

JOHNSON AGAIN AT OLD TRICKS

Heavyweight Champion Shatters Speed Laws and Judge is Hostile-- Negro Says He Will Do as He Likes in Matter.

SAN FRANCISCO, Cal., Feb. 13.—Jack Johnson's at it again. Sure, scorching. And this time it may mean jail for the big smoke, the judge said.

Patrolman William Cemar at noon today secured a warrant for the arrest of Johnson for shattering the city automobile speed laws. Police Judge Weller issued the warrant.

Johnson, when in California before, appeared twice before that magistrate for the same offense and the last time Weller warned the fighter that another charge of speeding would get for the negro a heavy jail sentence.

While on his beat along Baker street, Cemar said when he swore out the warrant, he saw an automobile go by at a mile a minute. He saw the car's number and an investigation showed it to be owned by the pugilist. Cemar called attention to the statement of negro, who said he would brook no interference.

"If he tries to start any trouble with me, it will be the sorriest day of his life," said the officer.

MINES MAKING GOOD SHOWING

Guy Thrasher Returns From Wolf Creek, Josephine County, Where He is Doing Much Development Work On Claims.

Guy Thrasher of Phoenix, who is developing a number of promising mineral properties on Wolf creek, Josephine county, returned to this city Monday from his mines.

When seen at the Nash hotel, Mr. Thrasher told of the development work being done on the mines in his district and said that all of the mines in the Wolf creek, Coyote creek and Columbia placer districts are being developed as rapidly as conditions will permit.

"On our own properties," he said, "we are developing four very promising veins. We have gold and copper in big quantities and are now working to open up sufficiently to make greater operations possible."

"The Marshall properties on Coyote creek have installed a cyanide plant, and have already exposed a 50-foot vein. That property has produced over \$65,000 up to the present and promises to become one of the best producing properties in the country."

"The Columbia placers are working to almost their limit and are using on an average 500 pounds of powder per day. The Greenback mines have built a new ore chute and are now dropping 20 of the 40 stamps in their mill. They will work more stamps when the chute is completed, so that the ore can be handled better."

Mr. Thrasher will visit his home in Phoenix and will later return to his properties.

This is to certify that about November 1st my daughter was taken with a severe attack of rheumatism which rendered her left arm useless, in fact it was so near paralyzed that she was not able to move her fingers, but knowing of some of Dr. Chow Young's marvelous cures of long standing cases of rheumatism, we decided to consult him, in which I am pleased to say made no mistake, as his remedies acted as he claimed they would, and after the third treatment the rheumatic pain entirely left her and she has not had any symptoms of rheumatism since; besides her general health is much improved and I do not hesitate in saying I believe those afflicted with rheumatism or paralysis will do well to consult Dr. Chow Young, whose house is corner Tenth and Front street, Medford, Oregon.
