

HOT FIGHT IN HOUSE EXPECTED

Representative Norris of Nebraska. Leader of Inurgents, Predicts Another Fight on Rules—Will Fight Harder Than Before.

WASHINGTON, D. C., Dec. 23.—A repetition of the fight over the house rules which enlivened the last session of congress was predicted today by Representative Norris of Nebraska, leader of the house inurgents, and the men who precipitated the last fight that resulted in curtailment of the powers of Speaker Cannon.

Norris declared that the fight would start immediately after the holiday recess. The Nebraskan said he proposed to introduce a resolution amending the rules covering motions to discharge committees from consideration of bills. His decision, it was intimated, is the result of numerous conferences with inurgents and democrats, following the efforts of the "standpat" republicans to discredit the present rule, thereby preventing the expedition of business.

"We intend to attack imperfect rules," said Norris, "and we will fight even harder than we did last March."

Temporary Heat Quickly

Did you ever stop to think of the many ways in which a perfect oil heater is of value? If you want to sleep with your window open in winter, you can get sufficient heat from an oil heater while you undress at night, and then turn it off. Apply a match in the morning, when you get out of bed, and you have heat while you dress. Those who have to eat an early breakfast before the stove is radiating heat can get immediate warmth from an oil heater, and then turn it off. The girl who practices on the piano in a cold room in the morning can have warmth from an oil heater while she plays, and then turn it off. The member of the family who has to walk the floor on a cold winter's night with a restless baby can get temporary heat with an oil heater, and then turn it off. The

is invaluable in its capacity of quickly giving heat. Apply a match and it is immediately at work. It will burn for nine hours without refilling. It is safe, smokeless and odorless. It has a damper top and a cool handle. An indicator always shows the amount of oil in the font.

It has an automatic-locking flame spreader which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that the wick can be cleaned in an instant.

The burner body or gallery cannot become wedged, and can be quickly unscrewed for reworking. Finished in Japan or nickel, strong, durable, well-made, built for service, and yet light and ornamental.
