

1910 COMMERCE PASSES RECORDS

Grand Total for Year Beats Banner Year 1907—Import Figures Highest—Owing to Increased Home Consumption Exports Decrease.

WASHINGTON, Jan. 2.—The foreign commerce of the United States for 1910, including both exports and imports, promises to set a new record in the history of the nation. The eleven months ending November, for which the bureau of statistics of the department of commerce and labor has secured complete figures, have brought the grand total of exports and imports to the enormous sum of \$3,063,384,954.

Only the banner year 1907 compares with this figure. The total commerce for the first 11 months of that year was \$3,047,234,045. The trade figures for December, the closing month of this year, are expected to swell the total of the nation's foreign commerce nearly \$3,100,000,000.

The breaking of commercial records will not apply to exports. The imports will reach the highest figure for any year in the history of the United States, but the sum of the exports will probably fall \$75,000,000 short of that of 1907. Notwithstanding this decline and the increase in the imports, the balance will still be close to \$300,000,000 in favor of the export side of the account.

The greater quantity of materials imported is due to the development of manufacturing industries which import crude material or import articles partly manufactured, in order to complete the manufacture in this country. The slower development of the export trade is due mainly to the fact that the United States is exporting a smaller quantity of breadstuffs and other food products each year and is more nearly consuming its total output of such articles.

The full year's figures for exports are expected to be \$1,840,000,000 and the imports \$1,550,000,000. This is an increase of 90 per cent in imports over the year 1900 and an increase in exports of 25 per cent over that year.

The importation of crude materials and materials for further manufacture more than doubled in that time. On the export side the value of the outgoing foodstuffs for 1910 is but \$340,000,000 compared with exports of \$540,000,000 of such products in 1900. This is a decline of more than 35 per cent. The export of manufactured articles, on the other hand, shows a gain of 65 per cent in the ten years.

Adequate advertising—frank informing, factual, frequent—being a part of a store's service to you, it follows that a good store is necessarily a well advertised store.

LIGHT STOCK RECEIPTS FOR HOLIDAY WEEK

PORTLAND, Jan. 2.—Very light receipts in all lines have characterized holiday week on this market. There were 767 cattle, 96 calves, 1753 hogs and 1298 sheep.

A very high range of values has applied due largely to the fact that there was not enough to go around among the various buyers. Two lots of calves sold at \$8.35 and hogs sold at 9c. One small lot of lambs sold at \$6.10 and mixed sheep at \$5.00. Quality considered the few steers that came on the market sold at high prices, and the same thing applied to cows.

Shippers throughout the country are overlooking the best opportunity that has been offered them in not supplying the heavy increased demand for good live stock on this market.

BONA FIDE MUSICAL PRODUCTION COMING

A real, bona fide Broadway musical production will be seen at the Medford theatre on Thursday, January 12, when Samuel E. Work will present for the first time here "The Queen of the Moulin Rouge," a musical comedy drama in two acts and seven scenes by Paul M. Potter, with music by John T. Hall and lyrics by Vincent Bryan. It is said to be a correct portrayal of the night life in Paris, exactly as it exists. For this purpose the adventures of the young King of Orania and his bride-elect, the Princess Marotz, are narrated as they took place on the night of the famous Quat-z-Arts ball, the annual dance organized by the studios of the city, visitors being admitted by private invitation only.
