

# BITTER FIGHT ON OVER SENATORSHIP

### Struggle Begins Monday in Iowa to Name Successor to John P. Dolliver — Standpatters Backing Young.

DES MOINES, Ia., Jan. 7.—A struggle to select a man to succeed Senator Jonathan P. Dolliver will begin when the legislature meets Monday. Politicians already at the capital for the preliminary skirmish predict that the fight will be bitter and say they cannot forecast the result. There are three camps, the progressives, the democrats and the standpatters. The democrats back Daniel Hamilton. The standpatters are supporting LaFayette Young, who was appointed by the governor to temporarily fill the place.

The progressives have not yet chosen any definite candidate but will probably decide to endorse W. L. Byers, A. B. Funk, Warren Garst or W. S. Kenyon, assistant United States attorney general.

The progressives demand a republican caucus, but the standpatters refuse to enter one.

The progressives, have not yet chosen any definite candidate but will probably decide to endorse W. H. Byers, A. B. Funk, Warren Garst or W. S. Kenyon, assistant United States attorney general.

The progressives demand a republican caucus, but the standpatters refuse to enter one.

A deadlock is predicted. The newspapers of the state are demanding a special primary to name a senator.

### Man Kills Wife.

PHOENIX, Ariz., Jan. 7.—In a fit of jealousy caused, it is said, by attention paid his wife by another man, George Meyers, a miner, today shot his wife fatally, and after holding officers at bay for half an hour, placed the muzzle of his revolver in his mouth and blew out his brains dying instantly. Mrs. Meyers died at the hospital two hours later.

The murder and suicide were committed in the presence of the two small children of the couple, aged 4 and 7 years. Meyers, it is said has frequently threatened his wife.

### Boy Bandits Caught.

DULUTH, Minn., Jan. 7.—William Muzzard and Algot Johnson, the boys alleged to have killed Policeman Harry Chesmore after holding up the Hotel McKay here, were captured by a posse at a lumber camp 25 miles north of here today. The lads from whom a desperate resistance was expected, surrendered without a struggle when they found themselves surrounded.

Johnson, whose age was reported as 19, said he is only 16. When the handcuffs were snapped on his wrists

he tearfully protested that he had not fired a single shot of the fusilade that killed Chesmore. Between sobs he said he was heartily sorry he had ever become a bandit.

### TAFT SAYS FINES HAVE NO EFFECT ON WEALTH

WASHINGTON, D. C., Jan. 7.—Declaring that fines had no effect against wealth, President Taft today refused to commute the sentence of W. S. Harlan, wealthy manager of extensive lumber and turpentine interests of Florida and Alabama, convicted of peonage.

"Fines are not effective against wealth," wrote Taft in denying the plea for commutation by Harlan's friends. "Imprisonment is necessary to retain and enforce the imprisonment part of this sentence operates powerfully to prevent the recurrence of such offenses by men of larger affairs and business standing. To release such a man from the penalty of imprisonment when properly convicted and sentenced would be to break down the authority of the law with those who have powerful influence, and to tempt further breaches on their part. What is worse, it would give ground for the contention often heard that only poor criminals are really punished."

### THREE MASKED THUGS MURDER AND ROB MEN

RENO, Nev., Jan. 7.—Three masked thugs who murdered Gene Quillel, proprietor of a saloon at Imlay near here, and robbed his safe of \$1200, are being sought today by the police of Nevada and the authorities of Utah, California and other states have been notified to watch incoming trains for men answering their description. The men entered Quillel's saloon last night, lined up its patrons against the bar, forced Quillel to open the safe and then shot him because he tried to give an alarm.

It is believed that the robbers succeeded in catching train number 3, which passed through Imlay shortly after the holdup.

### To the Lovers of Good Coffee

We wish to advise you that we have installed in our store a new Royal Electric Coffee Mill. This machine is equipped with steel knives which cut the berry into practically uniform clean cut particles, instead of grinding and crushing it, as by the old method.

All Coffee Mills heretofore used will only crush the berry, mutilating the minute oil cells, allowing the Coffee Oil to evaporate, thus impairing the strength and flavor.

By this new process the little oil cells remain unbroken, the essential oil (food product), cannot evaporate and the coffee thus retains its fine, rich, aromatic flavor in its full strength.

This is one reason why a pound of coffee cut in this mill will make from twelve to fifteen cups more of full strength coffee than will any coffee ground the old way. The Lover of Good Coffee finds here a richness of flavor never found in coffee ground in the ordinary way.

Another feature about this Mill is that you may have your Coffee cut as fine as the finest sand and it will still be practically free from that fine dust which is produced by the old method of grinding. You will, therefore, always have a clear cup of coffee instead of a muddy effect—a result of using the old style Mills.

Royal Cut Coffee is also adaptable for percolators or French Dip Coffee pots.

Try a pound of our coffee cut on a Royal Mill and we know you will be pleased with the results.

### WOULD BREAK UP SHIPPING COMBINATION

WASHINGTON, D. C., Jan. 7.—A bill designed to break up the trans-

Atlantic shipping combination was introduced today by Congressman Humphrey (Washington). The bill prohibits ships belonging to a combination entering any port or clearing from any port of the United States. The penalty provided is a fine of \$200 against the company for each passenger carried and a forfeiture of all the merchandise brought aboard. Humphrey said the trust was the biggest in the world.

"The rate on every pound of freight and every passenger between here and Europe and South America has been fixed by advance agreement," Humphrey said. "Special rates were given the Standard Oil company, the steel trust and the harvester combine to such an extent that competitors were absolutely excluded from competition in foreign markets. American foreign trade is at the trust's mercy. 'The unjustness of the rates and the greed and extortion of the companies is shown by the fact that the Hamburg-American line, the controlling factor in the combine profits annually 25 per cent on a capitalization of \$90,000,000. I intend to insist on the immediate hearing of this bill.'"

### MUCH MONEY SAVED AT JOHNSON INAUGURATION

SACRAMENTO, Cal., Jan. 7.—The inauguration of Hiram Johnson as governor was accomplished with a saving of \$1043 on the amount required for inducing into office Governor James N. Gillett, according to Senator Estudillo of Riverside, chairman of the joint legislative inaugural committee.

Music, lights, programs and draperies for the occasion cost the state \$412 for the Johnson ceremony. The gold lace of the staff colonels and the inaugural ball in celebration of Gillett's ineumbency made the total at that time \$1455.

The payment of \$150 to the secretary of the inaugural committee, under the old regime, as against \$5 for the secretary under the new, is one instance of the saving effected. Gillett was inaugurated in a local theatre because the capitol was torn up.
