

WHY NOT HAVE T. R. STOP HERE

Let Him See the Beauty Spot of all the West—He is Certain to Be Delighted—Will Be Prettiest Time of all the Pretty Year.

Colonel Roosevelt, ex-President of the United States, is to be at this city about April 7. Will he whiz right through or will he stop for a short time and say howdy do?

The answer seems to be largely with the local residents and what action they will take. If they get busy and invite the colonel it is probable that he might stop off an hour or so, or at least long enough to tell us that the nation is safe.

The colonel's trip is largely one of sight seeing and on that premise there is every reason why he should tarry for a short time here and have a look around. When April 7 is here the Rogue River will be verdant dress the most beautiful spot in all the west. The valley will be ablaze, the weather ideal and glorious spring in full array. Never will our homes look prettier, our hills more green or our orchards more beautiful. The colonel loves all these things. It is in some one to get busy. The colonel will stop if he is urged sufficiently. If ever de-lighted before he will be dee-dee-lighted then.

The line of travel dips down to New Orleans, stretches across the southwest, follows the Pacific coast northward to Puget Sound, waver in Idaho and Montana and reaches home through Chicago, where the colonel will stop for a few hours on Saturday, April 15th.

In the party will be Mr. and Mrs. Roosevelt, Miss Ethel Roosevelt, Miss Cornelia Landon, a friend of Miss Ethel's and Frank Larper, the colonel's secretary. Mrs. and Miss Roosevelt will not join the colonel however until he reaches Albuquerque, N. M., and throughout the trip will not attend any of the public functions.

BENCH SEATS ARE PLACED IN PARK

The people of Medford will appreciate the fact that they now have two nice bench seats at the Reservoir park which were recently placed there by the generosity of Dr. Rickett, who lives in that vicinity. The view from that point is unexcelled by any place in the valley and it is visited daily by many of our people, but heretofore there has been no place to sit and rest one's self at the best point of advantage.

Dr. Rickett has the right spirit and the people of Medford are appreciative.

WAS IT MALICE?

COMMERCIAL CLUB MEETING HOLD WARM SESSION HOT WORDS HURLED.

Quite a muss was stirred up last week at the meeting of the commercial club. After the regular business of the club was disposed of the question of money was taken up. It was readily seen that a larger supply of books would be needed for this year's work and it was plainly seen that the money could be had if gone after in the proper manner but how to keep up Medford and make this year's growth the largest in its history. Many more new houses would be needed to house the many people coming to the city this summer.

This is when the kick came in, quite a few said that there was no money in our banks, then came the announcement that it would take about two more banks to supply the people with money enough to buy all the Toledo Ranges, 1900 Washers, Sherwin Williams pure paints, Ives Johnson Bicycles and the great piles of hardware to be seen in this Garnett-Corey hardware store, watch the windows.

WILD FEROCIOUS ANIMAL CAUGHT

Supervisor Erickson of Crater National Forest Nabs Beast in its Native Lair—Capture at This Season of the Year is Unprecedented.

From Supervisor M. L. Erickson of the Crater national forest, now engaged in inspecting the portion of the forest near the Seven-Mile ranger station above Klamath Falls, comes the story of a thrilling and unexpected encounter with a wild and venomous animal, which occurred on March 4.

In company with Ranger Stephen Moore, in charge of the Seven-Mile district, Erickson was making a short inspection of a re-seeding and was returning to the ranger station for the mid-day meal when from the fastness of a dense thicket just a short distance to the left of the trail over which they were passing, came a sound, almost like the buzz of a band-saw eating its way through a particularly knotty problem, yet having in its note something resembling the plaintive appeal contained in the vocal efforts of the family cat as it winds its way round and round the dining room table when odoriferous viands weigh down the board.

With a cry, Erickson reached for his trusty kodak, but the heroic ranger, fearful lest some sinister fate overtake his master, himself plunged into the gloomy deep, emerging therefrom a few minutes afterwards, after the sounds of a terrific struggle had smitten themselves upon the listening ears of the supervisor, bearing in his right hand the mortal remains of a mosquito Americanus.

These animals seldom venture from their lairs until much later in the year.

Mrs. J. W. Watson of Phoenix, Or., says: "I have no hesitation in recommending Doan's Kidney Pills as I have had ample proof of their efficiency.
