Success Refrigerators

Keeps whatever is put into it, whether it is food or ice, and it does it economically with very little care or trouble. Being built entirely of steel, hot or damp climate will not affect it. The outside is finished in white enamel over galvanized steel. Has many superior features over the wooden refrigerator, all of which we will be pleased to explain.

Hemingway's Arsenate of Lead

Is pure and fully equal in quality to any Lead Arsenate obtainable even at much higher prices.

It is guaranteed to show following analysis:

Arsenic Oxide15 Per Cent
Lead Oxide, about32 Per Cent
Soluble Arsenic, under1-2 Per Cent.

Improperly made Lead Arsenate gives disastrous results. A good lead arsenate should contain no free Acetic Acid, only a trace of Free Arsenic Acid, and from 15 Per Cent to 17 Per Cent of combined Arsenic Acid. It should mix readily with water and remain a long time in suspension.

HEMINGWAY'S LEAD ARSENATE combines all these good qualities. It is unique in possession of prolonged sticking power and **It Does Not Scorch.**

Hemingway's Lead Arsenate is Harmless to the plant but deadly to the insect. Hemingway's lead arsenate is used extensively in the Rogue River Valley by prominent fruit growers with unqualified success.
