BURNS SAYS HE HAS COMPLETE FACTS IN CASE

(Continued from Page 1.)

feared the outcome of an attempt to legally hold him in this state.

Leo Rappaport, attorney for the structural iron workers, who was present Saturday afternoon when the offices were raided by Burns and his men, is preparing to do his utmost to prevent papers and documents of the union from being used in the case.

He characterized the whole proceeding in the arrest of McNamara was out of the ordinary.

Whether anything will be done to secure McNamara's freedom on the basis of the alleged illegality of his arrest is a matter not yet fully decided.

What his next move will be Rappaport refused to divulge, but it is understood that he will watch the grand jury proceedings very closely and that evidence adduced there, coupled with his knowledge, may give Prosecuting Attorney Baker opportunity to make some move in connection with the case.

Arrested Saturday. McNamara was arrested late Saturday afternoon, the moves being made so quickly that it was late in the day before it was generally known that an arrest had been made.

McNamara with the members of the executive council, were in session when Burns and Detectives Garber, Simon and Dugan of the local force and Detective James Hossie of the Los Angeles force arrived. Burns asked to see McNamara.

He was told that the secretary was then in session with the other members of the national board and could not be disturbed. Burns walked into the room and placed him under arrest.

McNamara was hustled from the American Central Life building, where the headquarters of the union are located, and taken to a waiting automobile in the street below. He was rushed to the central police station, where Police Judge James Collins, in spite of the fact that the police court seldom sits on Saturday afternoon, was waiting. Detective Hossie displayed requisition papers made out by Governor Johnson of California and honored by Governor Marshall of Indiana. He demanded custody of McNamara because he had no attorney.

Collins told him that no option was open to him, the papers, signed by the two governors were before him and that he necessarily had to give the prisoner into the custody of the California officials.

Is Whisked Away. McNamara was taken out, seated in the automobile and whisked away. Since then his movements have been shrouded in mystery, though it is known he was allowed to visit his home. Later he was taken out of Indianapolis in an automobile and put aboard a St. Louis train.

It is supposed arrangements had been made to have one of the through trains stop at some small station and that the arrest was timed so that he could be rushed there before there could be any interference with his removal from the state.

GRANTS PASS VICTOR 12-9

Medford Team is Outhit, Outrun and Outgeneralled by Grants Pass Boys—Pug Made Mighty Effort to Tie Score.

'Twas the ninth inning. The score was 12 to 9. Two men out, two on bases. Pug walked to the plate. He rubbed dirt on his hands. He passed one up. He swung. He landed. Away flew the sphere. On and On and On. To the fence. A home run? Be patient, Arabella. It was not. A center fielder had caught it and Medford's last hope for a tie score had passed. That tells the story of the game.

Medford was outplayed, out-generalled and out-hit. Grants Pass was there with bells.

Snorty Miles played a strong individual game, his catch at third being a gem. Crews was out of form and missed one easy one. But what's the use? Here's how Whittington caught it:

of the arrested trio in particular and to union labor in general. It said: The two McNamaras and McManigal and others who are alleged to have assisted in the blowing up of the Times building and the cowardly assassination of its faithful and defenseless employees will be brought to this city and tried, if convicted and hanged, their deaths, or the deaths of ten thousand like them, would not expiate their awful crime.

But it will serve to warn the closed shop laborites who inspired the assassinations and the treasures of whose organizations supplied the money to pay the expenses of their nefarious deed that in attempting to carry their ends by violence they are butting against the bosses of the bucklers of society and can gain nothing but bruises from their conflict.

The fact that the accused in this case have so obviously been concerned in a large number of dynamitings, committed in various parts of the country—everyone of them directed against a non-union establishment—gives the arrests a thrilling importance. These villains are the Carmorristis of the United States and in running them down, Detective Burns has unearthed the most tremendous criminal conspiracy in the history of America.

BURNS SEIZES A GRIP AT TOLEDO

TOLEDO, O., April 24.—Detective William J. URICISOL THE CONQUEROR OF RHEUMATISM.

If you have tried every other known remedy for rheumatism do not despair. You still have Uricisol, the practical certainty of CURE, and the absolute certainty of material and lasting benefit to fall back on.

Uricisol is not a cure-all. Its special field is rheumatic diseases and it cures them by removing the cause. Everybody nowadays knows that rheumatism is caused by an excess of Uric Acid in the blood. Local applications may relieve, but they cannot possibly get at the seat of the disease.

Uricisol is just what its name implies, a solvent and eliminator of Uric Acid. Remove the cause and the disease is gone.

Uricisol not only cures the common forms of rheumatism, but it does what no other remedy has before accomplished: IT DISSOLVES AND ELIMINATES DEPOSITS IN THE JOINTS, WHERE THEY HAVE BEEN ACCUMULATING FOR YEARS.

Records are in our possession of not one but many cases where the joints of the fingers were so thickened as to be practically useless; where the hip or the knee joints were so filled with the deposits as to render the victim wholly unable to walk; yet the patients were completely restored to health and activity by the systematic use of Uricisol.

In this way Uricisol has been a genuine RENEVER OF YOUTH!

We can truthfully claim the remarkable record of 99 per cent. of cures where a proper opportunity is given our remedy to accomplish the result. We will gladly supply testimonials. Write for folder.

If your druggist does not have it, send one dollar to The California Chemical Co., 325 New High St., Los Angeles, Calif., and we will send you a bottle prepaid.

HIGH PRICE CATTLE PRICE IS TOUCHED

PORTLAND, Ore., April 24.—Receipts for the week were: Cattle, 1083; calves, 12; hogs, 987; sheep, 2281; horses and mules, 58.

The sale of 1091 pound cattle at \$7.95 was the high water mark for the year, but toward the end of the week there was less demand for fancy stuff and 264 head that were prime brought only \$6.90. In view of the fact that \$8.60 to \$8.75 was the top for corn fed natives at Chicago, the strength of this market is apparent. The demand for butcher cattle has not in any way been supplied. Cows and light steers were most wanted and the offerings were taken up quickly at strong prices.

The hog supply was mostly made up of contract deliveries from Missouri river. 154 mixed hogs of medium quality sold for \$7.25. The sheep market was steady to strong and anything carrying enough flesh to be classed as mutton sold at strong prices. Haskins for Health.
