

### AUTO DEALERS HOLD MEETING

Organization Is Now Perfected—Good Roads Are Urged—Communications Are Sent Member of Jackson County Delegation.

The Southern Oregon automobile association held a meeting Friday evening for the purpose of completing their organization. Representatives from every automobile concern in the Rogue River valley were present and a most enthusiastic meeting followed.

The association has taken up the good roads matters with the members of the Jackson county delegation in the legislature and have been assured by Representative Westerlund and Senator Von der Hellen that they were doing all in their power to aid the cause.

Meetings will be held frequently by the automobile men and it is thought that the new organization by concerted action will be able to do much good.

### GOOD ROADS BILL WILL PASS MONDAY

(Continued from Page 1.)

Kinney, Marriner, Clemens, Thompson and Bigelow.

Friends of the state university at Eugene made a hard fight in the house today for passage of the two bills which carry appropriations for that institution amounting to \$503,258.92. The bills were vigorously fought by a number of representatives from Eastern Oregon who were led by Thompson of Lake County, but they succeeded in passing by a large majority.

The entire appropriation asked by the university this year amounts to over three quarters of a million dollars. One item asked for to build a library amounting to \$175,000 was in danger, but the Lane delegation won over many votes before the roll was called.

### RAEDELL AGAIN ABOUT STREETS

Gold Hill Inventor Who Lost Both Hands and Eye In Explosion Is Able to Appear On Streets In Three Weeks.

Lacking three days of three weeks from the time that he lost both hands and one eye in a terrific explosion of chemicals with which he was trying to make a waterproof match, H. C. Raedell of Gold Hill appeared on the street for a constitutional. He left the hospital several days before, and is now back at home with his family. The little girl whose eyes were injured is getting on nicely, and may recover her sight entirely. Mr. Raedell has not yet decided on a line of activity when he shall have completely recovered, but it is probable that he will locate in business in Gold Hill.

### RECALL BILLS HOTLY CONTESTED IN CALIFORNIA

SACRAMENTO, Cal., Feb. 11.—With the recall bills in both houses of the legislature being hotly debated in committee, the fight of the administration today concentrated in the assembly, which is believed to be less than the senate to the inclusion of the judiciary. In the senate more than 30 votes for the recall of judges are practically pledged and this assures victory there. In the assembly opposition to the making of the bench subject to the will of the people grows. From all over the state leading lawyers are crowding here to work against that feature of the recall bill.

### Rebel Leaders Slain.

CAPE HAYTIEN, Feb. 11.—News reached here today that General Capuzet, commander of the rebels, who captured Quananth and General Mitchell Codio insurgent leader, were shot by the Haytien government forces.

### O'GARA TO AID OF STATION BILL

Will In All Probability Visit the Legislature Monday to Address Solons On Need of Experiment Station in the Rogue River Valley.

In response to a summons from Representative Westerlund, Professor P. J. O'Gara will in all probability leave for Salem Monday to urge the passage of the appropriation bills providing \$25,000 for a branch experiment station in this valley. Mr. O'Gara will be extended the courtesy of the house and will address the solons in regard to the need for such an experiment station here. The orchardists of the valley are taking a great interest in this measure as they are very anxious to secure such an experiment station. The bill was fathered by Representative Eggleston and his death was a severe blow to it. It struck a snag in the house.

### POLICE MAKE A QUICK CAPTURE

Thirty Minutes After Receipt of Notice, Officers Hittson and Hall Land "Wanted" Negro Behind Bars—Alleged Stole Horse.

Within 30 minutes after the arrival of the mail from the south, yesterday afternoon, containing a description of a horse thief, badly wanted by the authorities of Stockton, Cal., Chief of Police Hittson and Policeman Hall had the man in custody, and had wired Sheriff W. F. Sibley of the California city, notifying him of the arrest. The man wanted and now under arrest at the city jail is William Johnson, a negro.

According to the notice sent out by the sheriff's office at Stockton, Johnson, who is also known by the aliases of Sam Johnson, Sam Delustr and Lowe Delustr, and who, when arrested here yesterday was discovered to be masquerading under the cognomen of Monroe Johnson, is wanted in California for grand larceny, the specific charge for which he is alleged to be under indictment being the larceny of a long piece of rope upon the other end of which was attached a horse.

He will be held here pending the arrival of an officer from the California city. He admits his identity but denies the alleged crime.

### ODD BEGGING LETTER REACHES ROTHSCHILD

PARIS, Feb. 11.—Offering to supply him with the "elixir of life," an odd begging letter today reached the Baron De Rothschild, the richest man in Europe. The correspondent wished to sell his secret. The Rockefeller of France replied: "Dear Sir: To date I have had only threats against my life. You are the first to offer me life everlasting. Between those who wish to cut my days short and those who wish to prolong them, I have no preference. The one eventuality is as bad as the other."

### HARD FIGHT WAS MADE FOR BILL

But Local Men Found That the Cards Had Been Stacked Against Them—Will Continue Fight Before Senate Committee.

Messrs. J. E. Enyart, W. S. Crowell and G. Putnam returned Saturday from Salem where they were looking after the interests of the Rogue river fish bill. "Toggerly Bill" Isaacs remained to work among legislators, and Messrs. Enyart and Putnam return Tuesday to appear before the senate committee on fisheries, where the Pierce bill has been referred.

Senator Von der Hellen, who has charge of the fight in the senate, is doing strenuous work against the bill. He is a member of the committee on fisheries, which gives him a point of vantage, and he has good prospects of success.

A strenuous battle was made by the Medford contingent before the house committee, but the cards had been stacked against them. During the entire session, Messrs. Humason and Kearsey, Herbert Hume and his brother and Mrs. R. D. Hume have been lobbying for the Pierce bill. Judge W. M. Davis of Portland appeared before the committee against the Pierce bill, made two speeches and worked like a Trojan in behalf of a closed river.

J. W. Berrian and Mr. Bossour of Central Point, who were present earlier in the week, returned before the bill came to a vote.

Monday the bill for an agricultural experiment station in the Rogue river valley comes before the house committee on ways and means. Professor O'Gara and Professor Lewis of Corvallis will appear before the committee in behalf of the bill, as will President Keen of the agricultural college. This bill was introduced by Captain Eggleston shortly before his death, and by error was referred to the agricultural committee, which after holding it for 10 days, turned it over to ways and means committee.

### HAMILTON FLYIES OUT OVER JUAREZ

EL PASO, Texas, Feb. 11.—How a fortified town looks from a bird's eye view is being told today by Charles K. Hamilton. In his aeroplane Hamilton gazed into Juarez from a height of 500 feet. Despite warning that the federal soldiers had been instructed to shoot at any aeroplane that crossed the border, both Hamilton and Garros flew into Mexico.

### GOVERNMENT MAY BUY EMBASSY BLDGS.

WASHINGTON, D. C., Feb. 11.—The senate this afternoon passed the bill for purchase of embassy buildings in foreign countries which are to be occupied as the offices and residences of American representatives.

The bill permits the expenditures of \$100,000 annually but limits the cost of any embassy building to \$150,000.
