Mr. Hawkins' interests are mostly in the east. He is the original inventor of the lany bracket, the headlight bracket and the aluminum bronze nipple and first improved the chain rivet, all of which are used on the Victor machines. It was due to Mr. Hawkins' skill and carefulness as inspector of army guns a few years ago that something like \$300,000 was saved to the United States government through his having discovered imperfections in weapons being turned out under contract. If possible, Mr. Hawkins will persuade his brother to go back to New England with him.

MANY TRIBUTES PAID TO CAPTAIN M. F. EGGLESTON (Continued from Page 1.)

somehow improved in health, returned to the capital city, and Monday morning found him at his desk ready to serve the people.

He died at his post of duty, like a faithful soldier. He always was eager to watch any legislation that came up, and ready and not afraid to give his views for or against any measure under discussion. To show his eagerness, although he was then a very sick man, the following day, Tuesday, he had three bills before the house, and spoke in explanation of the same. He was so weak that he could hardly rise from his chair to address the speaker so as to present his bills to the house. He did so, and after a few moments, he had to ask to be excused, thinking best to go to his room and rest the balance of the day. This was the last occasion that he occupied his chair in the house.

He always had a kind word for his fellow men. He was one of the champions for the good roads movement in the state, and his untimely demise will be keenly felt by his associates in this particular respect.

We sincerely mourn his loss and grieve that his kindly voice is hushed forever, and that only the empty chair remains to remind us of a friend whom we have lost.

Small hotel and lodging house keepers will be hit hard if the bill introduced this afternoon in the house by Representative Clyde gets through both houses. The bill compels the owners of all places that accommodate travelers to change the bed sheets and pillow slips after a lodger has occupied the bed for one night.

Soap, clean towels and sheets that are at least 81 inches wide and 9 feet long must be provided under the Clyde law.

Important bills introduced in the senate today are: S. B. 255 by Carson of Marion, taking steps toward providing a new capitol building and grounds for the state, and a bill by Senator Bean which attempts to amend the direct primary law to prevent democrats from registering as republicans.

The first attempt to buck Governor West was made this morning by Senator Nottingham who is endeavoring to have senate bill 37 which was vetoed by the Governor Saturday passed over the veto. Nottingham is trying to line up ever man in the upper house against the governor focusing his veto power, and a lively debate on the question was cut short by making the matter a special order for 2 o'clock tomorrow afternoon.

ESENADA ASKS FOR BATTLESHIP

United States Asked to Dispatch Warship to Sower California Port for its Moral Effect on Rebels.—Warships Held in Readiness.

SAN DIEGO, Cal., Feb. 6.—Private advices from Esenada state that officials there have asked the United States government to send a warship to that port for the moral effect it would have on the rebels, believed to be preparing to attack the city.

It is also stated that Washington has replied that a war vessel, probably one of the torpedo boat flotilla now here, will be held in readiness for such a call.

Officers of the three cruisers now in this harbor have received no orders regarding Mexico.

SAYS ASBESTOS FRUIT IS BEST

H. H. Lampman, owner of a ranch at Asbestos, situated in the mountains east of Medford, is spending a few days visiting friends here. Mr. Lampman is the father of Rex Lampman, editor of the Gold Hill News. Formerly a resident of the city of Grand Forks, N. D., where he edited the "Times," Mr. Lampman expresses himself as charmed with the section of this country in which he has located and proudly asserts that the fruit raised in his vicinity is even superior in flavor to the products of the Rogue River valley.

"Transportation," he says, "is all we need. That will enable us to put our fruit on the market and to let the consuming public judge for themselves the superiority of mountain raised fruits."

The property owned by Mr. Lampman is situated in such a position that it at all times affords an uninterrupted view of the city of Medford on the west, and permits of a range of vision in the other direction reaching way beyond and over Table Rock.

A journalist by profession, Mr. Lampman has always been a lover of nature and his guests for out of doors experiences have led him at different times to explore deep into the woods of Canada and the more remote sections of the northwest of America.

He asserts that this summer will see a great deal of travel from here to the Asbestos country, as the road will be in excellent condition for automobile travel.

JOHNSON ON HIS WAY TO SUNNY SLOPE

CHICAGO, Feb. 6.—Jack Johnson, champion pugilist, is today on his way to California seeking a climate, he said, where he could run his buzz wagons without their being hung up on the hubs in snow.

Johnson said he would stay on the coast at least two months, after which he might either go to England or the coronation or take a trip to Australia. After two months' weight reducing among the California mountains, Johnson said he would be ready to meet anyone if the promoters would show enough money. Until that time he would not consider a challenge from anyone.

AMERICANS TO AID MEXICAN REBELS

LOS ANGELES, Cal., Feb. 6.—The headquarters of the Mexican liberal unita, recruiting place of the Mexican revolutionists, were crowded today with Americans desirous of enlisting in the rebel cause. Former United States soldiers and sailors, college graduates and laborers besieged the offices. They were informed that they could not be organized here, but that they would be welcomed by the insurgents at Mexicali. It was reported from Mexicali today that 40 Americans had joined the rebels there yesterday.

FISHERMEN OFF TO LEGISLATURE

J. E. Enyart, W. F. Isaacs and J. W. Berrian are in Salem in interests of Rogue River Bill—Smith Introduces Amendment.

J. E. Enyart, Toggery Bill Isaacs and J. W. Berrian left Sunday evening for Salem, where they will appear before the legislature to oppose any amendment to the initiative bill closing the Rogue river to commercial fishing passed by the people at the last general election.

The bill introduced by the Hume interests has been amended in the house committee on fisheries so as to provide for a six months' closed season and limit the fishing to gill nets. Representative Smith of Josephine has introduced an amendment providing for fishing in Josephine county also, while the Humes and lower river people only ask for it below the mouth of the Illinois. If Smith's amendment prevails, conditions will be nearly as bad as they were previous to the passage of the initiative bill, and the committee will do all in its power to accomplish the defeat of the measure.

The house committee on fisheries is composed of Pierce of Curry, Magee of Clackamas, Belland of Astoria, Gill of Wasco, Chambers of Lincoln and Polk, and is representative of the fishing interests, and hence is probably favorable to the Humes.

The loss of Captain Eggleston is severely felt in connection with the fish bill, as he was to make the fight on the floor against the Hume bill.

HATPIN STARTS GREAT FIRE IN NEW ORLEANS

NEW ORLEANS, La., Feb. 6.—Already holder of a police record, which includes murder, mayhem and vicious assault, the long hat pin today was indicted for another offense, that of starting a fire.

Investigating a blaze in De Sota street, the authorities found that girl of the house burned inserted a long hat pin in her millinery and in turning from a mirror struck a lamp, knocking it to the floor and causing an explosion.

Riley Not Suffering. INDIANAPOLIS, Ind., Feb. 6.—Members of the family of James Whitcomb Riley this afternoon denied reports that he had suffered a second attack of paralysis. It was said that he was slowly recovering from the first attack and his ultimate recovery was expected. Early reports stated that Riley's condition was critical, due to a second attack and that he was unable to recognize friends.

ROBBER CATARRH Steals Energy and Will Power From Its Victims.

Catarrh robs its victim of energy—some physicians say of will power. That may be the reason why thousands of catarrh sufferers haven't ambition enough to accept this fair and square offer by Chas. Strang, which he makes without any why's and wherefores or red tape of any kind.

Chas. Strang says: "I guarantee HYOMEI to cure catarrh, acute or chronic, or money back," and that offer is open to every reader of the Mail Tribune.

HYOMEI (pronounce it High-ome) is the purest Australian Eucalyptus combined with Thymol and other germ killing antiseptics.

Pour a few drops into the small vest pocket HYOMEI inhaler and breathe it into the lungs over the inflamed membrane infested with catarrh germs.

It is pleasant to use—it kills the germs, soothes the sore membrane, and cures catarrh; if it doesn't your money back.

A bottle of HYOMEI costs 50 cents at Chas. Strang's and druggists everywhere. A complete outfit, which includes a bottle of HYOMEI, a hard rubber inhaler and simple instructions for use, costs \$1.00.

"LET THEM ALONE" IS BURNS' SLOGAN

Central Oregon Town Starts Movement Intended to Head Off Any Adverse Legislation in Regard to Railroads in the State.

PORTLAND, Or., Feb. 6.—Resolutions have been passed by the business men of the town of Burns pledging their sincere friendship toward railroad companies and promising to do all in their power to assist in the modification or repeal of such laws in this state as are dangerous and alarming to investors.

A copy of the resolutions has been sent to the Portland chamber of commerce for indorsement, and each representative from every part of the state now at Salem will also be supplied with a copy, with a request to oppose all measures dangerous and uncertain to property rights, and to assist in the repeal of such laws as are now in force in the state, which are antagonistic to capital and consequently detrimental to the development of the state.
