

# JUAREZ IS CITY OF PLEASURE

Where Women Run Mad Rivalry for White Man's Smile—Thousands of Dollars Pass Over Poker Tables Daily.

EL PASO, Feb. 13.—A city where all sense of responsibility seems to have been suspended, where languid-eyed senoritas run mad rivalry for the white man's smile, where thousands of dollars pass over poker tables as easily as nickels pile up in a soda fountain cash register, where men wear spurs and shoot, and where the bull fight is more popular than the drama—fancy, if you please, such a city and you have a mind picture of Juarez, Mex.

Travel a year in any direction and you would not find a more cosmopolitan place on the map of the universe, for in Juarez almost every nationality is represented. Juarez's chief claim to distinction is the fact that it is the Monte Carlo of North America—a city where gambling attracts no more attention than the sale of Bibles in Philadelphia, or the reading of Shakespeare in Boston, the killing of hogs in Chicago or the grinding of wheat in Minneapolis.

From New to an Old World. Juarez is across the Rio Grande river from El Paso. From the plaza in El Paso to the plaza in Juarez is but a 15-minute ride on a trolley car—a sudden transition from one republic to another, from a new to an old world.

Time was when El Paso was a Monte Carlo, with wide-open ground floor gambling. El Paso is still what is commonly understood as a hot town, but public gambling had to give way to the onward march of civilization, and buildings that were originally occupied as gambling dens are now given over to grocery stores or book shops.

Monte Carlo moved across the river, and quaint old Juarez was suddenly transformed.

By reason of its charming climate the territory around Juarez is a mecca for health seekers and tourists.

The Juarez bull ring, which is second in picturesque quality only to the gambling houses, is one of the most costly in Mexico. It has the good will of the governor of the state of Chihuahua, and from one of the governor's ranches come the ferocious Spanish bulls which meet death at the hands of Juarez bull fighters.

There is a bull fight in Juarez every Sunday, largely patronized by American tourists. The seating capacity is 12,000. It is frequently occupied to the limit.

# WANT SHORTER HOURS FOR CHICAGO GIRLS

CHICAGO, Feb. 13.—Declaring that long hours of toil have caused thousands of Chicago girls to become a menace to the state's future welfare because of broken health, the Women's Trade Union league of Illinois will send representatives to Springfield next week to work for the strengthening of the state women's ten hour working law.

The league plans to have a bill introduced which will extend the scope of the present measure, which they say is full of loopholes.

In an effort to force the bill's passage, data collected by the Louis Brandeis and the department of commerce and labor showing working conditions for Chicago women and girls will be presented to the legislature.

# TELLS HER HUSBAND'S BUSINESS SECRETS

SEATTLE, Wash., Feb. 13.—The superior court must decide whether a wife's alleged habit of disclosing her husband's business secrets to her friends is cause for a divorce for the suffering husband. John D. Fields, an expert mining engineer has filed suit for divorce because he alleges his wife told outsiders about his business. This caused him to lose heavily on several occasions, he alleges. They were married three years ago.

Fields was a mining expert at the Alaska Yukon Pacific exposition.

# SENATOR WORKS IS UNDER FIRE

Wordly Wrangle Follows Introduction of Resolution Demanding Recall of John D. Works as Senator From California.

SACRAMENTO, Cal., Feb. 13.—A verbal riot in the state Saturday followed the introduction of resolution demanding the recall of United States Senator-elect John D. Works of Los Angeles because he opposes the recall of the judiciary. The measure, introduced by Sanford, was not read, nor was it printed in the journal for information of senators when the question shall come up Monday. Senator Roseberry, in the chair, refused to have the resolution read, holding that the allotted time for the introduction of bills had elapsed. A wordy wrangle then followed upon the question whether the resolution should be regarded as a "bill." The resolution recites the election of Works by "insurgent republicans and progressive democrats who believed him to be the embodiment of progressive legislation." It declares that Works since being elected has "bolted from the combined insurgent republican and progressive democratic party and become a reactionary republican," which is a kind of republican not in good standing with this legislature.

# COLD AIR COURSE IS SUPPORTED BY SOCIALIST

CHICAGO, Ill., Feb. 13.—A "cold air" course, based upon ideas advocated by Emil Seidel, socialist mayor of Milwaukee, is the latest innovation in Chicago schools.

Class rooms are to be maintained at different temperatures and the pupils will be advanced from one room to another until they are able to stand a temperature of 50 degrees without discomfort. The "cold air" course is designed for children having a tendency to tuberculosis.

# BOY GETS BEST OF HIS OLD MAN IN FIGHT

WHITE SALMON, Wash., Feb. 13.—"It was all because I tried to spank my boy," said Albert Darling as he placed his arm under the x-ray today and then submitted to an operation which laid open his wrist to the bone. As he swung on the lad, the boy instinctively threw his hand behind for protection, and an indelible pencil he held penetrated the father's wrist. The point broke off starting blood poisoning.

Amputation may be necessary.

# UNCLE SAM TO HAVE BEST GUNS ON EARTH

BOSTON, Feb. 13.—Through the good offices of the Mexican government according to former Governor Curtis J. Guild of Massachusetts, who was special ambassador to the Mexican centennial celebration, the United States army will soon have a superior armament, so far as rifles and machine guns go, to that of any other power of the first rank.

"General Mondragon of the Mexican army, has invented a contrivance which, applied to a rifle or machine gun, makes it the most advanced weapon in the ranks of the army," said Guild today. "The government of the United States asked for information concerning it, and the Mexican government, although it had not fully issued the improved arm to its own army, immediately furnished Washington with the full particulars. I am informed that within a short time the American troops will be equipped with the device."

# YOUNG PURPLE BULL SELLS FOR \$10,000

BROCKTON, Mass., Feb. 13.—"I never saw a purple cow. I never hope to see one; I will tell you, anyhow. I'd rather see than be one."

If you will change the cow's name to Jake, and alter the "saw" in the first line to owned, the good old ditty will not be so far from fact. Daniel W. Field of this city did own a purple cow—or rather a royal purple bull. Today W. H. Miner of Chicago is in the possession of the freak and Field has \$10,000 instead, the purchase price being the largest ever paid for any seven weeks old bull.

### PROFIT BY OTHERS' EXPERIENCE

## Gray Hair Restored

My hair was getting quite gray and falling out rapidly and I was troubled with a terrible itching of the scalp. My head was full of dandruff, which fell upon my clothes and kept me continually brushing it off. While on a visit to Rochester I heard of your Sage and Sulphur for the hair. I got a bottle and used it. A few applications relieved the itching, my hair stopped falling out and gradually came back to its natural color. It is now a nice dark brown color, soft, glossy and pliable. Several of my friends want to use it, and I want to know what you will charge me for six bottles of it. MISS E. A. ROSS, Sharon, Mercer Co., Pa.

## Grew Hair on a Bald Head

For two or three years my hair had been falling out and getting quite thin until the top of my head was entirely bald. About four months ago I commenced using Sage and Sulphur. The first bottle seemed to do some good and I kept using it regularly until now I have used four bottles. The whole top of my head is fairly covered and keeps coming in thicker. I shall keep on using it a while longer, as I notice a constant improvement. STEPHEN BACON, Rochester, N. Y.
