News Letter

To the CitiSens of Medford and Rogue River Valley:

We take this opportunity to publicly express our heartiest thanks for the generous and loyal support extended to us during the first six months of our business career in your beautiful and prosperous city. When we first attempted to open business in a temporary building we were forced, as many of you are aware, "outside the fire limits" through the efforts of interested parties, but the purchasing public emphatically stamped its disapproval of such dog-in-the-manger tactics by going out of their way several blocks to trade with us. We believe we have not disappointed you. Our earnest endeavor has been to stand between you and high prices. Before we opened business in Medford "money saving special sales" were unheard of. Now, following our lead, others follow. Thanking our kind patrons and the general public again, we beg to state absolutely that under no circumstances will this firm ever enter any combination, verbal or otherwise, to boost prices. Extending a hearty invitation for all to come and visit our new and up-to-date store, equipped even to the large electric elevator in metropolitan style worthy of Medford, we are,

Respectfully yours,

G. F. CUTHBERT & CO., Incorporated.

MONARCH RANGES.

If all housekeepers knew the advantages of the Monarch Ranges, few others would be sold. In saving of fuel and cooking ability no other ranges can compare with them. Their Duplex Draft is the only perfect fire and oven control. The oven has no cold corners, no scorching spots—The Monarch will save half its cost the first year in fuel. **THAT'S WHY WE SAY,** and use the strongest terms we can think of, feeling that even then we but tell half the truth—that nowhere on earth can you find such value as in a tried and true Monarch.

MAN OF 70 ELOPES WITH GIRL OF 17

PARIS, Tenn., Nov. 19.—After eloping with Lizzie McDonald, a schoolgirl, the playmate of his great grandfather, T. C. Gaskins, a wealthy farmer, arrived here with the girl, secured a marriage license and then tried to commit suicide by stabbing himself before the ceremony was performed. The aged bridegroom and bride rode 14 miles across country on the back of one mule. Gaskins is charged with kidnapping his youthful bride, by Clifton McDonald, her father, who says

that the old man entered his home and at the point of a pistol forced the daughter to accompany him. Gaskins is 70 years old and his bride is 17.

Trout for Spokane River.

SPokane, Wash., Nov. 19.—Arrangements have been completed by the Spokane Fish Protective association to place 3,000,000 rainbow trout fry in the Spokane river next season. Seven hundred and fifty thousand were liberated this year.

Haskins for health.

Big Colony for Lake County.

LAKEVIEW, Or., Nov. 19.—A settlement of Russians, Germans, Poles and Bohemians to take land in Edith valley, Lake county, is the project that is under way and headed by John Wittgen of Klamath Falls, formerly of Wisconsin. Mr. Wittgen is familiar with the conditions that confront these people with their large families and the increasing values of farm lands in their portion of the country, and has been sent to look up land for them to take their overflow of children that must be provided with land before it gets too high in price.

PENDLETON PLUMBER SUDDENLY DISAPPEARS

PENDLETON, Or., Nov. 19.—Pendleton is now facing another "mysterious disappearance" case and there is much speculation regarding the fate of the man who has dropped from sight. Al Todd, a plumber recently employed by Comptroller Sharon of the Sharon & Edgings shop in this city, is nowhere to be found, and friends are inclined to the belief that foul play has been done. He drew his pay two weeks ago and was later seen in company with two dissolute companions. That

was on November 3, and since that day nothing has been seen or heard of him. He left a complete kit of tools at his employers' shop which was valued at \$50, and friends point out that if his departure had been deliberate he would not have left his outfit behind him. Local officers have taken up what few clues are to be found and will endeavor to solve the mystery of his disappearance.

After investigating the real estate offers advertised—covering a reasonable period—you may buy real estate intelligently. Not otherwise.

"Gone, Left No Address."

PARIS, Nov. 19.—All Paris is laughing over the unconscious humor of the Portuguese postoffice authorities in returning copies of the Paris Figaro, the leading paper of the French capital, which were addressed to Queen Maria Pia and King Emanuel of Portugal.

Both members of the royal household have long been subscribers to the Figaro, and the copies were continued, sent to the usual addresses, even after the news of their deposition had been published in the Figaro itself.

It was a grim trick of fate that the

very copy of the Parisian newspaper which gave a detailed account of the revolution which deposed the king and queen should be returned to the publisher's office stamped:

"Return to sender" on one side and "Gone—left no address" on the other.

It was evidently the intention of the Portuguese authorities to keep strictly within the law, which demands that unclaimed mail be returned to its sender, but the manner in which they disclaimed all interest in the whereabouts of their recent sovereign has tickled the risibilities of the Parisians.

The RANGE--

It's an easy matter to get a fine young turkey, but you don't always find the range that will cook it to the right taste. There is a lot of difference in ranges. You won't know all about ranges until you have examined the

SOUTH BEND MALLEABLE

and we will be pleased to have you call and let us explain the superior qualities of this "QUEEN" of ranges. Hundreds are now in use in the Rogue River valley and are giving satisfactory service. Ask the owner of the South Bend what kind of a record it has.

The ROASTER--

Should be a "LISK." This is the latest improved roaster on the market and is as sure to be just what you want, as we are sure to be here when you come down town tomorrow. The Lisk has the tray inside and is the most convenient roaster and the most savory on the market.

The CARVING SET--

Now is the time to get that carving set. Don't stop until you have seen the sets we have and learned our prices. We have the carvers that will please you for a lifetime and you will always be glad you purchased from this store.
