THAT \$50,000,000 LOAN IS WORRYING CHINA

PEKING, Dec. 22.—The government has not come to terms with the American financial syndicate over the proposed loan of \$50,000,000 to be used by China in furthering currency reforms and other interests of the empire.

The final difficulty in the way appears to be on the question of the appointment of a financial adviser to China, who will be in a position to influence the expenditures.

When the tentative agreement for the loan was made, the Chinese evidently assumed that the advisor would be a figurehead, the acceptance or rejection of whose advice would be optional with them.

Now, however, they are unwilling to proceed on this assumption. Willard Straight, the representative of the syndicate, has endeavored to dissipate any uneasiness that the government may feel on this point, and in doing so had been supported by the administration.

There is no doubt that some suspicion was aroused by the alliance of the Americans with European banking groups and Mr. Straight's proposal that in the future the English, German and French financiers be permitted to participate in the Chinese loan.

Attention, Elks.

There will be a meeting of the lodge tonight (Thursday). All members and visiting members are requested to be present.

A PRETTY WINDOW DISPLAY

Hundreds of people are window shopping. After reading the Mail Tribune they stroll about town, taking in the windows, and if you don't think the walk a pleasant one, just try it out tonight.

One of the most attractive windows is the one just finished by B. T. Van de Car in the Phipps building. It will pay you for the trip to town just to see this window. Each article of jewelry in the window bears a number and if you get a circular letter you had better run down and see if you are lucky.

J. B. Wright, the real estate man, was lucky to the extent of a \$7 locket. His number was 150. Harry Medley had No. 4000 and received a seal ring worth \$6. "Van" is selling a lot of fine jewelry, too.

BOARD WALK IS PUT DOWN KING'S HIGHWAY

The residents just outside of the city beyond South Oakdale avenue have just completed a board walk three-quarters of a mile in length and are planning to add half a mile to the end of this. In this way, during the muddy weather a country walk has been provided for townpeople.

The walk begins at the end of Oakdale and runs west to King's highway, where it turns south. It was constructed through the efforts of J. M. Root, James Campbell, Mrs. Carey, Dillon Hill and W. C. Willis.

If you are desirous of something good you will have to pay for it. No cheap goods at this store. B. T. Van Delar, Phipps Bldg.
