

### NO MACHINES FOR SPAULDING

Says His Candidacy Must Stand or Fall With Primary Law—Says He Has Offered His Services to the State From Patriotic Motives.

SAN DIEGO, Cal., Dec. 15.—Refusing to open headquarters to urge his election to the United States senate, to which office he says he has already been elected by the people of California at the August primaries, Albert G. Spaulding, millionaire sporting goods manufacturer, today declared his independence from all "rings" and "bosses."

"All political machines look alike to me," she said. "I am not the candidate of any 'machine' and have no political machinery supporting my candidacy. I have no campaign or political manager and no one is authorized to speak for me."

"I am not a stockholder, nor am I in any way interested in the Southern Pacific Railroad company. I am not now, nor will I become affiliated with or be influenced by the so-called political bureau of the Southern Pacific company."

"I am urged to open campaign headquarters in Los Angeles, San Francisco and Sacramento to further advance my candidacy before the legislature. I shall do nothing of the kind; nor will I spend a dollar to secure the ratification of an election already given me by the people under the primary law."

"My candidacy must stand or fall with the primary law. That statute is on trial—not I. I am also urged by some that in order to secure my election I should go, but in hand, to the professional politicians and political 'bosses' and beg their support. I shall do nothing of the kind; and I may here add that if I should become the next United States senator from California I will decline to receive instructions or take orders from any political boss or any faction of any party."

"I have offered my services to my state. I have agreed to devote the next six years of my life to the public service, and I have done this solely from patriotic motives."

#### California Roads Deadly.

SAN FRANCISCO, Cal., Dec. 15.—The railroads of California killed 306 persons and injured 2175 during the year ending June 30, 1910, according to the annual report of the state railroad commission, made public today. Five less were killed during the fiscal year 1908-1909, but nearly 400 more were maimed. The report contains 435 typewritten pages and is one of the most complete ever submitted by the commission.

#### Burns Hurt in Wreck.

SEATTLE, Wash., Dec. 15.—Tommy Burns, the husky boxer, limping around his home on crutches today and has been forced to give up active training of his protegee, Jack Lester. Burns was a passenger on one of the interurban cars that was wrecked in a head-on collision Tuesday night and sustained severe bruises and a badly wrenched knee when the cars bumped. His injuries are not particularly serious, but the boxer will be laid up for a fortnight or so. Burns was feeling much improved today and said that he did not think his injuries would affect him permanently.

#### Want Volunteer Forces.

WASHINGTON, D. C., Dec. 15.—President Taft's plan for placing the defenses of the country on a higher plane includes the passage of the so-called volunteer act. It was learned today. Roosevelt originally drew this measure, which contemplates the organization of a reserve force, making 400,000 troops automatically available in time of war. The measure passed the house a year ago, but died in the senate on account of the opposition of Senator Bacon.

#### Only Threw Him Down Stairs.

SAN FRANCISCO, Dec. 15.—"Why I only threw him down three flights of stairs," exclaimed Frank Meyer today when told Rahrdans Berthold said he had struck him with a gas pipe. "I didn't hit him at all." Berthold was an extremely battered looking individual and the police decided to hold Meyer for assault with intent to commit murder. Meyer said he had thrown Berthold out of his third story flat after warning him to go away. Berthold rolled all the way to the street.

N. W. Simpson, who comes from Hartwell, Ohio, arrived Saturday.

Haskins for health.

### KNIGHTS OF PYTHIAS HAVE HOUSE WARMING

The K. of P. hall was comfortably filled with local and visiting Knights and their friends last evening, when a hall warming was held and every one present had some word of appreciation of the merits of the order to offer. The affair was strictly "stag" and very informal. Every man who cared to do so (and most of them indulged) smoked as many good cigars as possible.

Those present were seated at tables and shuffled the pasteboards. The committee in charge passed around lemonade, punch and cold lunch all the while the games were going. After the evening had advanced apace, a short program was given and under the "good of the order" almost every man present had a few words to say. The evening was closed by singing the closing ode.

#### Bucket Shops Raided.

CHICAGO, Dec. 15.—Half a dozen alleged "bucket shops" were raided by the police today and their proprietors and clerks arrested on charges of using the United States mails to defraud.

The raids were made at the instigation of the federal authorities, who for some time have been quietly investigating complaints of frauds from victims all over the country.

Wagon loads of prisoners were rushed to the city jails and are being held there incommunicado. Federal authorities would not give out any information, and it is believed more raids on larger shops are to follow.

#### Millions of Salmol. Eggs Procured.

SALEM, Or., Dec. 15.—In his monthly report, Master Fish Warden Clanton shows receipts of \$791.25 and disbursements of \$3071.70. He says: "We were able to secure 2,071,000 Chinook and 1,170,000 silverside eggs at the South Coos River hatchery, while at the Siuslaw, Yaquina and Tillamook hatcheries the crews are still at work taking silverside spawn."

#### Crushed Limbs May Move.

SALEM, Or., Dec. 15.—What is considered a triumph of modern surgery was brought about today when Mrs. B. F. Rowland, who was crushed in the elevator at the United States National bank building several weeks ago, was removed to her home from a local hospital.

Her lower limbs were almost reduced to pulp and her arms were almost as badly crushed. It was thought she could not survive, but the attending physician now expresses the opinion that she will not only live, but retain the use of her limbs.

Arthur M. Davidson is here from Perry, Okla., and expects to remain for a couple of weeks.

### Send a Messenger

that will meet with the approval of the recipient of your message. Any old kind of a messenger won't answer. The best should always be sent "if" you wish the recipient to pass a favorable verdict.

What you think about business stationery isn't quite so important as what your correspondent thinks.

Don't buy

because it pleases you, but because it influences the man you write in your favor.

Old Hampshire Bond is a clean, crisp paper, made by clean, crisp business folks. It is sold on the assumption that there's economy in quality. A handsome specimen book given upon request, showing mechanical and office business forms, printed, lithographed and engraved on the wrap and business colors.

Made by HAMPSHIRE PAPER COMPANY, the only paper makers in the world making bond paper exclusively.

Medford Printing Co.

### GARMENT WORKER KILLED IN RIOT

Detective Sergeant, Overpowered, Fires into Mob With Revolver—Was Felled by Shower of Stones Before He Shot.

CHICAGO, Ill., Dec. 15.—One striking garment worker was killed and another fatally wounded today during a riot when Detective Sergeant Weiniaki, overpowered by a mob, fired into it with his revolver. Weiniaki was felled by a shower of stones before he shot. The dead striker was not identified. The injured man is Mark Lungeviev.

Weiniaki, who was in command of a detachment of police, was escorting a number of strikebreakers through the streets. The strikers and their sympathizers surrounded the procession and made a concerted rush. Weiniaki bore the brunt of the attack and was swept off his feet. He fired from the ground.

It was reported that Lungeviev was attacking the detectives as he lay on the street when he was shot. After the riot Weiniaki was picked up unconscious.

#### Code Books Soon Ready.

SALEM, Or., Dec. 15.—Work of both the code commission and the state printer will be completed on the new Lord code on Thursday, and the books will then be turned over to the binder. 200 sets to be issued a few days thereafter, these sets to be for the use of the members of the legislature.

It is possible that these will be the only sets to be bound in two volumes, as recommendations will be made to the legislature to change the law and cause the remaining 4800 sets to be bound in three volumes. This will not result in an increase in price of the new code, which the legislature has authorized at \$12 a set.

The merchant must never relax his anxiety to create buying opportunities for his patrons—not one now and then, but an endless chain of them.

The store that pays a lot of money for space in which to say something to you must believe that what it says is important to you.

### OIL MAN SAYS LOCAL FIELD GOOD

Henry Chapman, who resides at Bakerfield, Cal., has just returned from a visit to friends near Eagle Point. Mr. Chapman is a driller and put down many of the paying oil wells in the McKitterick district in California. While at Eagle Point Mr. Chapman was taken out on the desert to examine the oily substance flowing from a spring, or oasis, and this is what he has to say:

"I found there every indication of oil that is found in the McKitterick district, that is, every surface indication, and I am led to believe that oil underlies that stretch of country known as the desert. Nothing can ever prove this assertion unless a well is put down, but one thing sure, good oil has been found in less likely looking places and farther from the oil belt, as given by the survey. I have no desire to create an oil boom as not a drop may exist, but if I owned land in that district I should give it a thorough test."

"The substance coming from the marsh which I examined furnishes no evidence of oil, while it is true that an oily substance is flowing from the seep, it is not the crude oil used for any commercial purposes. My opinion is based upon a shale and a clay taken from a well which has been dug on the edge of this desert place, and it is that, as well as the lay of the land, that induces me to believe that both gas and oil can be found, and that at a reasonable depth."

### BANDIT DEMANDS HUGE RANSOM FOR MERCHANT

HAVANA, Dec. 15.—Demanding \$6000 ransom, Bandit Solis communicated with the authorities today, saying he had seized Senor Crescencio Perez, a rich merchant of Santa Spiritus, and unless the money were paid Perez would be killed. Solis is a former Havana policeman who has joined the revolutionists and is now an outlaw. His band last Monday seized Rafael Bepinz, a merchant of Havana, and secured \$1500 ransom for him.

The old ideas about store advertising die hard—but they die, nevertheless. Store advertising nowadays has news value.

Medford Mail Tribune want ads bring results.

### CONGRESSMAN WEDS DAUGHTER OF LAWSON

BOSTON, Mass., Dec. 15.—Dorothy Lawson, daughter of Thomas L. Lawson, millionaire stock broker and Henry McCall, son of Congressman Samuel McCall of Massachusetts, were married this afternoon at Lawson's home, "Dreamworld," near this city. Mr. and Mrs. McCall will go at once to Portland, Or., where they will make their future home.

### FINDING EYEBALLS IDENTIFIES BOY

PENSACOLA, Fla., Dec. 15.—Two eyeballs picked up along with mangled fragments of the body of a boy who was killed by a Louisville & Nashville railroad train, were partially identified as the brown eyes of a Pensacola youth who left home not many weeks ago to see the world. The mutilated parts of the human form were brought to Pensacola from the scene of the accident, nine miles north of here, and several persons declared they recognized in the eyes the boy who recently ran away. A corroborative similarity was also found in the hair picked up at the scene.

Adequate advertising—frank informing, factual, frequent—being a part of a store's service to you, it follows that a good store is necessarily a well advertised store.

Haskins for health.

### 15 YOUNG GIRLS MARRIED TO ESCAPE SCHOOL RULE

NEW YORK, Dec. 15.—New York's board of education is alarmed over the increasing marriages of Italian girls 16 years of age or under who become wives, with their parents' consent, in order to avoid the compulsory education law. Edward H. Shallow, who is in charge of the department of compulsory education, says that fifteen girls, all under 16 and several under 14 years of age, had married and left school within the last three months.

While being a wife does not necessarily exempt them from school attendance, the board finds it difficult to handle such cases.

#### Grain Men Meet.

WINNIPEG, Man., Dec. 15.—The Grain-growers' delegates who are meeting at Ottawa today, will present a number of demands. They will ask for an increase to 50 percent in the preference on grain shipments to England and an annual increase in preference until there is free trade with the mother country. No reciprocal preference is wanted to return except the continuance of the open door for Canadian farm products. Other demands are for reciprocity in natural products and lumber and free trade in agricultural implements with the United States.

A misleading advertisement would be almost as disastrous to a store as a fire—with no insurance.

Haskins for health.

Mr. Merchant: Personally, you may not like the publisher, the editor, the printer, the adman or the printer's devil, but when you can talk to 12,000 people by advertising in the Medford Mail Tribune, from a business standpoint— DON'T YOU FEEL THAT YOU WOULD BE DOING A WISE ACT BY USING A REASONABLE AMOUNT OF SPACE? If it were possible to so live that we would please every person in this world—every man would so live. It isn't possible. It is possible to boost your business by advertising and our 12,000 readers will feel more like patronizing those merchants who ask for their trade.

#### Jap Wants New Trial

DENVER, Colo., Dec. 15.—A motion for the retrial of Genkyo Mitsuhashi, convicted and sentenced to life imprisonment for the murder of Mrs. Katherine Wilson, has been filed with the court. The petition cites 29 exceptions to the rulings of Judge Shattuck and asserts that the verdict returned was illegal and unwarranted by the evidence. Arguments on the motion will be heard Saturday.
