In Sudden Emergencies

like illness, it is often necessary quickly to raise the temperature of a room. For instance, in those hours between midnight and dawn, when the day temperature has been allowed to drop, if you are called upon to get up, the room is chilly and cold. It takes a long time to start up a furnace or fire and raise the temperature by ordinary means.

You can instantly heat a room to any desired temperature with a

PERFECTION
SMOKELESS
OIL HEATER
Absolutely smokeless and odorless

It quickly gives heat, and with one filling of the font burns steadily for nine hours, without smoke or smell. Has automatic-locking flame spreader which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back, so the wick can be cleaned in an instant. It has a cool handle and a damper top.

An indicator always shows the amount of oil in the font. It has a filler-cap which does not need to be screwed down; it is put in like a cork in a bottle, and is attached to the font by a chain.

The burner body or gallery cannot become wedged, because of a new device in construction, and consequently it can always be easily unscrewed in an instant for reworking.

The Perfection Oil Heater is finished in japan or nickel. It is strong, durable and well made, built for service, yet light and ornamental.
