HEINTZ PLANS A BIG CANNERY FOR VEGETABLES

Representative of Pittsburg Factory Here Looking for Garden Tract and Factory Site—To Open Business Upon Large Scale.

MEDFORD MAY BECOME HOME OF 57 VARIETIES

Informed Professor O'Gara That We Have Already 54 Varieties of Soil in Valley.

W. E. Graves, representing the H. J. Heintz company of Pittsburg, Pa., is in Medford looking for tracts of land and factory sites. It is the intention of the company to purchase a large tract of land and to grow on it, all kinds of vegetables and food products which are canned or pickled by this company.

They wish to interest other growers in raising tomatoes and vegetables for canning and if these plans can be carried out, the Heintz "57 varieties" company will build a large factory in Medford.

A good many so-called waste products that grow abundantly in this valley or are thrown away in making of other products are valuable and will be used.

Mr. Graves is much pleased with this valley and thinks it a fine location and he hopes to get the co-operation of farmers of this section.

This industry will give employment to several hundred people.

Mr. Graves has charge of a Heintz factory, but the purchasing and selection of new tracts of land and factory sites for the company, are solely in his charge.

The Heintz company is known the world over for its pickles, and if they build here will advertise this valley extensively.

RELATION OF SIZE OF FEET TO INSANITY

PARIS, April 7.—Women with big feet and men with little feet are prone to insanity, according to a report read by Edmond Perrier before the Paris Academy of Sciences, the report being the work of Alienists McAuliffe and A. Marie.

Out of 100 men, the report says, 18 have small feet, and out of 100 insane males 76 have small feet. To the contrary, 100 normal women showed 23 with large feet and of the same number of insane women, 82 were found to have large feet.

RATE VICTORY DUE SPOKANE

SPOKANE, Wash., April 7.—A second victory for Spokane in the railroad rate battle is declared to be practically certain by Attorney H. M. Stephens, who represented Spokane shippers before the interstate commerce commission.

In a telegram to A. W. Dohand of the Spokane Merchants' association, Stephens declared that the commission seems certain to uphold its decision of last July ordering sweeping reductions in Spokane's freight rates from eastern and middle western points.

Stephens' message stated that the showing of losses by carriers is less than was expected, and that it is his belief that Spokane would have no trouble in securing tentative rates as suggested in the opinion on the Spokane cases.

QUO VADIS SPELL IS BLAMED FOR SUICIDE

PHILADELPHIA, Pa., April 7.—A new theory which is believed partially to explain the mysterious suicide of Craig Lippincott, president of the J. B. Lippincott Publishing company, was advanced today by friends of the dead publisher. Lippincott, they say, was under a spell, produced by witnessing the opera "Quo Vadis." In the last act of the play Petronius and Ennice both kill themselves. Lippincott shot himself within an hour after leaving the theatre.

EMPLOYERS MEET TO ORGANIZE FOR OPEN SHOP MOVE

PORTLAND, Or., April 7.—Employers from all of the Pacific coast cities will meet in Portland next Wednesday and Thursday to form an alliance of the various employers' associations of the coast to fight the eight-hour day and other trade union measures to which the associations are opposed.

Delegates from Los Angeles, San Francisco, Oakland, Victoria, Vancouver, Bellingham, Everett, Seattle, Tacoma, Spokane and Aberdeen will attend the convention, which is to be held in the Commercial club rooms. Various expedients for maintaining the "open shop" will be discussed in the convention.

COST OF FOOD FALLS IN PRICE

CHICAGO, Ill., April 7.—With butter and eggs lower and the price of flour down one dollar in Chicago, the ultimate consumers are beginning to think that their hopes for lower prices are being realized in a measure.

Dried fruits are some higher, however, on account of cold weather in 1910, killing a large part of the fruit crop in the east. Salmon is the other edible which has advanced in price due, it is said, to recent legislation in Oregon, which has prohibited fishing and curtailed the output.

Mutton, pork and beef is from two to five cents higher today than at the same period last year.

Navy beans which in 1910 were selling at \$2.55 are now down to \$2.25, and corn meal is 60 cents a hundred under the price of 1910 which was \$2.10. Other staples are accordingly lower.

\$10,000 TO PROBE BLONDE BOSS' ELECTION

SPRINGFIELD, Ill., April 7.—The friends of William Lorimer in the Illinois legislature abandoned today all opposition to a \$10,000 appropriation to enable a senate committee to conduct an investigation into his election as United States senator. They are seeking to put Lieutenant Governor Oglesby, a close friend of the "blond boss," on the committee. The house probably will act on the appropriation Tuesday.

FOREST RANGE RULES APPROVED

WASHINGTON, April 7.—The secretary of agriculture has approved a revised form of the grazing regulations which govern the use of the national forest ranges. In the opinion of the department officers, the most important departures from the old regulations are found, first, in the fact that provision is made for recognition of a permanent national advisory board representing the sheep and cattle interests, which will confer annually with the secretary of agriculture concerning grazing matters; and secondly, in the laying down of a rule that on forests where the quality of range and advantages for raising cattle and sheep are equal, the year long rate for sheep after the season of 1911 will be thirty per cent of the yearlong rate for cattle.

The new regulations have been made the subject of extended and most careful consideration and are promulgated at the present time as the result of a general revision made of all the regulations governing the use of the national forests. Before deciding on the grazing regulations Secretary Wilson invited representatives of the two great national organizations of stockmen, the national wool growers' association and the American national live stock association, to present their views to him on grazing matters, and to make such suggestions which they might wish to offer concerning the proposed regulations.

FIRE IN MINE CUTS OFF RESCUE OF 46 WORKMEN

Death by Suffocation Feared as Fate of Miners at Throop, Pa.—Rescue Parties Cannot Make Way Through Smoke.

GOVERNMENT EXPERTS PUMP AIR IN SHAFT

Blaze Starts From Waste Left in Engine Room 700 Feet Under the Surface.

SCRANTON, Pa., April 7.—Death by suffocation, rescuers this afternoon feared, had been the fate of 46 miners trapped in the Pancoast mine at Throop, Pa., when fire broke out today. Though every effort has been made to save those imprisoned in the workings and though the fire was controlled at 1 o'clock this afternoon, the lower levels were so filled with smoke and gases that rescue parties could not make their way through the tunnels. The big fans are forcing as much fresh air into the workings as they can, but old-timers say they fear that blackdamp and the poisonous smoke and gases from the fire may have already overcome the entombed men.

Headed by Superintendent Birtley, a force of men is engaged in forcing air down the tunnel to the foot of a shaft where the men are believed to be imprisoned. This shaft is choked with debris and it will be hours before it can be penetrated.

Equipped with oxygen helmets, a special train of mine rescue cars is being rushed from Kingston to Throop.

At a late hour this afternoon it was reported that several cars in the mine had caught fire, and water is being pumped into the main shaft in an effort to extinguish the blaze.

At 4 o'clock this afternoon four government experts, aided by eight members of the Lackawanna rescue crew, penetrated the shaft and rescued Joseph Vickers, a fire boss. He was unconscious.

Mine officials stated that there was still a chance of the others being alive, as air was being pumped down the shaft.

Officials say that the fire started from waste left in the engine room. The entombed men are 700 feet below the surface.

Late this afternoon officials stated that it was impossible to say just how many men were in the mine when the fire broke out, but 46 was believed to be a conservative estimate.

UNWRITTEN LAW FREES WOMAN

FORT WORTH, Texas, April 7.—The unwritten law scored a full triumph here today when a jury acquitted Mrs. Elizabeth Brooks of murder after Mrs. Brooks had freely admitted having killed Mrs. Mary Binford because the latter alienated her husband's affections.

The jury deliberated last night without being able to reach a verdict but this morning they filed into court with a dictum of "not guilty." Before a single jurymen was accepted in the case each had to declare unreservedly his belief in "the unwritten law."

CAT ADOPTS FAMILY AND MOTHERS RODENTS

LOS ANGELES, Cal., April 7.—Polly, a tiger tabby, famed as a ritter, owned by the Excelsior Laundry company, has been guilty of a confession of nature hitherto unheard of. Losing three of her own kittens by death, she killed a mother rat and adopted a rodent litter of the same number. The three baby rats and a surviving kitten nurse in unity. The cat's proud owners have taken photographs of the strange family as a record.

TURNER RAISING FUNDS FOR WAR AGAINST MEXICO

SAN FRANCISCO, April 7.—Stirred by predictions by John Kenneth Turner, author and Mexican sympathizer, that the next Diaz forces would be driven out of every Lower California town within a week, socialists here today are freely giving up money to arm and equip recruits for the insurgents.

"Who will give \$25 to arm a man to help restore liberty in Mexico?" was the slogan Turner and William McDevitt, socialist candidate for mayor, sounded at a big meeting here in the Building Trades' auditorium. In answer to the appeal four men each promised to equip one recruit and considerable cash was contributed by others present to the cause.

McDevitt described the sending of American troops to the Mexican border as proof of the "Morganatic alliance between Bill and Porfirio."

BRYAN SCARED OF LOSING HOLD

LINCOLN, Neb., April 7.—Charging that the "interests" are already planning to capture the democratic party machinery and warning the progressives of that political faith to be on the lookout William J. Bryan today sounds a call to arms through his paper, the Commoner. In a black-face typed editorial Bryan says:

"It behooves all democrats to be on guard. The friends of the predatory interests, the beneficiaries of a special privilege and of governmental favoritism are always working. They do not sleep. They are able to bring pressure to bear on their class of newspapers and always have somebody for an office whenever there is a vacant place. They already have candidates for congress, for the senate, for the judgeships, for the cabinet and for the presidency.

"The interests" are now planning to capture the democratic convention and to nominate a candidate satisfactory to them. If they find the progressive sentiment is too strong to be ignored they will take some one progressive enough to furnish something to talk about, but not progressive enough to frighten 'the interests.'

"The democratic party seems ready to come into its own. After a long fight those progressive policies which aroused the opposition of the predatory interests in 1898 are being accepted as the policies of the country, but 'the interests' will do their best to nominate a candidate not in sympathy with and who will try to retard their progress."

EXTREME DULLNESS RULES GOTHAM STOCK MARKET

NEW YORK, April 7.—The opening of today's stock market was inclined to extreme dullness. None of the favorite securities varied more than one-fourth from their initial prices. There was an active and higher market for bonds. Associated Oil rose 2 points; United States Rubber and Pittsburg Coal 1 point, and American Car preferred, a large fraction; National Biscuit lost 2 points.

The market closed firm. Bonds were firm.

PRINCESS IRENE STILL STRANDED

NEW YORK, April 7.—Though hardly a ripple disturbed the sea off Fire island today, five big tugs failed to pull the North German Lloyd liner Princess Irene off the sandspit where she lies stranded. The cargo probably will be lightered.

When all hope of pulling the liner off was abandoned, 1774 of her passengers were this afternoon transferred to the steamer Prinz Friederich Wilhelm. They were to have been taken off yesterday, but the tugs able to get into the shoal water near the liner were too small for the work and it was put over until today.

MARTIN ELECTED DEMOCRATIC BOSS IN THE SENATE

Virginian Chosen Despite Opposition of Progressive Forces as Floor Leader—Voted With Aldrich on the Tariff Question.

RECIPROCITY ATTITUDE TO BE DECIDED MONDAY

Bryan Visits White House and Talks Politics for Half Hour With Taft.

WASHINGTON, D. C., April 7.—Senator Thomas S. Martin of Virginia was this afternoon elected floor leader of the democrats in the upper house by a caucus vote of 21 to 16. The progressive democrats bitterly opposed him, charging that he had repeatedly voted with Aldrich on the tariff question.

The democratic ways and means committee of the house today decided to submit to the democratic caucus on Monday or Tuesday the question whether they should consider reciprocity with Canada immediately, or only after the wool schedule of the tariff was taken up.

William J. Bryan visited the White House today and for half an hour talked politics with President Taft.

Bryan refused to discuss his talk with the president. He was asked his opinion of the reopening of the Lorimer case and replied that he did not know it had ever been closed except in the senate.

Bryan denied that he had endorsed the candidacy of Governor Woodrow Wilson of New Jersey for the democratic presidential nomination.

Although the name of the man who opposed Martin in the conference was not given out, it is reported that Shively of Indiana received the support of the progressives, Stone of Missouri, Newlands of Nevada and Williams of Mississippi were among those, it was believed, the progressives might favor.

Senator Bourne of Oregon has accepted the invitation of the judiciary committee of the Pennsylvania house of representatives to address the legislature Tuesday, April 11, on the "initiative and referendum."

DANCES TO AID BOYS AND GIRLS

NEW YORK, April 8.—The development of better boys and girls by means of dance halls!

How's that for an advanced idea? Sort o' make the oldtime, orthodox church members snort with disdain, eh?

Well that's just what's being attempted in this city. And everyone connected with the movement—directly or indirectly—will tell you that it is succeeding beyond all expectations.

"In consideration for my being accorded membership in the above club, I hereby pledge myself to abstain from using paint on my face, which deceives no one but myself. I also waive my rights for any act unbecoming a lady."

"In consideration for my being accorded membership in the above club, I hereby pledge myself to abstain from using cigarettes while a member. I also waive my rights for any act unbecoming a gentleman."

Isn't this a pretty good platform? Subscribing to it is the only thing it costs for membership in the music demonstration club, the name of the new dance club. The patrons of the club are the office boys, messengers, bank runners, stenographers and office girls of the financial district. The dance room is in the basement of a building in Maiden Lane, between Nassau and Williams streets.

Dancing begins at 12:10 p. m. every day except Sunday and ends at 1:30. In this hour and twenty minutes, three shifts of dancers occupy the floor, those whose lunch time is from noon until 12:30, from 12:30 until 1 and from 1 until 1:30. The boys and girls are supposed to spend ten minutes of their half hour's lunch time with their sandwiches, pie and coffee and the other twenty minutes in Terpsichorean pursuits.

STAR TWIRLER RULED OUT OF BASEBALL CLUBS

WASHINGTON, D. C., April 7.—For refusing to sign a contract which called for a salary of \$3600 for six months' work Walter Johnson, the star pitcher of the Washington American League Baseball club, and one of the best twirlers, turned out in a decade, was today formally ordered from organized baseball by President Noyes of the Washington club.

Until today it had been expected that Johnson would come to terms but he refused to play ball for less than \$7500.

Many fans believe Johnson is superior to either Christy Mathewson of the New York Giants or Mordecai Brown of the Chicago Cubs. Johnson formerly played with Seattle.

SENIORITAS AT WARSIDE CRUEL

NEW YORK, April 7.—Tales of savage cruelty by Mexican women camp followers are told in a letter received here today by a New York woman, from the wife of an American army engineer located in Chihuahua, Mexico. According to the engineer's wife, the Mexican women go out of the battlefields with aprons filled with knives and stones, and when they find an insurgente seriously wounded finish the job by crushing his skull with a stone or plunging a knife into his heart.

After the battle of Santa Eulalia the army woman writes, her husband saw numerous dead rebels lying on the battlefield with their heads horribly crushed. The letter also recited that after the rebels had retreated from Santa Eulalia the federals entered the city and brutally butchered helpless men, women and children.

"I hear that the mikado," says the army woman, in conclusion, "has ordered the Japanese in Mexico to return to Japan. Most of those are members of the army reserve. It is said that many of them are marching overland to the Pacific coast, but I do not know if this is true."

SAYS DOCTORS SQUEEZE PATIENTS LIKE ORANGES

PARIS, April 7.—Baron Henri de Rothschild, millionaire sportsman, dramatic author and physician, in a lecture today scored his own profession, declaring the doctors employ tricks to secure patients, operate when unnecessary and treat the patient like an orange, squeezing him as much as possible.

The lecture caused a sensation. De Rothschild said that a patient's illness was sometimes prolonged purposely, saying:

"Medical men are apt to forget their duty is to cure their patient as quickly as possible, and if they fail to do so they are guilty of a wrong action."

WIFE WON BACK BY DE BEAUFORT

CHICAGO, April 7.—Count John Alexander von Mourik de Beaufort, once featured in the newspapers as the titled husband of Irma Kilgallen, but more recently starred in vaudeville as "a man of tragedy," has been invited to come back home.

The count and countess met by accident on a downtown street today and thereafter for three or four hours they motored in the countess' automobile. It is said that Papa Kilgallen, who once "put the boots" to his noble son-in-law, still frowns at the mention of the count's name, but has been persuaded to permit the reconciliation.

ten minutes of their half hour's lunch time with their sandwiches, pie and coffee and the other twenty minutes in Terpsichorean pursuits.

BOODLER BACK AFTER 9 YEARS TO STAND TRIAL

Ellis Wainwright, Millionaire Brewer of St. Louis, Indicted by Folk, Returns to Face Trial After Years Spent in Hiding Abroad.

PARTY TO SCHEME TO BRIBE CITY OFFICIALS

Slush Fund of \$135,000 Distributed—Money Loaned on Brewer's Note.

ST. LOUIS, Mo., April 7.—After an exile of nine years, Ellis Wainwright, millionaire brewer, who was indicted on bribery charges in 1902 during former Governor Folk's "boodle" crusade, returned here today and surrendered to the chief of police.

Shortly before the crusade was inaugurated by Governor Folk Wainwright left St. Louis with the announcement that he was going abroad. When the grand jury returned the bribery indictment against him Wainwright was traveling in Egypt. When news of the indictment reached the brewer he decided not to return to America, but went to Paris to live.

Wainwright was indicted in connection with alleged bribery to secure a franchise for the Suburban Street Railway company, which controls part of the St. Louis street car system.

It was the first of the St. Louis graft cases and involved, besides Wainwright a majority of the members of the city council and the house of delegates and Charles H. Turner and Henry Nicolaus, officers of the Suburban company. Eight persons were convicted and sent to the penitentiary and two others are still fugitives from justice.

The indictment was returned in 1902. It was charged that Wainwright was a party to a scheme to bribe city officials to grant the franchise and that a fund of \$135,000 was raised for that purpose. Of this sum, evidence adduced at other trials showed \$75,000 was to go the house of delegates and \$60,000 to the city council. The money was loaned by the German Savings institution on a note signed by Turner, Nicolaus and Wainwright. Turner turned state's evidence. Wainwright was away when the indictment was returned. Nicolaus was acquitted, the court holding that though he signed the note, it was not proved that he had guilty knowledge of the purpose to which the money was to be used.

The money, it was alleged, was put in two safe deposit boxes. Delegate J. K. Morrell held the key to the box, containing \$75,000, and Councilman Charles Kratz held the key to the other box, in which \$60,000 was put. Kratz fled to Mexico. Morrell turned state's evidence and his testimony, together with that of Turner, resulted in the conviction of the councilmen and delegates who were sent to the penitentiary. At that time there was no extradition treaty with Mexico, and President Roosevelt secured the adoption of one especially that Kratz might be brought back.

The cases were tried by Joseph W. Folk, at that time circuit attorney.

There is no statute of limitations affecting the Wainwright indictment, and he may still be brought to trial. However, a number of the principal witnesses are dead, among them Turner and the cashier of the Germany Savings institution, through whom the original loan was negotiated. Other witnesses have removed from the jurisdiction of the court. If the case is brought to trial it will be prosecuted by Attorney Jones, a republican.

SPAIN TO SEND TROOPS TO INVADE MOROCCO

LONDON, April 7.—Madrid dispatches today to the Exchange Telegraph say that Spain is preparing to send 20,000 troops into Morocco and is also rushing the mobilization of the navy. The alleged interference of France in North African affairs is the cause of the activity.

"Shopping" that is based upon advertising is usually a profitable use of one's time.
