

REVENUE MEN GUARD COAST

Search for Smugglers Along Mexican Coast Is Under Way—Heavily Armed Men on Lockout for Lawbreakers.

LOS ANGELES, Cal., Jan. 21.—With the coast from the Mexican line to Monterey bay guarded more closely than ever before the United States revenue cutters Orient and Bear, carrying heavily armed men, are today searching southern California waters for a smuggling craft bearing contraband Chinese and opium which is known to be seeking an unprotected point on the coast to make a landing.

MANY BUILDINGS IN 1911.

(Continued from Page 1.)
ing 1910. Their program includes adding about nine miles of street paving to the ten miles already laid in the city. Last year the city spent \$377,615 for paving and will equal that amount this year. In the matter of sewers and water mains the city will spend approximately as much this year as last, during which time \$116,142 were spent in sewers alone.

It is expected that building this year will not be retarded as it was last through lack of help, which at times practically paralyzed the activities of builders.

California

Is the place to visit. Orange groves in full bloom, tropical flowers, famous hotels, historic Old Missions, attractive watering places, delightful climate, making that favored section the Nation's most popular retreat. You can see it at its best via the

Shasta Route

and "The Road of a Thousand Wonders" SOUTHERN PACIFIC COMPANY.

Up-to-date trains, first-class in every respect, unexcelled dining-car service, quick time and direct connections to all points south.

STECIAL ROUND-TRIP FARE OF \$55.00

Portland to Los Angeles and Return.

With corresponding low fares from all other sections of the Northwest. Liberal stop-overs in each direction and long limit. Interesting and attractive literature on the various resorts and attractions of California can be had on application to any S. P. or O. R. & N. Agent, or from

WM. McMURRAY,
General Passenger Agent
Portland, Ore.

"THE MAN OF THE HOUR" HERE ON WEDNESDAY

At the Medford Theatre on Wednesday, January 25, "The Man of the Hour" will be presented, and as the theatregoers have heard and read so much of this great play there is no doubt standing room will be at a premium. While George Broadhurst, the playwright, has taken for his theme certain conditions which exist in every large city, still there is said to be interwoven in "The Man of the Hour" a delightful love story. The plot in it concerns a young millionaire who has "done nothing worthy." He then enters politics and is elected mayor of his city. After assuming the duties of the office he manfully refuses to bow to the political boss. One of the first bills brought to him for his signature has to do with a franchise grab, and is prompted by the uncle of the girl with whom he is in love.

The hardware to the value of \$450,000 was used in building construction alone in Medford during the year 1910, and that this figure represents only a very conservative

Co.

estimate, is the opinion of H. C. Garnett of the Garnett-Corey Hardware company.

"Our company alone," said Mr. Garnett, "imported 13 cars of nails during that at least three additional carload lots were brought here besides.

Among the other articles of building hardware that can be estimated

by the carload shipments are sash weights, of which we handled four cars; wall plaster, ten cars; sewer pipe, ten cars; roofing material, four cars, and plumbing supplies, eight cars."

From 678 telephones in operation on December 31, 1909, to 1250 on December 31, 1910, or almost double,

are the figures issued by the Pacific States Telephone & Telegraph company to show their growth in the city of Medford during the last year. Of this number, eight represent private branch exchanges, either already installed or in process of installation, and one private hotel exchange with 51 instruments connected with it, which will shortly be installed in the

Nash hotel. The figures for last year, compiled by the local branch, show the company now has a sufficient length of wires, overhead and in underground conduits, installed within the city to reach a distance of 4800 miles, if strung out in a single strand. During the year just ended the

company spent close on to \$250,000 in improvements, operating expenses and making additions to their local service, and the business of the Medford branch of the company has reached such a proportion that a working force of 50 persons is now required to handle it.
