CLEAR REASONING ABOUT PIANOS

The World's Best Pianos And Player Pianos

We know that we have the finest lines of Pianos and Player Pianos that money and brains can produce. We know that we can save you money on a piano or player and when we claim to handle the best we have but to state that we handle the old reliable "Chickering Bros.," the celebrated "Ivers & Pond," the "A. M. McPhail," "Sterling," "Laffargue," "Huntington," "Mendelssohn" and other pianos and the unapproached line of player pianos consisting of the world renowned and justly famous "Apollo," "Sterling" and "Laffargue"—the finest in the world.

Rumor Denied by Colt.

NEW ORLEANS, Nov. 19.—Russell G. Colt today gave emphatic denial to the report that he and his wife, Ethel Barrymore, had separated, rumors of which were published this afternoon. He said:

"I wish to say once and for all that Mrs. Colt and myself are not estranged. I speak both for Mrs. Colt and myself. Please make the denial as strong, forceful and emphatic as possible."

Colt today wired his attorney in New York to make a complete investigation of the report with a view of finding its origin. He said he would like to proceed against the author of the report on the ground of slanderous libel.

NITRO UNDER HIS NAIL BLOWS OFF MAN'S THUMB

SAN FRANCISCO, Cal., Nov. 19.—As the result of the careless handling of nitro-glycerine, a particle of the explosive got under one of the thumb nails of C. Brotherson, an

employee in the powder works near here, and cost him his thumb and several finger tops when he lighted a cigar. The nitro-glycerine exploded with great force, although the particle must have been a small one. Brotherson was taken to a hospital, where his hand was dressed, and he was sent home.

Birdless Hat Army Big.

BALTIMORE, Md., Nov. 19.—That the National Women's Christian Temperance union is steadily gaining recruits in its campaign against wearing birds or their plumage on hats was reported by the news department of the union at today's session of the annual convention. Since the last convention nearly 2000 women have taken the pledge not to adorn their headgear with birds or their plumage. Cruelty to animals and vivisection also were strongly denounced.

First Auto in the Yukon.

DAWSON, Y. T., Nov. 19.—The first automobile to travel to the interior of the Yukon from the coast has just completed a run of 180 miles from White Horse to Yukon

Crossing, making as high as 20 miles an hour in places. In view of the rough winter road, which shortly before had been washed out in many places by fall freshets, this is considered a remarkable accomplishment. This machine is owned by the White Pass company, which is experimenting in hopes of displacing sleighs with automobiles.

Laundry Is Run by Léper.

PASSAIC, N. J., Nov. 19.—More than one citizen of the community who put on a clean "boiled" shirt this morning rushed upstairs to tear it off when he read in the morning papers that Mark Lee, a Chinese laundryman, has been taken to the isolation hospital, suspected of having leprosy. Six physicians who exam-

ined him are not positive, but give it as their belief that the case is Asiatic leprosy. All the collars, cuffs and shirts in the laundry will be fumigated before they are returned to their owners.

Furs Aren't Fashionable.

SEATTLE, November 19.—The wearing of furs having gone out of fashion is given as the reason for the astounding fall of prices of raw furs, which affects all classes of skins, ermine being the only important fur that has not fallen in price. Alaska produces three-fourths of the world's expensive furs, but the price is fixed in London. Muskrat skins, used in counterfeiting seal-skins, have fallen 30 per cent because seal-skins are less fashionable and imitations consequently less in demand.

Walk-Over Shoes

Unless you have plenty of time do not stop a WALK-OVER wearer and ask him why he wears WALK-OVERS. He might try to tell you all of the 1001 reasons. Better let us fit you, and let the story of "WALK-OVER Goodness" be told you by the shoes themselves, as you go along
