LANGFORD GIVES BIG JACK LAUGH

Says He Hopes They Keep the Big Smoke in Jail Until He Signs Articles for Go With Human Gorilla.

SAM LANGFORD.

NEW YORK, April 21.—"Sam" Langford, the negro heavyweight pugilist, has just returned from abroad in response to a cable message saying that his aged father was seriously ill at Weymouth, in Nova Scotia. His manager, Mr. Woodman, remained on the other side, and if he succeeds in arranging several matches Langford will return abroad next month.

When Langford was informed that Johnson had got into the toils of the law again he chuckled with glee.

"I wish they'd keep 'Jack' in jail till he signed up for a fight with me," said Langford. "There are three boxers I want to get into the ring with. One is Johnson. The others are 'Al' Kaufman and Carl Morris."

ROGUE APPLES CONTRACTED FOR

Northwestern Fruit Exchange Has Issued Bulletin Telling of Deal Made With the Rogue River Fruit & Produce Association of Valley.

The Northwestern Fruit Exchange has issued the following bulletin made with the Rogue River Fruit & Produce Association:

An adjourned stockholders' meeting of the Rogue River Fruit and Produce Association was held at Medford on Tuesday, April 11th. A number of important questions were discussed, among them being the question of marketing. Various reports were presented to the stockholders touching the different marketing methods extant, and at a special meeting of the board of directors of the Rogue River Fruit and Produce Association held on the following Saturday, April 15th, it was decided that the association shall join the Northwestern Fruit Exchange, and market its entire output of apples for the season of 1911.

Handle all Apples.

Accordingly membership agreements with the Northwestern Fruit Exchange were executed, and the Exchange will handle the selling of the entire output of apples of the Rogue River Fruit and Produce Association. This action was taken after a very careful investigation of the records, equipment, and facilities of the exchange, and a comparison of the Exchange's average results with those obtained in the same districts under other methods of marketing.

During the season of 1910, the Rogue River Association was not a member of the Northwestern Fruit Exchange, having made its marketing arrangements some time before the exchange was organized. However, at odd times during the season, twenty-eight carloads of fruit were sold by the Northwestern Fruit Exchange for the Rogue River Association, at average prices appearing hereunder:

The Directors.

In passing, it may be of interest to say a word about the Rogue River Fruit and Produce Association. This association is not only one of the best organized in the entire northwest, but is also one of the largest. The association operates twelve shipping stations, covering the entire Rogue River Valley for a distance of about 55 miles. On its board of directors it numbers several very prominent men—prominent not only in the fruit growing world, but men of wide varied business experience. The president, Col. R. C. Washburn, is a man of extensive experience in the east, and a large orchard owner. Mr. C. E. Whisler, vice president, needs no introduction as he is known far and wide wherever fruit is grown. Mr. K. S. Miller, general manager of the association, is considered one of the best executives in the industry. Mr. Reginald H. Parsons, president of the Northwest Fruit Exchange, and president of the Hillcrest Orchard Company, controlling 200 acres in the Rogue River Valley, and Mr. A. C. Randall, one of the directors of this exchange, and president of the Talent Orchard Company, comprising over 500 acres of trees in the Rogue River Valley, are both directors in the Rogue River Fruit and Produce Association. Prof. P. J. O'Gara, who is known far and wide throughout the northwest as a former expert in the United States government department of agriculture, bureau of pomology, and who is an authority in all of the scientific branches of horticulture, is also one of the association's directors. The other directors are all prominent fruit growers, and altogether the Rogue River Fruit and Produce Association is one of the strongest institutions of its kind in the northwest.

That an association, under such management, should recognize the value of the service of the Northwestern Fruit Exchange and become a member of it is an eloquent testimonial of the clean methods and successful operations of the exchange during its present year.

Inasmuch as the exchange is under the complete control of bona fide fruit growers, and is rendering a scientific service at a very low rate, it is coming generally to be regarded as entirely worthy of earnest support and encouragement.

WITH THE BALL PLAYERS

The boys are all hoping for a warm day next Sunday.

Miles has been getting some good workouts this week, and should scoop 'em all up Sunday.

Grants Pass has some ball team this season, and it is evident that some one is coaching them who thoroughly understands the game.

Well, a hard game is what our boys like. So here's to you, Manager Roper. For any time you win we know the fans will see a good game.

Medford will have four pitchers for Sunday's game. Manager Hall is undecided as to who he will start the game with. It all depends on the warm-up Sunday.

McQuoid, who pitched a couple of games for Neff, has asked for a chance on the Medford Regulars. Manager Hall thinks well of McQuoid and will probably give him a chance in the near future.

The full team will be out for practice this evening at 5 p. m. They will be put through some hard work, as the weather heretofore has been too cool for strenuous work.

It is reported that about 200 fans from Grants Pass will accompany their team Sunday. The py predict another beating for the Medford bunch.

From present indications Medford will have its banner crowd next Sunday. The fans know that these two teams are evenly matched and that they will see some ball game. Hence the interest.

Manager Hall received a letter from George Wheeler, who is utility man on the Los Angeles Coast league team. Wheeler has been in the league nine years, and wants to locate in Medford and coach the regular team. He offers to come upon securing steady employment.

The fans should turn out liberal for next Sunday's game. The boys have not asked for any support outside the regular attendance. They have been put to considerable expense this season in buying new suits, and extra supplies such as baseballs, bats, mitts, shoes, etc. It costs money to run a ball team.

After all southern has seen some pretty good baseball stars in action. Buddy Pernoll and Cack Henley, two old pitchers, from here, are the two most talked of twirlers in the Pacific Coast league. The sporting writers are certainly giving them a big boost.

CHICAGO, April 21.—Little Johnny Kane, the ex-Cub utility man who was sold recently to the Vernon Coast team, has not yet started for his California berth. Kane reported today that he had a bad case of tonsilitis and would not start on his transcontinental journey until tomorrow or Sunday.

The Vernon clubs terms are satisfactory to the clever player and he is ready to leave.

ALVA, Okl., April 21.—Bert Clifton, outfielder on the Northwestern rangers baseball team of Alva, who while playing with the Southwestern Normal school team at Weatherford, was spiked in the right hand, today is at the point of death.

The injury was not treated at the time of the accident and a severe case of blood poisoning developed.

NEW YORK, April 21.—Joe Jeanette today did not have a mark to show for his fight last night with Al Kaubik, whom he knocked out in the ninth round. That Jeanette could have won much earlier in the fight was the belief of a majority of those who saw the bout.

MAY HAVE CURE FOR LEPROSY

Jackson States That Physicians Working Under Auspices of Government May Succeed in Finding Needed Anti-toxin.

JOHN JACKSON.

NEW YORK, April 21.—American physicians working under the auspices of the United States government at the Molokai station for lepers in Hawaii may soon announce the discovery of an antitoxin for leprosy, according to John Jackson, fellow of the Royal Geographical society and organizing secretary of the Mission to Lepers. Mr. Jackson, who just arrived here from London, is an Englishman who gave up mercantile life to conduct work for the relief of lepers in India and the far east. He will lecture daily at the World's Missionary Exposition in Boston for one month, beginning April 22, and then will make a tour of the states.

Mrs. Powell Almost Dead

Dry Ridge, Ky.—"I could hardly walk across the room," says Mrs. Lydia Powell, of Dry Ridge, "before I tried Cardui. I was so poorly I was almost dead. Now, I can walk four miles and do my work with much more ease. I praise Cardui for my wonderful cure." Cardui is successful in benefiting sick women because it is composed of ingredients that act specifically on the womanly constitution, relieving headache, backache, irregularity, misery and distress. Only a good medicine could show such continual increase in popularity as Cardui has, for the past 50 years. Try Cardui, the woman's tonic. *

THIN HAIR ON TOP

If Parisian Sage, the hair grower that Chas. Strang guarantees, will not cause hair to grow where the hair is thinning out, nothing on this earth will.

And we say to everybody, man, woman young or old, you can have your money back if Parisian Sage isn't the best hair grower, hair saver, hair beautifier and dandruff cure on the market today.

It stops itching scalp and falling hair, and makes hair grow thick and abundantly, or money back. Fifty cents for a large bottle.

"Parisian Sage makes the hair soft and brilliant and promotes growth. I gladly recommend it to everyone."—G. M. Emmons, Albion House, Potsdam, N. Y., June 7, 1910. *

MAN, WANTED FOR FRAUD, CAUGHT

Los Angeles Man, Who is Said to Have Changed Dates on Requisitions in Southern City, is Caught by Detective in Portland.

PORTLAND, Or., April 21.—In the city jail this forenoon, F. W. Frankhouser, wanted in connection with the Los Angeles scandal of three years ago over the purchase of $15,000 worth of Gamewell police patrol boxes, declared that he was not a fugitive from justice and said he could not understand why the city attorney of Los Angeles ordered his arrest.

Frankhouser was taken in tow last night by Detective Lloyd of Losgeles. Lloyd said Frankhouser was wanted on the charge of having changed dates on requisitions so that supplies and amounts due would total each day under $500 so as not to conflict with the city charter.

Frankhouser has been working for this city in an executive capacity in the fire department. He declares that he was here only on a vacation and that the city officials at Los Angeles knew his whereabouts.

Mrs. Henry's Case Put Off.

SAN FRANCISCO, April 21.—The case against Mrs. Iva May Henry, divorced wife of Albert J. Henry, Seattle bank clerk, and S. Foster Kelly, charged with seeking to evade service of a court order, was today postponed until next Wednesday at the request of the defense's attorneys. The charge against Mrs. Henry and Kelly for contempt of court, growing out of the kidnaping of the Henry children, was scheduled to come up this afternoon in the superior court.

We Request a Comparison—That's All

YOU can't look at a cigar and judge its flavor. Nor will any wise man try to. But, how many men stop before our show windows, look at the clothes displayed and then pass on? We think too much of our models to say that these men are not interested; but why will you, or any man, not take the time to come in and put yourself in a position to judge our merchandise? Compare our suits with those you have worn or seen. Compare the shoulders, lapels, the "swing" and the tailoring with any you choose.

We Sell Ruberoid

And Guarantee It—We Know It's the Greatest Roofing the World Produces

Whatever roofing you are using on any building, you are paying the price of Ruberoid. There are 300 imitations for Ruberoid—and all of them cost more in the end than the genuine. The imitations have names that sound like Ruberoid. Frequently they are sold as Ruberoid. Before they are laid and exposed to the weather they look like Ruberoid.

You cannot judge a roofing by its name—you cannot judge a roofing by its looks—you can judge it only by the service it gives.
