HATED KINGS, SO SHOT AT ROOSEVELT'S PICTURE

SPOKANE, Wash., Dec. 10.—Declaring that "we want no kings in America," Martin Blake, a steam fitter, whose home is said to be in Los Angeles, drew an automatic pistol and fired point blank at a large picture of former President Roosevelt, shattering the frame. With the threat, "I'll get you the next time," he took aim again, but was seized and disarmed by bystanders. The shooting occurred Wednesday night in a saloon in this city.

The makers of all player pianos, except the Apollo, cut out the downward stroke of the keys they cut out twenty-three of the most exclusive names they can see systems of progress in piano building.  
Do you know that Meyville Clark was the first manufacturer to make a player piano that covered the whole range of the keyboard?  
Do you know that for five years he was the only manufacturer making a player piano that played eighty-eight notes?  
When the manufacturers of ordinary player pianos made forty-eight note pianos they made them after the image of a child who could not reach the full length of the keyboard.  
When Meyville Clark made the Apollo player piano he made a complete, full grown musician, able to image and with the training and experience of a teacher.  
Before you put five hundred or a thousand dollars into a player piano would you like to know just what you are going to get for that money?
