FREE CLASSES IN AUTO INSTRUCTION

After January first the Valley Auto company will start classes on the proper handling of the automobile. Two evenings each week will be devoted to this work and everyone interested in automobiles is invited to join one of these classes and learn the art of running a car in the most scientific manner. This is knowledge that a great many people would pay most liberally to learn, and the Valley Auto company are taking up a good work. No charge will be made. If more people knew all about their cars they could many times avoid

accidents—their car gets out of order on the road they can easily learn the trouble and fix it in a short time. If you own a car or if you are interested in automobiles at all, you are invited to call and arrange to go into one of these classes.
