Revolution Spreads.

MEXICO CITY, Mex., Feb. 7.—While full details are unavailable owing to the government's having placed censors over the telegraph lines, reports are current here today that a serious uprising has occurred in the district of Noizes, in the state of Zacatecas, which is known to be strongly favorable to Madero. It is not known how many have joined the standard of revolt. Dispatches from Mazatlan, on the Pacific coast, state that preparations are being made there to resist an expected rebel attack. It is possible that a gunboat may be sent to aid in protecting the port.

Meager telegrams from Navajo, Sonora, say that the Thirteenth federal cavalry defeated a force of 200 rebels near that place after a five hours' fight. The rebels are said to have lost 20 killed and wounded. No details are given of the casualties to the troops.

NOTED PEDESTRIAN ARRIVES IN CITY ON WAY AROUND WORLD

A celebrity of note is visiting in Medford for a couple of days in the person of Gottfried Rodrigues, champion pedestrian of France, England, Switzerland and Belgium. Mr. Rodrigues is the holder of many medals for his various walking stunts throughout the country and he is now engaged in a battle with the Amsterdam "Telegraph" in a prize winning contest around the world. He is to travel the entire distance around the globe working his way as best he can, in three years. He left Amsterdam, Holland, February 1st, 1909, and must be back on the first of February, 1912 to win the \$5,000 offered.

He arrived in this country some time ago and has since won a great many medals for his walking tours including those offered for the breaking of records between Chicago and Dallas, Texas, New York to Boston and San Francisco to Los Angeles. The latter trip Mr. Rodrigues made in 190 hours beating the former record of O'Leary by 11 and one-half hours.

He has traveled all over Europe, Siberia, Egypt, and has in all concluded 30,000 miles of what he believes will amount to about 58,000 miles in the trip. In his walk from San Francisco to Los Angeles he was backed by the San Francisco Chronicle and in this manner he is working his way around the world. He has pictures of his various travels and he lectures upon them in different places where he stops. Mr. Rodrigues is also an operatic singer. He has met with a great many incidents in his travels including being arrested over 100 times. In France and several other European countries he traveled in the costume of his native land, that of Holland, and has been "jugged" for a spy and for blockading traffic as well as for various other reasons. He sometimes travels in this costume with wooden shoes for the purpose of attracting attention so that he might draw a crowd to his lectures. The name would lead one to believe that he was Spanish but such is not the case as he is a full Hollander. James Hoyle and W. W. Rees, amateur long distance walkers, may accept a challenge made by Rodrigues that he will contest his ability with anyone, offering them monetary odds of two to one.

CURTISS READY TO PATROL BORDER WITH AEROPLANES

LOS ANGELES, Cal., Feb. 7.—Awaiting word from Washington, Aviator Glenn H. Curtiss, colonel in the United States aeronautical reserve, is in Los Angeles today, preparing to put three biplanes into action to assist in patrolling the Mexican border.

"It will not be a difficult matter to use aeroplanes on the border," said Curtiss this afternoon. "In fact, there is nothing of the impossible in the contemplated action of the war department. It already has been demonstrated what the aeroplane can do under conditions such as now prevail on the Mexican border. Personally, I would respond willingly to a call to action. We have three machines at San Diego now and I could get more from the east if necessary.

"If the war department has any doubts as to the feasibility of using aeroplanes for patrol duty they should have that dispelled by the feat of Aviator Harkness today in carrying government dispatches from Fort Rosecrans to the troops at Tia Juana."

To Buy Aeroplane.

WASHINGTON, D. C., Feb. 7.—Hurried by the war department's plan to purchase an air fleet, for scout duty on the Mexican border, the senate this afternoon adopted an amendment to the army bill. This makes \$25,000 immediately available for the purchase of aeroplanes and will, it is believed, mean that at least a part of the National Aeronautical Reserve will skim the air over the Rio Grande within a week.

WASHINGTON, D. C., Feb. 7.—Recognizing the serious plague and famine situation in China as one demanding immediate action, the house military affairs committee today reported a bill authorizing the use of an army transport to carry supplies of food collected in the United States across the Pacific ocean. The bill will be rushed through the house. The collection of food will at once be commenced by the American Red Cross and kindred associations. It probably will be gathered for shipment at Seattle, whence the transport will sail for Asia.

PRaise FROM GEORGIA'S STATE CHEMIST.

Mr. J. H. McCandless, State Chemist of Georgia, before a recent gathering, gave emphatic testimony to the high quality of Cottolene. He said: "The sale of this product, and the proclamation that it is made from cotton seed oil, have done more to bring cotton seed oil truthfully and favorably before the public than anything else in recent history."

Mr. McCandless then pointed out why a pure, refined, vegetable-oil base, such as is used in Cottolene, is the only assurance a woman has of a clean, digestible cooking product.

COMMITTS SUICIDE BY FREEZING TO DEATH

CHICAGO, Ill., Feb. 7.—Suicide is marked on the police blotter against the name of J. Van Hasselt, 35, the son of a wealthy Dutch family, who was found dead today in a snow drift.
