

Our Correspondents

BUTTE FALLS.

The Crater Lake company has a large force of men cutting wood for the Medford market and it is expected that wood will be cheaper next winter in Medford.

Ashpole and Nichols have opened up their butcher shop and will carry a good stock of fresh meat and other necessities for the table.

Our merchants are stocking up and each train brings in car loads of store freight and the prices of goods will be much reduced by the fall in freight.

The hotels are doing a rushing business and all available rooms are soon taken by the people coming in to either locate or inspect the ground. The local band is doing very well under the instruction of Messrs. Carson & Hildreth and it is hoped will soon give a public exhibition of their proficiency.

The bank building has been nearly completed and is now receiving the finishing touches of Painter Erie. The inside is fitted up after the improved style of a banking room and presents a most inviting look; the safe and vault are of the latest pattern and the location of the building is one of the most desirable. Mr. Barker, the cashier, is well liked and it is expected that the bank will do a good business and be a most acceptable addition to our place.

Messrs. Arnold and Weeks, with their families have located in our midst and enjoy the surroundings very much. They are from Kansas.

Mr. O'Brien, with his family of Wyoming, has taken residence with us and already has found employment.

A "y" will soon be built for the accommodation of the railroad so that the engine will not have to back down to Eagle Point. The work is ordered and this with the building of the "depot" and water tank will make things lively for sometime to come and if the extension over the Cascades is made this summer and the other enterprises materialize which are proposed we see no reason why Butte Falls should not take a long stride forward this year.

Messrs Carson & Stodard are about building two store rooms one the west side of park and will occupy them with their respective business as soon as they are finished.

Mr. Crook of Ashland has the lumber on the ground for the erection of a store room on his Park lot.

Mr. Matthews has purchased the house and lots of Mr. Rayburn the east side and as soon as it is vacated it will be either rented or occupied by Mr. Matthews and family.

JACKSONVILLE ITEMS

H. Crouch of the cyanide plant went to San Francisco on a business trip this week.
