FIFTH YEAR.

MEDFORD, OREGON, FRIDAY, NOVEMBER 11, 1910.

No. 200.

ROGUE FISH BILL CARRIES BY 20,000

ASHLAND NORMAL IN DOUBT

Returns Today Indicate That Home Rule Has Carried by 1000-5000 Majority in Portland Will Probably Save it From Defeat—80 Per Cent of the Vote is Now Counted.

PORTLAND, Nov. 11.—The Rogue River fish bill, to close the stream to commercial fishing has probably swept the state by the biggest majority of any of the measures voted upon at Tuesday's election. The majority will probably be between 15,000 and 20,000. Almost every county in the state is returning a majority for the bill.

The measure carried Multnomah by the record majority of 7769, distancing the good roads bill, which scored 4900. The Rogue river bill got a majority of probably 22500 in Jackson, and swept through the Willamette valley counties by a fair vote, with a strong support in eastern Oregon.

The Normal Schools
 Incomplete returns indicate that the bill providing for the maintenance of the Monmouth normal school has carried by a small majority, while the bill for the benefit of Weston normal school has failed by a small vote. Ashland is still in doubt and the Southern Oregon vote may save it.

The Monmouth normal school carried Multnomah by 5600. The Weston normal leads by 1276 and the Ashland normal by 350.

Home Rule
 Additional returns today indicate that the home rule liquor amendment to the constitution has carried in Oregon by a majority of probably 1000 votes. With practically 80 per cent of the vote counted early today, the measure had a majority of 3451 but it seemed reasonably certain that the returns not then recorded would put it considerably.

The 5000 majority polled for the measure in Multnomah county saved the measure from defeat as the state at large gave a substantial vote against it. At midnight the vote counted on home rule stood: Yes 35,301; no, 32,066.

Prohibition
 The prohibition law will be defeated by 6000, according to the outlook today. The majority against it now is nearly 9000, but county returns are cutting it down.

That the prohibition wave has spent its force in Oregon and the reaction set in was shown by the election. Not only did the prohibitionists fail to add new territory, but they lost ground in many places. McMinnville, the banner dry town of Oregon, voted wet on state prohibition, and the home rule bill carried there.

Baker went wet and in Beus prohibition and home rule are running close. Clackamas went wet with home rule close. In Clatsop the vote is two to one against prohibition and for home rule. There is no report from Columbia. Coos is wet by 500 and home rule is in doubt. Crook went wet by 600 and home rule carried. No report from Curry. Douglas went wet by 600 and carried home rule. Gilliam gave wet a majority with home rule close. Grant went wet and passed home rule. Harney and Hood river are missing in the returns on this question, but the indications are that Hood River went wet. Jackson and Josephine are so close that the official count will be needed on prohibition. Home rule lost in each by a small majority. Every precinct in Klamath went wet but two, giving a majority of 300. Lake is supposed to have gone dry by a small fraction. Lane gave 300 majority wet and defeated home rule by 700. No reports from Lincoln, which is probably wet. Linn is close. Malheur gives a small majority for

The table published here gives the vote by precincts on all of the contested offices in this county, and while the returns are not official, and were received from out of town precincts by telephone, they are believed to be substantially correct. The vote on amendments cannot be learned until the official count is made in Jacksonville. Sunday morning the Mail Tribune will present in tabulated form how every vote in Jackson county was cast on everything from congressman to the final measure on the ballot.

PEOPLE'S CHOICE FOR SENATOR IN CALIFORNIA MAY LOSE OUT

Although John D. Works of Los Angeles Was Given Plurality Endorsement for the Senatorship His Opponent Carried Majority of Districts—Will Legislature Be Guided by Districts or by Total Vote—Railroad Machine Lost Many Strong Supporters in the Legislature.

SAN FRANCISCO, Nov. 11.—Disputed on a strictly party line, the next California legislature will stand: Senate—Republicans, 41; democrats 9. Assembly—Republicans 70; democrats 10; or republicans 68; democrats 17. Party lines, however, are expected to fall on many of the questions to come before the legislature, including the vote on United States senator to succeed Frank P. Flint. Judge John D. Works of Los Angeles at the last primary election secured the plurality endorsement for the senatorship with a vote of 64,757 and A. G. Spaulding's 63,182. While Works is the choice of the people in the state as expressed in the primary vote, it is extremely doubtful whether he will be selected by the legislature because Spaulding carried a majority of the districts. On joint ballot, provided each senator and assemblyman voted in accordance with the sentiment in the individual districts, Spaulding would receive 76, Works 41. Whether the legislature will vote by districts or be guided by the advisory vote throughout the state is a matter of speculation. The caucus also will develop the attitude of the incoming legislators, who take their seats for the first time. While Governor-elect Johnson was elected on an insurgent platform it is noted that every so-called machine nominee on the state ticket was swept into office.

WEST ELECTED OVER BOWERMAN BY 6000 VOTES

Governor-Elect Received His Greatest Support in Southern Oregon—Vote This Afternoon Stands West 49,727; Bowerman 43,693—Carries Multnomah by 1200.

PORTLAND, Or., Nov. 11.—Complete returns from 14 counties and incomplete from all others, Wheeler excepted, this afternoon show that Oswald West, democrat, has been elected governor of Oregon by a plurality of approximately 6000 votes over Jay Bowerman. The vote this afternoon stood: West 49,727, Bowerman 43,693. A canvass of the situation shows that West received his greatest support in western and southern Oregon, while the eastern part of the state rolled up a majority for Bowerman.

69 BODIES ARE RECOVERED FROM DEATH DEALING COLORADO MINE

Total Death List Is Expected to Reach 80—Only a Few of Families Remain at Mouth of Death Trap—Bodies Are Unburned and Are Easily Recognized—Charnel Houses at Mouth of Mine Are Filled to Overflowing—Short Circuiting of Electric Fan Caused Trouble.

TRINIDAD, Colo., Nov. 11.—With 69 bodies of dead miners already recovered from the slopes of the Victor American Fuel company's mine at Delagua, the total death list is expected to reach 80 before nightfall, when all of the mine tunnels will have been explored. Mine officials who have shown an inclination to minimize the reports of the number of dead, admitted today that eleven men still are missing and probably are in the mine. Heartrending scenes that have been enacted at the mouth of the death trap are becoming less frequent. Only a few of the families of the stricken miners are left to await the recovery of their loved ones and all hope that by some chance they might be brought out alive, has vanished. The bodies are hoisted to the ground level, shrouded and carried away to the temporary morgues for identification. Already these charnel houses are filled to overflowing. Inquests over the bodies will be held as soon as the work of the searchers in the mine is completed. The majority of the bodies brought to the surface are unburned and show no disfigurement indicating that death was due to the effects of fire-damp, following the explosion. The explosion is believed to have been a small one, from the fact that papers tacked up to mark where charges were to be fired were not disturbed. Inspector Jones issued a statement in which he declared smoke combustion resulted from a short-circuiting of the ventilating fan caused the explosion.

GOOD ROADS BILL PASSES

Amendment Permitting County to Issue Bonds for Building Highways Receives majority at Election—Convention to be Called at Portland

PORTLAND, Or., Nov. 11.—The constitutional amendment permitting counties to issue bonds for building highways carried by probably 10,000 to 15,000 majority. Arrangements will be perfected at once for calling a big good roads convention in Portland, which will be asked to outline the procedure under the new regime in good road work for Oregon. Chairman Webster of the Good Roads association has power to call the convention at will, but the matter will be taken up at the next meeting of the association, which is to be held at once, as the monthly meeting Tuesday evening was postponed on account of election. At that time the date for the convention will probably be given, after which all energies will be bent upon the task of bringing together the county officials and good road workers from all parts of Oregon.

JOSEPHINE MAY BE WET OR BE DRY

Not Until Official Count is Made Will Matter Be Definitely Settled—Grant Pass Votes Dry by 69—Republican County Ticket.

GRANTS PASS, Or., Nov. 11.—Josephine county remains dry by the narrowest of margins. In fact, the margin is so narrow that many of the wets refuse to concede that they have lost. The dry majority is variously estimated at from 12 to 16. Others even claim that it is smaller than that. The uncertainty arises out of the fact that there is a variance in the telephonic returns from some of the outside precincts. The whole matter will be settled definitely this afternoon when the board of canvassers meets. The vote on county prohibition stood as follows in the three city wards: North Grants Pass—For 257, against 101. South Grants Pass—For, 145; against, 154; majority for the wets, 9. West Grants Pass—For, 114; against, 157; majority for the wets, 23.

CLOSE CONTEST STATE OF IDAHO

Democrat Now Leads Brady by 350 Votes—Chairman Claims Democrat Victory by 600—Both Principals Are Doubtful of Success.

BOISE, Nov. 11.—With James H. Hawley, democrat leading Governor Brady by approximately 350 in the contest for the governorship, Democratic State Chairman Nugent today claimed that Hawley has been elected and estimates that his plurality will be in the neighborhood of 600 votes. On the other hand the republican managers declare that Brady has been elected by an estimated plurality of 300 votes. This estimate was based upon the fact that 75 precincts, counting 500 votes remained to be heard from. Neither Brady nor Hawley would issue any statements, indicating that both are doubtful as to the final outcome. Although the republican members are pledged to pass a constitutional amendment to enforce state wide prohibition, they will not be able to do so unless aided by the democrats, owing to the fact that they have not the requisite two third majority in the senate.

GREAT STORM NEAR ENGLAND

Four Hundred Lives Imperilled in Mine Explosion—Cause of Explosion Not Known—Several Others Fatally Injured.

DOVER, Eng., Nov. 11.—A great storm in the English Channel tonight is reported to have caused several marine wrecks. More than 20 fishermen are reported lost and many small craft are missing. Two French fishing smacks collided with a steamer while the gale was at its height and both fishing boats foundered. Toothless Nag, 35, a Suicide. RAVENNA, O., Nov. 11.—Frank is dead at the age of 35, and there is mourning in Atwater, increased by the fact that Frank committed suicide. He drowned himself in Deer creek, which flows through the farm of his master, Phineas Stone, who found the old horse under the water, into which he had deliberately walked and laid down. The horse had lost his teeth, likewise his usefulness, and apparently he concluded to end his life.

FOUR MINERS MEET DEATH

More Than 220 Fishermen Are Reported Lost—Two French Smacks Collide With Steamer and Both Sink—Many Small Craft Lost.

HILLSBORO, Ill., Nov. 11.—Four miners were killed, 11 injured, several of them fatally, and 400 other lives imperilled in an explosion that wrecked the tunnel of the Shoal Creek Coal company's mine at Panama, near here, today. The bodies of the dead were recovered. Baby Eats Matches and Dies. DES MOINES, Ia., Nov. 11.—Coroner Burgess found a peculiar case when he was called to 579 Toledo avenue to investigate the death of Meta Morris, a 2-year-old girl. He learned that last Monday the little girl, in playing about the kitchen while her mother was in another part of the house, got hold of some matches and ate several of them. The mother at once called a physician who did all he could for the child, but was unable to save her.

MEXICAN SITUATION IMPROVES

Troops Are Patrolling Streets of Capital and Mailed Fist of Diaz Is in Evidence—Mobs Stone Homes of Americans—Rioting Follows Street Meetings.

SAN ANTONIO, Tex., Nov. 11.—Dispatches late this afternoon report that the American consulate at Ciudad Porfiro Diaz, Mex., was wrecked by a mob today. Consul Luther Ellsworth escaped by a rear door while the mob was stoning the building from the front. He was not injured.

WASHINGTON, Nov. 11.—Dispatches received at the state department today from Ambassador Wilson say the situation in Mexico City is improved. Rurales and federal troops are patrolling the streets of the capital and the embassy and consulate are receiving ample protection. There have been no more outbreaks of violence.

A telegram from Governor Campbell of Texas, assures Secretary of State Knox that the state of Texas is making a rigid investigation of the alleged burning at the stake of Antonio Rodriguez, a Mexican citizen, who confessed that he had murdered an American woman.

The message from Ambassador Wilson says that fifty men who participated in the rioting have been arrested and are in jail waiting a final investigation by the federal authorities. So many troops are now on guard in the capital, Wilson has informed the department, that further outbreaks are extremely unlikely.

Outbreak Quelled GUADALAJARA, Mex., Nov. 11.—Federal troops are patrolling the American section of Guadalajara today and every soldier in the military district has been ordered under arms ready for instant duty if the outbreaks become serious. The authorities fear an attack on the United States consulate, and Consul Samuel McGill and are making every effort to prevent it.

Many Disorders The night was marked by disorders and anti-American rioting and although the situation today is considerably better, the authorities admit that further outbreaks may occur. Federal cavalry has been ordered out to protect the American consulate. General Villaseor, in command of the military district, is in personal charge of the situation today and it is thought through his efforts that the city itself if its presence is needed.

Mob tones Houses During the night a mob, led by students, terrorized the American section of the city. Houses were looted and American venturing on the streets were roughly handled. Threats were made against the American consul and a portion of the mob threatened the consulate, but were driven away. Most of the Americans remained indoors today and their houses are barred.

Many of the rioters last night were boys, but the leaders of the more serious outbreaks are said to have seen men and the authorities say that some of them probably are revolutionary leaders. The rioting followed street meetings in which students made rabid anti-American attacks and urged their hearers to seek vengeance for the lynching of Antonio Rodriguez in Texas. The sentiments were applauded by the crowd and the rioters hurried to the residence district inhabited by Americans, showering stones on the houses.

(Continued on Page 3.)
