SESSION HALF OVER.

(Continued from Page 1.)

called. As in previous sessions the committees are overwhelmed with bills the majority of which will probably be killed but all of which will require time to dispose of them.

For the past week the house has been well up with its work. Effort in bills for the most part have been responsible for delay.

The good roads bills will make their appearance in earnest in the house during the coming week. Strong opposition to them in their present form will be offered as the grangers in the house have concentrated their forces there for the fight. In the senate there are a number of senators who believe that the good roads bills as presented by the State Good Roads association are the best which can be framed and they will make a strong battle to pass them.

Other important subjects to come before the house next week will be capital punishment, a bill to regulate telegraph companies and news associations and a bill to regulate sailors' boarding houses.

RECIPROCITY TREATY DEAD.

(Continued from page 1.)

theory that while tariff reform is needed, the country has declared for democratic principles and it is "up to the incoming democratic congress to make their own bargains, get the credit and take the responsibility."

Discussing the status of the reciprocity agreement today, Senator Borah of Idaho said he does not believe there is a chance for its ratification at this session.

One northwestern insurgent, whose name is not divulged, is quoted as branding the agreement as rotten.

Northwest "Fornist."

Senator Curtis of Kansas was non-committal. He said that on general principles he had always opposed reciprocity with Canada on farm products, but that he desired to withhold his judgment on the present proposal until he had had more opportunity to examine into its details.

The views of the northwest were expressed by Senator McCumber of North Dakota. He flatly condemned the treaty as one which would place the western farmer at the mercy of Canadian competition, while he would receive no benefit. The northwest, he said, would protest against the admission free of Canadian lumber. He could see nothing of advantage to the people of his section in the agreement.

Light on the probable fate of the reciprocity plan is seen here today in the history of former attempts to bring Canada and the United States closer together. Once, years ago, a tariff bill was passed by the house, providing that concessions might be exchanged with countries trading with America. Then a commissioner negotiated 17 treaties with all the leading commercial nations. The president approved them and they were submitted to the senate committee on foreign relations, where they were pigeonholed.

Harmon Compliments Miners.

COLUMBUS, Ohio, Jan. 28.—Governor Harmon, in addressing the convention of the United Mine Workers of America, today, complimented the work of labor organizations and commended the determination of former President T. L. Lewis of the miners to return to the pick and shovel.

When the governor finished speaking a delegate arose to ask him a question, Lewis, who was presiding ruled him out of order, and a motion was carried extending Governor Harmon the thanks of the convention. The votes against this motion were ignored.

The convention took a slap at Canadian coal companies which are reported to be trying to disrupt interstate agreements, when it rejected a resolution presented by Canadian delegates favoring the movement.

CASE AFTER CASE

Plenty More Like This In Medford

Scores of Medford people can tell you about Doan's Kidney Pills. Many a happy citizen makes a public statement of his experience. Here is a case of it. What better proof of merit can be had than such endorsement?

T. J. Williams, 617 Oakdale avenue, Medford, Ore., says: "In 1907 after Doan's Kidney Pills benefited me so greatly, I publicly recommend them. At this time I am pleased to again speak in their praise and give permission for the continued publication of my testimonial. I suffered for years from kidney and bladder trouble, the symptoms being slight at first, but becoming more pronounced as time passed. The pains in my back became so acute that I could hardly endure them and as the result of restless nights, I arose in the morning all worn out. Often I was so lame and stiff that I could not stoop and headaches and dizzy spells were common. I tried so many remedies without being helped that I became discouraged, but when Doan's Kidney Pills were recommended to me, I decided to try them as a last resort. I procured a supply at Haskins' Drug Store and after using two boxes, I could see that a great improvement had been made. I grew better from that time on and was soon free from kidney complaint. Doan's Kidney Pills cannot be praised too highly."
