> NEW ORLEANS, La., Feb. 4 .resident Davilla of Honduras has abdicated, according to private addices received here today. The message comes from Tegucigalpa and ays Davilla has cabled Washington isking President Taft, on behalf of he United States, to insure his safe departure from the country. He will go to Mexico.

Bonilla, with the revolutionary orces, is nearing Tegucigalpa and will assume the presidency when he

Consul Ulioa of Honduras, here tolay, conceded that the Davilla government had lost in the struggle for power. He has ceased signing invoices for the Atlantic Coast of Honluras. President Bonilla, he declared, has decided upon the members of his cabinet.

WASHINGTON, D. C., Feb. 4 .-The state department was informed his afternoon that the armistice in Ionduras has been arranged through American naval officers at the request of President Davilla, who asked President Taft to prevent further ploodshed in the South American country. The terms of the armistice were not given, but it is believed here hat Davilla will abdicate.

General Bonilla, head of the revolutionary forces, gained control of the entire Atlantic Coast with but slight resistance from the Honduras president.

vhistle be installed.

We have also reached that stage in he growth of our city where an larm system should be installed broughout the entire city.

Want Hook and Ladder. The next matter is that of a hook and ladder truck. The city has spent nany thousands of dollars during the ast year in various kinds of improvenents. With these improvements omes the construction of the more ermanent and larger buildings, and vith the construction of these larger buildings comes the necessity of the look and ladder. We need such a ruck to get hose up into a tall buildng. As it is we are not sufficiently equipped to successfully get hose into ven a three-story building if stairway routes are cut off by flames.

Another change that we suggest is hat of a change of the present horsetrawn wagon to an auto-drawn comination hose and chemical wagon. Want Special Election.

Therefore, we, the members of the clunteer fire department of the city

of Medford, backed by a signed list of business men, property owners and egal voters of this city, hereby petiion your honorable body to call a special election for the purpose of amending the charter of the said city, to provide for the issuance of \$15,-100 fifteen or twenty-year bonds, as he council shall see fit, for the purose of getting a first-class fire apparatus. These bonds we suggest ould be retired in the following manier, to-wit:

First. At this election also have a harter amendment voted upon providing for a special tax levy for fire rotection, to be made each year, and hen from the amount realized each cear to set aside a certain portion and place the same in a sinking fund, which shall be used to retire the bonds when they become due.

## Its Different With

We are as sure that you are getting the best goods that money can buy as we are sure that we are running a store. This doesn't mean that you cannot buy goods at other places that are just as good, for you can-It simply means that everything we sell is of the very best grade that money and long experience can buy and that we will not offer for sale anything that is not first-class in every respect.

This is the way the immense business of this store has been built. It is against our principles to offer a single article for sale if there is the slightest question as to whether it is first-class or not.

You are invited to call and place your order for meats and groceries and should you happen to find anything that seemingly is not satisfactory we will gladly your idea, too.
