

"READY FOR WAR OR FUN," SAY LEADERS

MOBILIZATION COMPLETED; AWAIT WORD FROM PRESIDENT

8000 SOLDIERS AND SAILORS IN THE SOUTHWEST

Await Word Which Will Hurl Them Over the Mexican Line or Set Them at War Game—They Care Not Which—Generals and Naval Officers in Dark as Yet They Say.

California force ready for probable invasion of Mexico. THE NAVY: Rear Admiral Chauncey Thomas commanding. Battleships—The Delaware ordered from Valparaiso. Cruisers—South Dakota, Pennsylvania, California (flagship). Gunboats—Yorktown and Buffalo. Torpedo destroyers—Lawrence, Perry, Rowan, Preble, Truxtun, Goldsborough and Stewart. Torpedo boats—Fox and Davis. Submarines—Grampus and Pike. Total naval force about 5500 officers and men. THE ARMY: Major General Tasker H. Bliss commanding. Thirtieth Infantry. Eighth Infantry. Garrison of Fort Rosecrans. Total army force about 2500 officers and men.

SAN DIEGO, Cal., March 11.—Primed for battle and hoping only that battle will come, nearly 8000 American soldiers and sailors are here in the southwest corner of the country tonight all ready for war. And the men are not particular. Perhaps it will be an occupation of Mexico; perhaps it will be merely a brush or two with the insurgents along the boundary line; perhaps, they whisper, Japan enters into the situation—and if it does and there is a chance to get a whack at the little brown men, every man aboard ship and in the camps ashore will be tickled to death.

"It looks to me that there is more than the Mexican insurrection behind the government's move," is the way General Bliss puts it.

Admiral Thomas is puzzled and admits it. But the men, scenting trouble ahead, are jubilant and care not who knows the fact.

Mobilization Completed.

When the gunboat Yorktown and the Buffalo nosed their way into the harbor here this afternoon and the long lost Eighth Infantry arrived over the dilatory Santa Fe the United States mobilization—so far as California is concerned—was practically completed. Only the arrival of the battleship Delaware, ordered here from Valparaiso, was needed to fill out the roll of fighters held by Uncle Sam for eventualities as yet unknown.

While professing to have received nothing from Washington in the nature of an order, General Tasker H. Bliss, in command of the United States troops here, today is believed to have strong suspicions that he will lead his men into Mexico within the very near future. Every effort is being made by the intelligence department of the army to get information as to what water is available for troops between Tia Juana and Ensenada, and General Bliss personally has set on foot inquiries to that end.

Hard March Ahead.

General Bliss fears that, in case a march on Ensenada is ordered, the troops will have a hard campaign in crossing the wastes of Lower California.

READY FOR FIGHT OR FUN SAY LEADERS OF ARMY AND NAVY

SAN DIEGO, Cal., March 11.—"We are ready for fight or for fun. But which it will be—and when—we know absolutely nothing. Everything possible is being done to put the last touches of preparedness to our work and by the first of next week the mobilization here will be complete and the United States forces will be in a position to strike any blow ordered by Washington."

This in substance, is the statement of both Admiral Chauncey M. Thomas, commanding the naval contingent here, and of General Tasker H. Bliss, the army chief, today.

BIG COLONIST INFUX STARTS

Many Tickets Prepaid for Trips West—Heavy Trains on Move—Farmers Want to Exchange Present Holdings for Properties Costing Less

CHICAGO, March 11.—Passenger traffic officials on lines leading from Chicago to the Pacific coast points declared that a large number of tickets were sold during the day to persons taking advantage of the colonist rates to the Pacific coast cities. The opinion was expressed that this business will increase daily during the 30-day period in which the special fare will be offered.

In accordance with an announcement made some time ago, the Rock Island, Burlington, St. Paul, Northwestern and other roads with outlets to the western coast will sell colonist tickets from Chicago to Pacific coast cities between March 10 and April 10 for \$32. The regular second class fare is \$49.75.

PORTLAND, Or., March 11.—Judging from the number of prepaid tickets sold to colonists through the agency of friends or relatives who deposited the money for their fares with the Portland offices, the arrival of new residents in Oregon during the low fare period established by the railroads and which went into effect yesterday will be exceedingly great.

Every Portland ticket office, especially those of railroads having terminals in Portland, has accepted money to pay for the transportation of dozens of persons from the east. In some of the larger offices the travel of scores of eastern people to Portland thus was guaranteed.

Advance information received here from the eastern offices of the big lines indicate that the colonist movement already is heavy.

A. M. Cleland, general passenger agent of the Northern Pacific, telegraphed that train No. 5, which left there yesterday morning, carries extra colonist equipment, and that No. 3, leaving St. Paul last night, operated in two sections to accommodate the increased traffic. It is possible that two extra sections, making three sections in all, will be necessary to take care of the westbound crews tonight.

"The movement to central Oregon will exceed the expectations of all of us," comments Mr. Cleland, whose long years of experience in his present position make him well qualified to gauge the traffic.

WOMAN SHOT, CRAWLS MILES

When Husband and Nephew Are Killed and She is Left for Dead by Assassin, Woman Crawls Miles Along Road to Summon Assistance.

SHERIFF AND POSSE ARE CLOSE ON MURDERER'S TRAIL

Lay in Road Half Hour Trying to Gain Strength to Proceed—No Motive for Crime Given.

SAN RAFAEL, Cal., March 11.—John LaFranchi and his nephew, Augustine Albertino, were shot and killed; Mrs. Rose LaFranchi, his wife, was seriously wounded by an Italian who visited the LaFranchi ranch, near here, today. Mrs. LaFranchi, shot in both legs by the assassin, crawled nearly a mile to the nearest house to summon aid. The murderer escaped and posses of ranchers headed by Deputy Sheriffs, are searching Lucas Valley for him.

The woman, in broken English, described the shooting but could give no motive for the crime. The Italian appeared at the ranch four miles from San Rafael, late last night. He was given food and a place in the barn in which to sleep.

The LaFranchis arose early to milk their cows. John, 50 years, and his nephew, 19 years, preceded Mrs. LaFranchi, who carried food to the man. As the men entered the assassin fired his first shot. John LaFranchi dropped with a bullet in his heart. A second shot pierced Albertino's head and he fell across the body of his uncle. Mrs. LaFranchi, who had rushed toward her husband as he fell dying, tried to escape by leaping through a window of the barn. The murderer fired twice and a bullet entered each of her legs. She lay inert while the murderer looked to see if he had killed her. Then he ran from the place.

Bleeding and unable to walk, Mrs. LaFranchi dragged herself to the road, hoping to call aid. She said she lay in the road for half an hour before she gained strength enough to crawl to the home of Supervisor Pacheco, nearly a mile away. Pacheco notified Sheriff Keating, who soon had his deputies and ranchers out in the hills. The murder has fully two hours start on his pursuers. The woman after her wounds were dressed insisted on returning to the ranch.

So far as is known the LaFranchis have had no quarrel with their Swiss Italian countrymen. They have lived on the ranch for the last 12 years.

RUSSIA MAY WAR IN CHINA

Within Next Three Days Armed Russian Forces Will Probably Be Sent Across Border of Celestial Empire to Occupy Provinces Sought for Trade.

GERMANY FAILS TO BRING ABOUT PEACE

Negotiations Are Said to Be at End—China Refuses to Extend Treaty of 1881 and Trouble is in Sight

ST. PETERSBERG, March 11.—It is predicted here tonight that within the next three days that armed Russian forces will occupy the several provinces in China in which trade concessions have been sought by the subject of the Czar during the past few weeks. Negotiations will probably be broken off within the next few days and forces sent across the border. This follows a refusal on the part of the Chinese government to accede to Russia's demands for trade concessions.

Should China resist the occupying of the provinces as planned by the Russians it means that war will be declared and the Czar will have another far eastern war on his hands. Germany has been endeavoring during the past few days to step into the breach and prevent hostilities but so far the efforts of the Kaiser have been unavailing.

The trouble started several weeks ago when China refused to modify provisions in the treaty of 1881 in widening the territory in which Russia has trade concessions. Russia wants the privilege of sending her merchants into the provinces of Mongolia and Eli which have not heretofore been opened to the trade of the world.

It is believed by diplomats that Russia has seized upon this moment to make her demands because China is harassed by internal troubles—plague and famine.

England is said to be watching the affair with more than ordinary interest and in case of an open breach stepping in, and forcing Russia to keep her hands off. It is thought that England through her alliance with Japan will receive the backing of the latter country.

HOPES NEGROES WILL LEAVE SOON

Secretary of War Dickinson Says Black People Should Go of Their Own Accord to Some Country for Themselves.

ATLANTA, Ga., March 11.—The solution of the negro problem in the south advanced by Secretary of War Dickinson, before the southern commercial congress was much discussed here today and added new impetus to the movement for the establishment of a separate country for negroes. Dickinson said that he hoped to see the problem solved by the voluntary departure of the blacks to a new country where they would be self governing though under the protection of the United States. He said that the time for such movement was not yet ripe because the south's labor problem had not been solved.

CAMORRA TRIAL IS UNDER WAY

Members of Centuries Old Vendetta are Placed on Trial—Town is Guarded by Troops—One Prisoner is Reported to Have Confessed to

VITERBO, Italy, March 11.—The trial of Enrico Alfano and 38 of his brothers of the Camorra, the most sensational criminal trial in Italy's history, began today. The Camorrista, members of a centuries-old vendetta, are charged with having murdered Gennaro Suoculi and his wife in 1906.

The spectacle of the prisoners being taken through the streets in steel-lined vans under strong police guard caused hundreds of persons to swarm to the old San Francisco church, where the trial is being held. Viterbo is filled with Camorrista agents, and the town is guarded by 500 soldiers, in addition to the carabinieri and the police.

The prisoners will be kept in a steel cage in the church during the trial. No one will be permitted to speak to them, and 40 soldiers stand guard in and around the edifice.

The fear of the Camorra obstructs the progress of justice. No citizen is willing to serve on the jury, and desperate efforts are being made to evade service. Judge Bianchi, a marked man, according to the brigands, overruled most of the excuses, promising the takersmen that they would be protected amply.

One prisoner, it is reported, has confessed to participation in the murders. The prosecution expects to prove that the band murdered Joseph Petroni, the New York police detective, at Palermo, through agreement with the Mafia, and in revenge for the expulsion of Alfano from America and certain leaders of the Black Hand society.

SOLONS, IN DARK AS TO MOVE, TO DEMAND A REASON

Senators and Congressmen State That Administration Must Explain Movement of Troops—If Necessary Resolution in Congress Will Be Used to Force Explanation.

"MANEUVERS" AS EXCUSE IS INADEQUATE FOR THEM

Taft's One Cry Has Been Economy Yet He Pours Out Money Like Water and Then Says War

WASHINGTON, D. C., March 11.—Unless the martial demonstration which is now under way throughout the United States is explained by President Taft in a special message to congress or light is shed on the affair in some other way, congressmen here tonight declare that a resolution calling upon the white house for an explanation will be introduced at the next session of congress.

Representatives and senators are alike in the dark. They can gain no more information as to the underlying reasons for the sudden demonstration than the private citizens of the country. Every where they have sought for enlightenment they are given the answer "maneuvers," but this fails to satisfy. They want a better reason and unless one is forthcoming they will call upon the president for that reason when congress assembles.

It is pointed out that only the gravest reasons can warrant the movement of troops upon as large a scale at the present time when both the army and navy departments are facing a large deficit. The orders have gone forth to pour out money like water, and the authorities are doing supplies have been purchased with a it without restraint. Provisions and lavish hand. Cavalry horses have been purchased by the hundreds. Men are being enlisted right and left, and quartermasters stores have been increased beyond precedent in time of peace. Surgeons from distant cities have been ordered to active duty. Troops have been rushed in special trains for hundreds of miles. Cruisers have been ordered to points of mobilization under forced draughts, which besides burning coal is unlimited amounts, has worked damage to the ships themselves. Arsenals have been replenished. Cambersome pontoon bridges have been rushed forward by train loads. The expense has run up into the millions and congressmen and senators are asking why.

The administration answers "maneuvers" and keeps on spending money. Never before has the government caused such a large movement of ships and troops to be made in time of peace. Never before have the departments of the United States poured out as much money in a war game. Surely, reason the solons, there is an underlying motive but what?

President Taft's one cry since taking office has been economy and retrenchment. All of the departments have felt it. Scientists in the employ of the government in other departments have been called off to save money. Appropriations have been forced down by the president. Still he has ordered this great movement of troops. Why?

The solons state that they will know the truth if congress is forced to ask the president for the answer.

If you; personal service had always been cleverly want-advertised, perhaps you would have been earning, or many years past, double your present salary. The reflection should be a valuable one for you now.
