

## ARCH-BISHOP RYAN SAYS "INTERESTS" IN HIS LAST SLEEP

Noted Prelate Passes—Has Been Prominent in Catholic Church Affairs During Past Several Years—Had Many Friends.

PHILADELPHIA, Pa., Feb. 11.—Archbishop Patrick J. Ryan died here this afternoon.

Archbishop Ryan was born at Thurles, County Tipperary, Ireland, February 29, 1831. His family was descended from the O'Ryan, princes of Irdone. His earliest schooling was under the care of the Christian Brothers in the Naughton school in Dublin.

In 1847 Ryan entered the seminary at Carlow. He was graduated when 21 years old and came to this country with the Rev. Patrick Fohan to take up his work in St. Louis. Since he could not yet be ordained for the priesthood, he entered the seminary at Carondelet as a professor. In September, 1853, Ryan entered 20 years' service as a missionary. He worked as assistant in the cathedral of St. Louis and as attending priest in the Gratiot prison. In 1868 Father Ryan was chosen to accompany Archbishop Kendrick on a tour of Europe, during which Pope Pius IX appointed him to preach the English Lenten sermons in the Catholic capital.

When the falling health of Archbishop Kendrick demanded a coadjutor's assistance, Ryan was appointed to that position in 1872. In January, 1884, he was appointed archbishop of Salamis, and on August 18 of the same year archbishop of Philadelphia. He was formerly installed August 29, 1884.

## MAGAZINE PUBLISHERS DECLARE PROPOSED ADVANCE IN POSTAL RATES IS DUE TO ACTIONS ON PART OF THE "INTEREST."

Magazine Publishers Declare Proposed Advance in Postal Rates is Due to Actions on Part of the "Interest."

NEW YORK, Feb. 11.—Magazine publishers here today declared that the proposed advance in postal rates affecting magazine advertising sections was fostered by the "interests," which seek to control muckraking publications. They assert that the popular magazines will be the ones most affected by the bill, and that if the measure passes, several will be thrown out of the market. A representative of McClure's Magazine said:

"An increase of four cents per pound for mailing advertising sections would cost McClure's \$92,800 additional annually. Our profits, at best, are not large, and the result of the proposed law would be a loss of circulation and standing. If the bill is enacted it will influence McClure's and similar publications to suspend."

The Crowell company, which publishes the Woman's Home Companion and the American Magazine, declares that the proposed advance would mean to it an increased expense of \$165,000 annually. The proposition is confiscatory according to General H. J. Fisher, of the Crowell company.

"It would cost the Woman's Home Companion at least \$100,000 extra annually," he said. "The American and other magazines would be even more seriously crippled. The change would not decrease the postal deficit, either."

## Farmers Do Not Have to Work

This, the 20th century, has helped the farmer more than any other ten passed over. Men 35 and 40 years old remember, when boys, they had to turn the grindstone, pump water, cut the wood, milk cows, shell corn and many other things too numerous to mention. But how about now? Not so. For \$85.00 you can buy a Fuller & Johnson farm pump, gasoline engine, which will do the work of two men. It is almost human. So simple, yet when filled with gasoline and the sparker set and one turn over and it is for all day. It will pump your water, turn your grindstone, separator, washing machine, shell your corn, milk your cow, hoist your hay, spray your trees, henhouse or fence, never lack about its job, is a probi, drinking only gasoline, and that very moderate, sweeps your carpets, saws your wood, in fact, it will do anything you put it at. This wonderful machine will be on exhibition tomorrow in Garnett-Corey's window. See it. You can also find most any article you need in the way of hardware and plumbing. 'Tis the home of the famous Toledo Range, Pumps that pump, Washers that wash (1900), Cement, Plaster, Sewer and Iron Pipe, Chains, Rakes and Hoes, and more Garden Hose than you ever saw before.

You need not try to do it as father did—you can't. It cost too much to live. He could ride horseback, you can't.

The paint industry in this country has increased more than any other, having gained more than 500 per cent in the last 25 years. Reason—Education, cost of lumber, regards for looks. The increase has been so great in last five years that one crop failure in flax crop has doubled the price of linseed oil. It is not economy to build and not paint or not to add second coat when needed. Men want the best of food, swine, cattle and horses; the best of vehicles or autos are none too good. So buy the best of Paints—that is "SHERWIN WILLIAMS' PURE PREPARED. Every can warranted. We sell Cement Wall Plaster, Iron Pipe, Gasoline Engines, deep well, spray and tank Pumps, Incubators, Rope and Garden Tools.

Come and look them over in the four-story brick, corner Main and Grape streets. We own that building—you know what that means. Come and see us.

P. S.—Bring your wife. You may need her.

## LEGISLATURE MAY ASSIST CITY OFFICIALS

VICTORIA, B. C., Feb. 11.—The provincial legislature may be called upon to legislate to save the mayor and aldermen of Victoria from being ousted from office, owing to an action now pending in the courts to unseat the city government on the ground that the voters' list was illegally made up.

That the matter is serious is admitted by the city solicitor who has just recommended that the members of the administration appeal to the legislature to obviate the danger of ousting them and of leaving Victoria without a mayor or machinery.

## MILITIAMEN ARE TO MARCH 4000 MILES

NEW YORK, Feb. 11.—Under orders to march 4000 miles from New York to San Francisco, carrying a letter between the mayors of the two cities, two soldiers, Medos Gravel, Twelfth New York national guard, and Pres Ostrander, Seventy-First New York national guard, are on the first leg of their long journey today.

General Frederick D. Grant inspected the equipment of the pair before their start, and President Taft issued a special order permitting the militiamen to carry arms through all states.

## TALK HYPERMETROPIA NO. 4 or FAR SIGHT

By Dr. Rickert, Medford, Ore.

HYPERMETROPIA is a condition in which distant objects looked at do not form a distinct image or focus upon the nerve without an effort of the ciliary or accommodative muscles. These muscles usually have the power to overcome this error of refraction, especially in younger persons; thus, in order for a hyperope to maintain distinct vision it becomes necessary for the focusing muscles to be on a tension every second one is awake and has the eyes open. Consequently the unit of necessary effort is multiplied many thousands of times daily, saps the vital forces of the sympathetic nervous system and causes many and varied functional nervous disorders. This is eye-strain. Take heed in time. A proper correction now may save you endless suffering in the future. Consult

Dr. Rickert Eye Sight Specialist Over Kentner's.

## Have You Seen the NEW STORE ?

We imagine that every person in the city has been here and yet we want to be sure that you realize that we desire a visit from you and your friends, too. If you haven't called, we invite you to come and examine our new quarters, and enjoy the display of new goods.

## CHILD FOUND FROZEN; YOUNG MOTHER JAILED

COLLINGSWOOD, Ont., Feb. 11.—Following the discovery of the frozen body of an infant in the west end of town, Pearl Smith, an attractive girl of 18 years, was arrested today and formally charged with its murder. She was not asked to plead, but was remanded pending the report of the coroner's jury.

The birth of the child took place in Toronto at the Salvation Army maternity home. Shortly afterward the girl brought the child to her home here.

### No Secrecy in Living.

CHICAGO, Ill., Feb. 11.—President Ben Johnson today vetoed the scheme to keep secret the identity of the official scores of the American League. This plan was proposed in order to eliminate the possibility of scores being influenced in records of hits and prevent a recurrence of rumors such as those brought about last year when Ty Cobb won first batting honors from Napoleon Lajoie in the American League. Charges were made that the scorers favored Lajoie.

Medford, Or., Feb. 6, 1911.—This is to certify that about November 1st my daughter was taken with a severe attack of rheumatism which rendered her left arm useless, in fact it was so near paralyzed that she was not able to move her fingers, but knowing of some of Dr. Chow Young's marvelous cures of long standing cases of rheumatism, we decided to consult him, in which I am pleased to say made no mistake, as his remedies acted as he claimed they would, and after the third treatment the rheumatic pain entirely left her and she has not had any symptoms of rheumatism since; besides her general health is much improved and I do not hesitate in saying I believe those afflicted with rheumatism or paralysis will do well to consult Dr. Chow Young, whose house is corner Tenth and Front street, Medford, Oregon.
