EAGLE POINT EAGLETS.

(By A. C. Howlett.)

Tuesday night J. C. Moore and Mr. Pierce of Elk Creek drove in for the night. They report having had a heavy fall of snow at their places and a cold, backward spring.

Mrs. S. K. George of Derby spent the night with us Tuesday. She was accompanied by her son-in-law and wife, Mr. and Mrs. F. W. Carnahan and their daughter, Elizabeth. They took the car for Cameron station Wednesday morning on their way to Mrs. George's home east of Derby.

Wednesday at noon Mr. and Mrs. P. G. Ayres and Miss Fay Perry came in for dinner and reported that as Peter Beltz, Fred Pettigrew, Grant Mathews and themselves were coming into town, on the desert north of here (being farmers, they had their dogs along with them) the dogs got after a rabbit and, running near Mr. Mathews' team, one of which was a colt just being broke to work, became frightened and commenced to run, soon throwing Mr. Mathews out of the wagon, and Mrs. Mathews being left without the lines, was soon thrown out, the seat striking her just above the hips, she falling on her shoulder. As Mr. Mathews fell the wagon ran over one of his legs, but did not hurt him seriously. The horses turned for home, but were stopped. Mrs. Mathews, being quite stout, was quite badly hurt, although it was not known at the time how badly, as Dr. Holt had gone to Medford that morning. But Mrs. Brown and Mrs. Van Seoy took charge of her and applied such remedies as they had at hand, and she was able to go back home the same day.

As already announced in my last, the city dads decided to have all the stock kept up except the cows after February 28, so the next morning our marshal gathered up seven hogs that belonged to Chris Wooley, living about two miles from town, and put them in the pound, and the next morning he came down and paid \$3.25 and then sold them to Mr. Jackson, our meat market man. The hogs had followed the wagon road down to town that morning. I expect that there will be considerable trouble here this spring and summer on account of stock coming in from the surrounding country.

The carpenters are busy putting up new buildings in our town. Mr. Childroth is building a blacksmith and wagon shop. Mr. Findley is building a residence. Mr. Daley is building a house for a racket store and Mr. McQuoid has his home well under way. Lem Charley and Lee Bradshaw are each building new homes on their farms above here, and several others are planning to build as soon as they can get the lumber.

The Car That Requires no Repairs

The Cadillac Factory is unable to put out cars fast enough to supply the demand. For this reason we were unable to get an assignment of over fifteen cars for the 1911 season. Of this number the majority are already sold.

We would advise anyone contemplating buying a Cadillac car to arrange for demonstration and to place his order early, in order to get what he wants.

The Stairway Important

The stairway is a very important part of a building. To be perfect, first-class workmen must build it of first-class material. Squeaky and tiresome stairs are badly designed and constructed. Our long experience, first-class workmen and materials enables us to build perfect stairs for no more than others charge for inferior ones. This is true of wainscoting and cabinet work
