

DIX BREAKS WITH MURPHY

Biggest Political Battle is Impending as Result of Open Break Over Election of Sheehan as Senator From Empire State.

NEW YORK, Feb. 4.—The biggest political battle in years is impending here today as a result of an open break between Charles F. Murphy, boss of Tammany Hall, and Governor John A. Dix because of the governor's purpose repudiation of William F. Sheehan's candidacy for United States senator.

Sheehan is supported by Tammany forces. The feeling prevailed today that Murphy would be compelled to abandon Sheehan because of Governor Dix's stand.

OWENS BLOCKS ADMISSION OF NEW MEXICO

(Continued from Page 1)

Vice-President Sherman was appointed as commissioner to negotiate with Owen, in which Sherman was unsuccessful.

Refusing all offers of compromise, Owen renewed his filibuster when the senate convened after the recess.

Appropriation Bills Only.

At 11:20 o'clock the senate leaders agreed to vote on the Owen resolution jointly approving the constitutions of Arizona and New Mexico, and Owen yielded. The resolution was defeated by 45 to 39.

At 11:30 o'clock the clocks of the senate were set back half an hour and the senate passed the sundry civil bill. It then adopted the conference report on the postoffice appropriation bill.

At 11:30 both houses sent committees to inform the president that they were ready to adjourn, and at

12:10 the life of the senate ended. Robert E. Peary, discoverer of the north pole, telegraphed today to both houses of congress thanking them for the recognition extended him. Peary was given the thanks of congress and retired as a rear admiral on half pay, by measures passed late last night.

Gore Denounces Despotism.

Just before the closing of the senate, Gore of Oklahoma denounced its "tyrannical" rules and said as long as he remained in the body he would continue to fight despotism. Money then offered a resolution thanking Vice-President Sherman for his courtesy during the session. Gore said if he were capable of resentment he would resist the resolution, but he did not do so and it was adopted.

The senate then adjourned at 1:08.

CONFESSES TO JUGGLING CASH

Startling Evidence Given by Bank Wrecker Joseph Robin Concerning Shady Methods Employed to Fool Bank Examiners.

NEW YORK, March 4.—Startling evidence that the cash and assets of a dozen big New York financial institutions were manipulated, juggled and pyramided and freely used to hoodwink the state banking department was secured today from Joseph Robin, confessed bank-wrecker, by District Attorney Whitman. Following the consultation Whitman announced that wholesale indictments would follow.

Although the district attorney refused to give out the details, it was learned that Robin furnished dates and figures and gave the names of the officers of the institution responsible for the alleged shady transactions.

Robin told Whitman that he had been robbed and then destroyed by his associates and that he intended to get even by betraying them.

is the opinion of the American people. But the fact that out of a total of 86 votes, 40 senators 40 voted the seat vacant because of corruption makes it the most notable in a question of that kind in the history of the senate.

The defeat of the tariff commission bill by a democratic filibuster was for the deliberate purpose of forcing a special session of congress. The democratic party has not sufficient information to undertake the great task of tariff revision

without danger to the great business interests of the country. It is an attempt to play cheap politics, regardless of public welfare and public welfare and public interest. In my judgment the men responsible will receive the unqualified condemnation of the American people."

On the whole the results of the session are highly encouraging to the members of the progressive party.

FITZGERALD BLOCKS TAFT'S TARIFF BOARD

(Continued from Page 1)

As a result of Fitzgerald's filibuster, the house finally abandoned the tariff board bill.

When it was seen that the republican program was defeated the wild excitement broke loose amid which Speaker Cannon, brushing aside all objections and remonstrances, forced through the general deficiency bill, thus making it probable that all appropriations are safe. The house finally adjourned at 12:41 o'clock and the life of the 61st congress was ended.

cerned, adjournment of congress might have been taken several days ago without hampering the administrative or departmental functions of the government.

In addition to putting through 23 great appropriation measures, the house accomplished some notable work.

Speaking from an experience of 18 years in the national legislature, it is no exaggeration if I say that the session was one of the busiest, if not the busiest, I have ever known. It resulted in the passage by the house of a great quantity of practical, sensible, necessary legislation affecting practically every phase of our national life and every branch of human endeavor.

TWO SENATORS ARE REBUKED

California State Assembly Adopts Resolutions Censuring Perkins and Flint for Voting to Exonerate Lorimer.

SACRAMENTO, Cal., Feb. 4.—After a bitter debate lasting all morning the assembly at noon today adopted Chandler's resolution rebuking United States Senators Perkins and Flint of California for voting to exonerate Senator William Lorimer of Illinois by permitting him to retain his seat in the senate. The vote was 44 to 16, the progressive democrats standing with the progressive republicans.

The old line republicans in the assembly made a desperate fight to kill the resolution, Chandler said he presented the resolution with great hesitation, but believed that the people of California should not let the seating of such a man as Lorimer in such a manner pass unnoticed. He received a telegram from Governor Densen of Illinois, reciting statements made to the grand jury by legislators, who acknowledged taking bribes in voting for Lorimer. Coghlan of San Francisco changed his vote from "no" to "aye" and moved for re-consideration on Monday.

its passage. Lodge had objected to the government expenditure within ten years.

Riots in the House.

In the house the scenes were the most disorderly in years. Speaker Cannon pounded his desk violently in trying to keep order and during the

Fitzgerald filibuster the demoralization was complete. The minority jeered wildly when Payne asked unanimous consent to dispense with consideration of the tariff board bill. Then the clock was pushed back an hour, and with Cannon pounding almost continuously on his desk, the excitement was finally subdued and the final bills were pushed through at the rate of one a minute.

DEMOCRATS PLEASED: REPUBLICANS AT OUTS

(Continued from Page One.)

this administration measure was so strong that it fused into a common camp under the widely separated wings of the republicans in the house the progressives of Iowa and the hidebound regulars of Pennsylvania. Meanwhile there developed a remarkable situation, the democratic minority in the house standing almost unanimously for the treaty, although advanced as a republican measure by a republican president. In the senate's closing hours there was emphasized the need for reform in the methods of procedure there.

This session of congress has been a busy one, but the next congress with true downward revision of the tariff, certainly will far exceed it in constructive policy.

 Torpedo, 5-Passengers, \$1,350

This is HOWARD E. COFFIN'S masterpiece, the one different car for 1911. It is the car for which orders, backed with deposits for hundreds of thousands of dollars, were placed by the shrewdest buyers in America, just because it was designed by Howard E. Coffin, and is built by the HUDSON MOTOR CAR CO.

NOTE ITS GRACEFUL LINES AND MAKE ALLOWANCE FOR THE SHORTCOMINGS OF PRINTING TO ADEQUATELY ILLUSTRATE ITS BEAUTY. THERE ARE APPROXIMATELY 900 FEWER PARTS IN THIS CHASSIS THAN ARE USED IN THE AVERAGE CAR SELLING UNDER \$2000. SUCH A SAVING MAKES IT POSSIBLE TO BUILD BETTER—TO USE BETTER MATERIALS, TO PUT STRENGTH WHERE IT IS REQUIRED AND TO MORE THOUGHTFULLY ASSEMBLE THE WORK.

SUCH A CAR WAS IMPOSSIBLE AT ANY PRICE FIVE YEARS AGO.

TO HAVE BUILT AN AUTOMOBILE LIKE IT EVEN THREE YEARS AGO WOULD HAVE COST AT LEAST \$3000.
