

## STRIKE GIVES UP \$120,000

GRANTS PASS, Or., May 2.—C. L. Magnum, a widely known western mining authority who has just returned from the strike at the Higgins mine at the summit of Slide and Rancherie creeks, 20 miles northwest of Selma, says the gold was found in an immense ledge of quartz porphyry between the andesite and serpentine. The ledge was stripped of 300 feet of gold found at the top where erosion and disintegration had taken place. The material was shoveled into sluice boxes covered by the use of Hungarian riffles.

Higgins, the owner, and Messrs. Gage and Ross, lessees, have received by this process 11 tons of gold concentrates, averaging fully \$10,000 per ton. Active mining has ceased for the present, pending purchase of the property by J. M. McPhee of Portland, who has an option until May 12. With development it is regarded as promising a very rich property. Other properties near are showing very rich.

### The Air Brake.

To forget the inventions of the hour is an impossibility. They are before one at every turn, and many of them contain possibilities vast and much discussed. For that very reason it is well occasionally to contemplate some invention of the past which works unerringly and inconspicuously for the welfare of mankind. Consider the air brake. How many when they take a journey by rail ever take thought of the device which stands ready to insure safety from possible accidents? All are so used to silent noise below the cars that they never consider its portentousness. Yet by this application of the power of compressed air tens of thousands of lives have been preserved and railroad travel has been made more expeditious. All this is arant truisms; not a word of it but what has been said scores of times before. But we like to dwell upon the air brake as one of those typical inventions which are doing their work faithfully and humbly while recent creations get the glory and applause.—Collier's.

### Hongkong the Luxurious.

Hongkong, with its luxurious hotels, its princely clubs, its rich and influential banks, housed in splendidly constructed and beautifully designed buildings; its shipyards and graving docks able to care for the largest vessels; its miles of warehouses bursting with wealth; its yellow sailed fleets laden with silks, tea, sugar and precious porcelains; its commerce almost as great as that of New York; its botanic gardens hung amid delightful villas overlooking a harbor that is a city in itself and that boasts 10,000 sails; Hongkong, with its wonderful temples of ornate tank roofs, its idols of a hundred sects, its French cathedral, its forts, garrison and naval life, its Happy Valley race course—all at the end of white nana's civilization. Supreme from the peak on which it rests, its well bred aloofness it looks askance at sordid Asia, whence it sprung.—W. J. Atward in Harper's Magazine

### To Protect Priest.

NEW YORK, May 2.—To guard the hirsute adornment of the Rev. Basil N. Kerboway, a Greek priest, Mayor Gaynor has assigned a detective as a special guard. The priest complained that boys and young men "hurled obnoxious, decayed vegetables and other things" at him.

### He Lumped It.

"My coffee is not quite sweet enough," remarked he.  
"Well, if you don't like it, I suppose you'll have to lump it," said she, with a smile, passing the loaf sugar his way.

### Fixed For the Future.

Friend—Haven't you named the baby yet?

Proud Mother—No; we must be very careful to give him a nice one, because there will be so many named after him when he is president.

### What Did He Mean?

Mrs. H.—I see there's a man in France who has murdered three of his wives in succession. I'd like to see the man who would murder me.  
Mr. H.—So would I, my dear.
