that the aggregate probably will reach well into four figures.

With all the settlers coming into Oregon, their presence is hardly noticed and the fact that Oregon needs thousands of others is emphasized.

INFANTILE PARALYSIS KILLS YOUNG ATHLETE CHICAGO, Nov. 5.—Infantile paralysis yesterday claimed its first victim among the students of the University of Illinois at Champaign, when Harold Tamilton, one of the athletes of the institution, succumbed to the disease, which rarely attacks one of his age. The young man was in his freshman year at the university.

What you think about business stationery isn't quite so important as what your correspondent thinks. Don't buy

The standard paper for business stationery OLD HAMPSHIRE BOND "Look for the water-mark"

because it pleases you, but because it influences the man you write in your favor.

Old Hampshire Bond is a clean, crisp paper, made for clean, crisp business letters. It is sold on the assumption that there's economy in quality. A handsome specimen book given upon request, showing letterheads and other business forms, printed, lithographed and engraved on the white and fourteen colors.

Made by HAMPSHIRE PAPER COMPANY, the only paper makers in the world making bond paper exclusively.

Medford Printing Co.

TO PREVENT KILLING OF HUNTERS IN WOODS MADISON, Wis., Nov. 5.—Captain G. W. Rickeman, fish and game warden, hopes to reduce the number of accidents during this season of deer hunting in Wisconsin by urging all hunters to wear red caps. This article of apparel, he thinks, will serve as a sort of headlight. Captain Rickeman also urges hunters to curb their enthusiasm to the extent of refraining from shooting at the very moving object. Last year during the open season for deer in this state, 32 men were fatally shot and 28 were injured. Indications are that there will be a record-breaking number of hunters this season, making greater precautions necessary.

CORVALLIS, Or., Nov. 5.—The students of the Oregon Agricultural college aim to handle all infractions of rules hereafter, if the right to do so is given them by the faculty. They propose creating an organization for complete self government and will ask the faculty to abolish all faculty regulations covering matters except those of a scholastic nature. The students think that if self government were granted they would be able to prevent outbreaks such as the faculty has had to contend with. The plan, it is thought will include a student court to try members charged with violating regulations.

DISEASE RELIEVED BY CHIROPRACTIC ADJUSTMENTS

That Chiropractic is proving successful in the relief of disease is substantiated by the following unsolicited testimonials:

Medford man has the following to say in regard to benefit received at the hands of Dr. Gordon:

"After treating over a year without any relief I was reluctant about trying your method, but the first adjustment gave instant relief of an intense neuralgic pain over the left eye and side of head. After the fourth the pain was entirely gone, as was also the pain in under my left shoulder blade and side. For three years have had catarrh of the head, which was always stopped up, but now it has been entirely cured and I breathe as well as ever. After such results, I feel I can highly recommend you and your method of curing disease."

A. F. Darling of 1028 East Nineteenth street, North, Portland, Or., says: "After ten years of suffering and expenditure of much money, and after giving up all hope of recovery, we were induced as a last experiment to try Chiropractic, not expecting any benefit. My wife, after two weeks' treatment, was greatly benefited, and in eight weeks was completely and permanently cured of chronic constipation, nervous prostration, St. Vitus' dance and attendant ailments, and after a year has not seen a trace of the old troubles."

"I was taken with a severe attack of lumbago and was able to be out after three adjustments. My daughter was cured of a bad curvature in six weeks. I feel I cannot speak too highly of you and Chiropractic."

Relieved of chronic rheumatism after suffering 27 years, V. L. Fought, 55 Cambridge building, Portland, Or., says: "When I came to you I was a physical wreck; my chief ailment being sciatic rheumatism, from which I have suffered for 27 years, at that time meeting with accident to my back. Now, after ten weeks' adjustment I am so well I feel like I could shout the good news from the housetops."

One thing is certain: The results of Chiropractic Adjustments are sure and to be depended upon, although the time varies with each individual.

If suffering from any ailment, no matter of what character, chronic or acute, call or address Dr. L. M. Gordon, 216 E. Main st., Medford, Or., over Medford Hardware Co. Office hours: 10 to 12 a. m., 2 to 5 and 7 to 8 p. m. Office hours and Sundays by appointment.

HEATERS

These cool evenings and mornings make the heating of your home a very important question just at this time.

The easiest way to solve that question is to come here where you will find a very complete line of the best heaters that are to be found in this city. You can get almost any size in a satisfactory heater for wood or coal and at the price you can afford to pay.

Perfection Oil Heaters, too—they are fine—try one.

NICHOLSON HARDWARE CO.

ANNOUNCEMENT

Change Name but not Policy

You will find the same faces to wait on you as you found before—the same well-known quality—the same courteous treatment—the same willingness to make right every little thing that should prove wrong—the same desire on every one's part to please. We will continue to carry the well-known brands of goods that we have carried before and add to them such others as we feel are in demand by our trade. We hope to make this the best and most popular store in Southern Oregon, and while we feel that we now enjoy the largest trade in the city of Medford, we will endeavor to increase that business right along and if good goods and right prices will do it we will have an easy time.

ONCE MORE AN IRRIGATED ORCHARD wins a NATIONAL PRIZE Irrigation made it possible for the Rogue River valley to win the Grand Sweepstakes Prize at the Spokane National Apple Show just as it has made it possible for the Rogue River valley to win the first prize on its Newtown Pippins at the Canadian International Show at Vancouver. Irrigation will make the Rogue River Valley the greatest orchard district in the west; it will double the crops of the producing orchards; it will convert our waste area into prosperous homes; it will bring more people into the valley; it will build up the district and in the future, as it has done in the past, it will make it possible to produce the fruit which has won and will win the prizes offered by the national shows. The irrigation system of the Rogue River Valley Canal Company, when completed, will irrigate 55,000 acres of land and the canal system will serve the orchardists on every side of the city of Medford. The source of water supply is Fish Lake and Four-Mile Lake, at the foot of Mt. McLaughlin, which is also the water supply for Medford's municipal system. The Hopkins lateral, which is a part of the Rogue River Valley Canal Company system, now covers 27,000 acres and the company is prepared to accept applications from water-users from any of the districts covered by this lateral.
