

## Eagle Point Eaglets

—By—  
A. C. Howlett.

Professor Robert Jones of Wailonia, who is publisher and editor of a paper in that town, and who at one time was on the Mail office force, is here visiting his mother and brother, Jake.

There is a move on foot to build a sidewalk along the route from the depot out to the business part of our town, and by the time this is in print there will be a way provided so that persons who come in on the evening car will not have to walk through the mud to reach the hotel.

The way that the railroad company have the time arranged to leave Medford now, it brings the car here after dark, and that works quite a hardship on the traveling public, but we are thankful for any favors in that line.

Professor P. H. Daley is having his water tower sided up and the tank covered. John Foster is doing the work.

There is a move on foot to try to incorporate our town, but there is a very strong sentiment against it, and the friends of the movement have but little hope of succeeding now.

There was a large crowd attending the dance here Thanksgiving night,

and those who attended report that it was one of the quietest dances they have ever had here, as there were no drunks and consequently no unusual noise.

The report has been started here that our mail contractor, S. H. Hannish, was not going to carry the mail to Butte Falls any more this fall in rigs, but on horseback, but Mr. Hannish told me this (Saturday) evening that he would run two rigs at least for a month yet, and to Brownsboro all the time.

Mr. Cowden and young Mr. Massey came out from Butte Falls Saturday after loads of goods, and Mr. Moose came out for the Hafer Mill company after a load of feed. They had depended on getting it taken as far as Cameron on the cars, but the heavy rains have made the roadhead so soft that they cannot run over it with safety.

Mrs. Charles Wilkenson came out Saturday night to visit her son and wife, who are boarding at the Sunnyside. Her son, Clyde Plymire, is fireman for the steam shovel. They have succeeded in bringing the steam shovel out and will put it at work near Table Rock station in a few days.

## The Famous Rayo

### Does Not Strain the Eyes

Don't use a small, concentrated light over one shoulder. It puts an unequal strain on your eyes. Use a diffused, soft, mellow light that cannot flicker, that equalizes the work of the eyes, such as the Rayo Lamp gives, and avoid eye strain.

The Rayo is designed to give the best light, and it does.

It has a strong, durable shade-holder that is held firm and true. A new burner gives added strength. Made of solid brass and finished in nickel. Easy to keep polished. The Rayo is low priced, but no other lamp gives a better light at any price.

Once a Rayo User, Always One.

## EVERS WILL NOT COACH THE NAVY

CHICAGO, Nov. 30.—Johnny Evers, who announced some time ago that he had signed a contract with the Annapolis naval academy to coach the baseball team next year, came out today with the announcement that the navy business was off.

Evers explained his switch by saying that Manager Chance of the Chicago Cubs had requested him not to coach the sailors and had wired him to join the Cubs in spring practice when the training season opened.

Evers said that Chance had not forbidden his coaching proposition, but had asked him to reconsider it as a favor. Evers' broken ankle is mending rapidly and he says he will be able to limp around within a few weeks without the aid of crutches.

## MONMOUTH NORMAL TO OPEN IN SEPT. 1911

SALEM, Or., Nov. 30.—Monmouth normal school, under the act passed at the last general election, may open its doors to students in September, 1911, according to a statement given out by Tax Commissioner Galloway today. Some doubt has been expressed by people of the school as to whether the bill would allow a levy on the taxes of 1910 or whether it would be impossible to open the school until 1912.

Tax Commissioner Galloway is under the impression that the Tax Commission will go ahead in making its levy and include the 1-25 of a mill prescribed in the act in the levy of the coming year, and this will provide sufficient funds for the opening and maintenance of the school. This opinion seems to be generally coincided in here, and there is every reason to believe that Monmouth will open its doors within the next school year.
