No Other City Visited by Mayor Canon Shows Progress and General Prosperity Shown by This City—Local Advancement is Rapid

FAME OF THIS CITY IS SPREAD FAR AND NEAR

Officials of Other Towns Can Not Understand How City of 10,000 Can Do So Much

That Medford reflects more prosperity, is erecting more business blocks, building more residences, doing more in a general development way than any city he visited in California, while inspecting pavements on a recent trip, is the statement of Mayor W. H. Canon, who has just returned from an extended trip in company with several city councilmen throughout the neighboring states to the south.

While away, Mayor Canon visited a large number of towns, including a number in central and southern California, whose fame have been being broadcast over the land. However, he states that all of them seem to be standing still, when compared with strides being made by this city.

"I was surprised," states the mayor, "to travel for blocks in the streets of various California cities which I thought were doing wonders in the way of advancement, not to note more building going on. Medford is outclassing them in the number of improvements, the class of improvements and in general growth. While many of the places I visited were much larger than Medford, they did not seem to have the snap and bustle which is manifest in this city when I told officials in these cities of what Medford was doing along municipal and commercial lines of improvement, they refused to believe me. They did not see how it was possible that a city of 10,000 people could have spent a million dollars within two years. And when I told them that Medford had spent that much simply as a 'starter' they could not answer me.

NOTE ON FREE LIST MONDAY

Free for all Marathan Ends in House—Republicans Will Endeavor to Embarrass Democrats Monday by Offering Several Amendments.

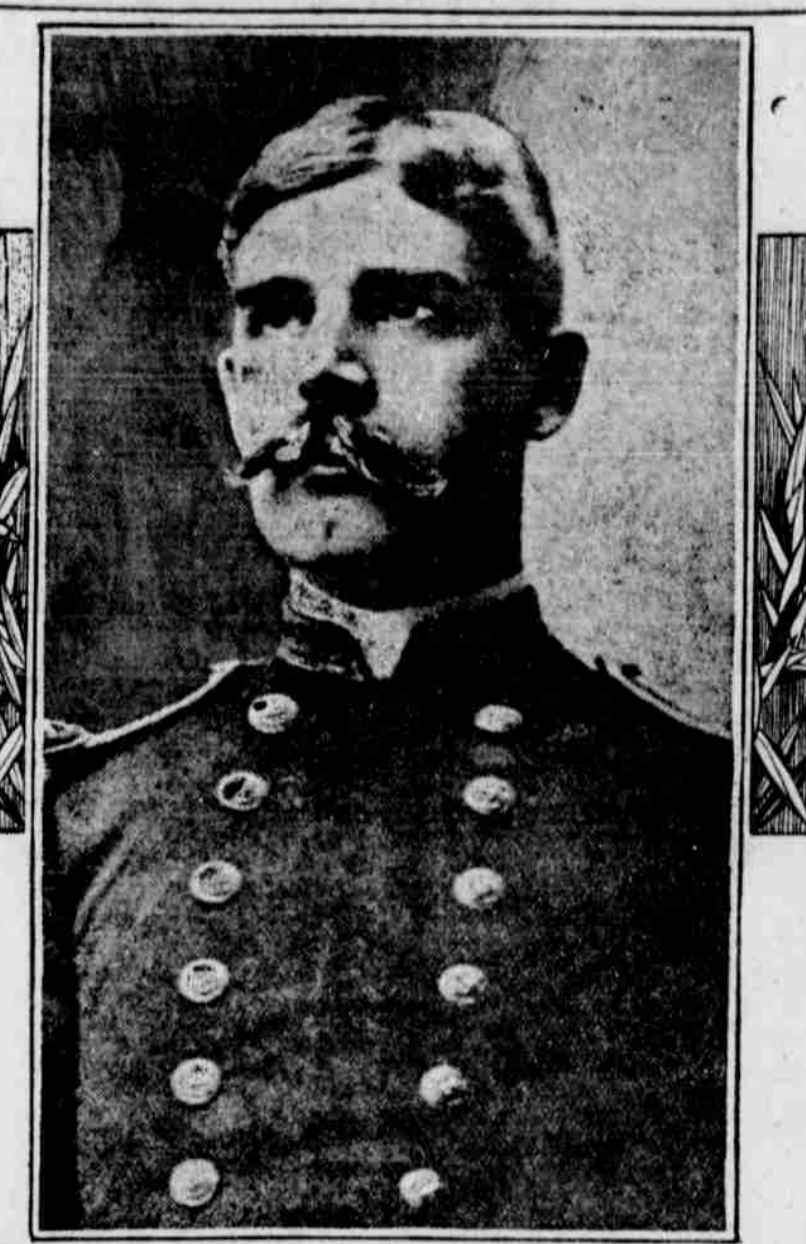

WASHINGTON, D. C., May 6.—This was the last day of the free-for-all two weeks' oratorical marathons in the house. The debate on the farmers' free list was concluded before the house adjournment tonight.

BUD CASHEN TURNS UP WITH MISSING AUTO

HOOD RIVER, Ore., May 6.—"Bud" Cashen, who had been reported missing from Hood River since Monday evening, when he left with an auto, and who was feared had met with a serious accident, as no trace of him could be found, turned up in The Dalles last night, having driven the car from Shaliko that day. He stated that he had gone into eastern Oregon on a business trip with a friend from Hood River and confessed much surprise that the community was so highly exercised concerning his whereabouts.

Powder Loss Over \$500,000. KENOSHA, Wis., May 6.—Final estimates on the damage done by the recent explosion at the plant of the E. I. Du Pont Powder company at Pleasant Prairie show that the total loss from the explosion will be considerably over half a million dollars. The agents of the company have completed the work of estimating the damage and 155 claims have been paid to people living in and about Pleasant Prairie. These claims, it is said, are close to \$40,000. In the city of Kenosha, 2000 claims will be paid as soon as the clerical work can be done.

New Head of Annapolis Academy

Lieut. Commander John H. Gibbons

WASHINGTON, D. C., May 6.—Captain John H. Gibbons, U. S. A., on duty with the general board and formerly a naval attaché at the American embassy in London, has been appointed superintendent of the naval academy at Annapolis to succeed Captain John M. Bowyer, who resigns because of ill health.

GEORGE H. KELLEY NAMED BY BOARD

Eugene Lumberman is Fifth Member of the State Game and Fish Commission—Clanton and Stevenson May Be Retained.

SALEM, Ore., May 6.—George H. Kelley of Eugene, formerly with the Booth-Kelly Lumber company, was this afternoon elected the fifth member of the state game and fish commission by the four members who had already been designated by Governor West. The board now consists of W. L. Finley of Jennings Lodge, Clackamas county; C. K. Cranston of Pendleton; C. P. Stone of Klamath Falls; M. J. Kinney of Portland.

80 CENT GAS NOW SEATTLE

SEATTLE, Wash., May 6.—To consumers of gas using in excess of 5000 cubic feet monthly, the Seattle Lighting company yesterday granted a reduction of 20 per cent.

Price Per Thousand is Cut From \$1 to 80 Cents—New Rates Apply on April Accounts—Twenty Per Cent Reduction.

PENDLETON LIQUOR STOPS SETTLEMENT

PENDLETON, Ore., May 6.—Still another development occurred this morning in the famous St. Dennis-Watts suit, which has involved Attorney D. W. Bailey, J. B. Perry and H. J. Watts in the investigation by the local association. Bailey and Perry who have been attorneys for the St. Dennis heirs, withdrew from the case while two of the four plaintiffs moved to dismiss the suit. The third member of the St. Dennis family came to Pendleton with an intention of signing a like motion, but after becoming somewhat intoxicated, he was induced to refuse to sign. He was given until May 12 to secure a new attorney and to make further appearance in court.

RUSHLIGHT IS VICTOR OVER GAY BOMBARD

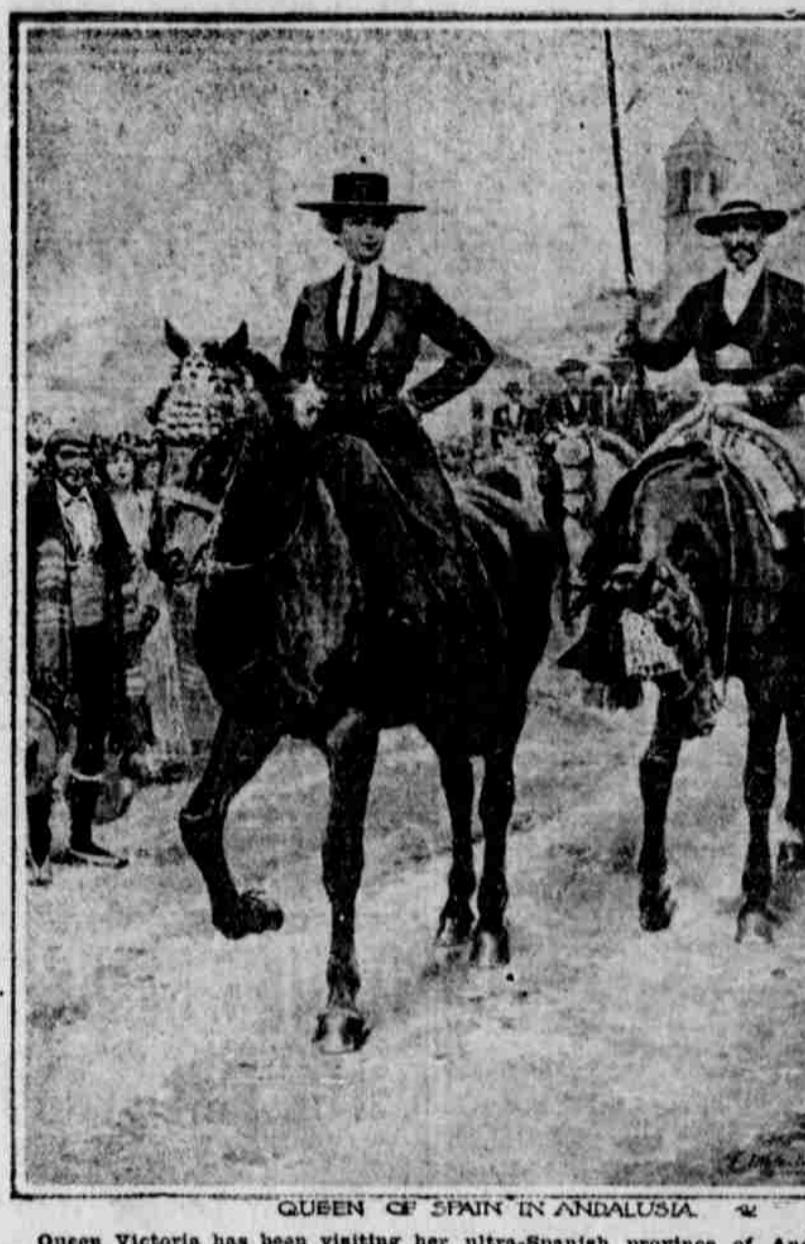

In Force of Bitter Opposition Voiced by Three Leading Papers—Councilman is Nominated by Republicans as Candidate for Mayor.

BACKED BY UNION LABOR: MADE "GUM SHOE" FIGHT

Majority Will be in Neighborhood of 1000—George H. Thomas Has Democratic Nomination.

PORTLAND, Ore., May 6.—A. A. Rushlight has received the republican nomination for mayor in this city over Gay Lombard and J. B. Werlin. Indications at an early hour this (Sunday) morning place Rushlight's lead at 1000. At midnight with 24 precincts on the Post-News to hear from, Rushlight was 471 votes in the lead. Only 12,000 votes were cast. George H. Thomas received the democratic nomination, running alone, although Harry Lane's name was written in on many ballots.

The Beautiful Queen of Spain

Queen Victoria has been visiting her ultra-Spanish province of Andalusia, a romantic district once known as Vandalusia from the vandals settled there. It was long called the garden of Spain, and parts of it still flow with wine and oil. The horses and mules of this picturesque portion of Alfonso's dominions have long been famous. The handsome consort of King Alfonso is here, riding in true Andalusian style with the Duke of Orleans.

DIAZ REFUSES RESIGN; WILL FIGHT TO END

Armistice Declared Off and Madero Prepares to Attack Juarez at Once—Federal Troops Again Posted About Fortifications.

Taft IS READY TO SEND ARMY ACROSS THE BORDER

Foreigners Are Fleeing From the City of Mexico—Diaz to Fight to a Finish

WASHINGTON, D. C., May 6.—"War without quarter until Diaz has been driven from the presidency and out of Mexico," is now to be waged by Madero, according to an announcement by the revolutionary junta here tonight. It was declared that the field force practically doubled since the armistice.

EL PASO, Tex., May 6.—The armistice which has checked hostilities in Mexico for the past two weeks has been declared off and Juarez is in danger of an attack by the forces under Madero. Immediately upon confirmation of the report that a state of war again existed, the federal troops in Juarez were again stationed on the heights in the trenches and at the barricades and refugees at once began an exodus from Juarez to El Paso. The attack on Juarez is expected early tomorrow.

FORCED AN ANSWER. The insistence of Judge Carbajal, the federal peace commissioner, that he had not sent to Diaz the Madero demand for his resignation leads to the belief here that Carbajal was instructed from the first not to consider any such demand, Madero and his lieutenants, it is believed, had finally awakened to the realization that whatever else they might reasonably expect, Diaz still intended to keep his grip on the reins of government. Convinced that if the presidency were unchanged, granting of any other reforms would be futile, the insurgents, it is said, pressed so hard for an answer that the Diaz government was forced to a flat refusal, which, of course, means an early resumption of fighting, even at the risk of foreign intervention.

TAFT IS READY. WASHINGTON, D. C., May 6.—Believing that the situation in Mexico has again reached the acute stage, President Taft has caused precautionary orders to be sent to all field officers within steaming distance of Mexican ports to be ready for instant movement. This action by the president was taken on the advice of his cabinet.

DETAILS ARRANGED. WASHINGTON, D. C., May 6.—As a result of official reports from Ambassador Wilson, all details for American intervention in Mexico have been arranged, although President Taft will not order such a step until Tuesday.

SULZER RECALCULATES. WASHINGTON, D. C., May 6.—That American intervention in Mexican affairs is not imminent and will only come if events so force it, is the belief of Congressman William Sulzer, chairman of the house committee on foreign affairs. "Unless American citizens in Mexico are outraged in such manner as to necessitate intervention in order to protect our people, there is no disposition on the part of America to intervene," Sulzer said. "Members of the various interested congressional committees, the president and the state department are working together, resolved to keep hands off as long as possible. I do not see any obligation on our part to pacify Mexico. Intervention would cost us thousands of lives and millions of dollars and probably would unite the present opposing factions in Mexico against us. This would result in guerrilla warfare that would keep us in the field for years."

LOOK AT THE "FOR SALE" ADS.—and at some of the things that are advertised for sale.

KLAMATH FALLS HAS A WAGSTER

General Scribe Puts Sign in Postoffice Reflecting on Number of Real Estate Offices to be Found in the City.

KLAMATH FALLS, Ore., May 6.—No city is without its wag. Some towns have more than one. That Klamath Falls has at least one with the "wagging" bump more fully developed than most of the professionals has been remarked by several who have walked along Main street in the vicinity of the postoffice within the past few days. And this fellow apparently has it in for the real estate vendor—no, possibly he does not in general, but that he has noticed the numerous shingles out announcing that within one could find anything he wished to purchase from a whole township to a few square feet of land, is guessed by reading of what this wag left on a blackboard on the corner of the postoffice building. The inscription is: "All others reserved for real estate offices."

IRON DIET BAD FOR COWS

TOWANDA, Pa., May 6.—A local veterinarian called to attend nine cows that had swallowed foreign substances which penetrated the linings of their stomachs has killed them all to end their sufferings. The ninth victim was a cow belonging to J. K. Packard. In her stomach were found twenty-nine single nails and staples, one small safety pin and a big blanket pin, opened with a pair of barber shears, inflicting dangerous wounds. Bernard then plunged the shears deep into his own chest, and possibly will die. The finding of two letters to his wife by an old friend of hers, was followed by Bernard charging her with infidelity and then attempting to kill her.

JAPS SHIP HOME HOOD RIVER COIN

During Past Year \$48,000 Has Been Shipped to Japan by Orchard Workmen, Says Postmaster in a Report to Washington.

HOOD RIVER, Ore., May 6.—Thousands of dollars are being shipped out of Hood River annually to Nippon by Japanese orchard workers, according to Postmaster Yates today. In his report just sent to Washington Yates says that money aggregating \$48,000 has been purchased by foreign laborers and sent from this country in the last year.

FOUR HORSES HAULING CREAM RUN AWAY

JUNCTION CITY, Ore., May 6.—While Jeff Campbell, who hauls cream from Lake creek for the Corvallis creamery, was unloading cream at the depot Wednesday night, his team of four horses became frightened, ran away and collided with an electric light pole, breaking the neck of one of the horses. Only one can of cream was spilled.

Stabs Bride, Ten Suicides.

NEW ORLEANS, La., May 6.—Jealousy prompted Cleveland A. Bernard, a barber to stab his bride of a few months with a pair of barber shears, inflicting dangerous wounds. Bernard then plunged the shears deep into his own chest, and possibly will die. The finding of two letters to his wife by an old friend of hers, was followed by Bernard charging her with infidelity and then attempting to kill her.

Viceroy's Gardens Destroyed by Revolutionists

GARDENS OF THE VICEROY YAMEN

HONGKONG, May 6.—The viceroy's gardens at Canton were partly burned by the revolutionaries. There were many casualties, but the viceroy is safe. The leader of the mob was arrested. Steamship communication with Hongkong is stopped.

Fifty participants in the Canton outrage have been arrested. Admiral Li personally led the defense of the yamen. General Ho Pan Chung was wounded. There was numerous casualties on both sides. The mob was armed with revolvers, and each wore a white band around the forehead, signifying that he was anti-Manchu. The mob finally was dispersed. Fortunately the authorities had been forewarned and the viceroy vacated his yamen last week.

QUET DAY FOR M'NAMARAS

With Arrangement Out of the Way and Preliminary Hearing a Month Hence Men Charged With Murder Wait.

LOS ANGELES, Cal., May 6.—With the date for their preliminary examination a month hence, John J. and James B. McNamara, accused of murder in connection with the destruction of the plant of the Los Angeles Times, spent a quiet day in their cells at the county jail here today.

RAPPAPORT TO FRANCISCO. Attorney Leo M. Rappaport left last night for San Francisco, and during his absence Harriman will act as counsel for the iron workers. Rappaport's departure was shrouded in considerable mystery. He had given no intimation of his intention to depart before his sudden departure.

Decision Tuesday. Whether the McNamaras will have to answer to the new indictments returned against them yesterday by the grand jury or will be tried on the ones on which they were arrested will be decided next Tuesday by Judge Walter Doolittle. This angle of the case, which at first appeared unimportant, has assumed the proportions of a large cloud on the horizon and quite possibly will result in very serious delay to the trial of the accused men. Predictions were freely made today that the actual trial might be delayed for months by continued battles growing out of this phase of the case.

San Francisco Rappaport. SAN FRANCISCO, May 6.—Leo M. Rappaport, attorney for the McNamara brothers, indicted in connection with the destruction of the Los Angeles Times, arrived here today. He went into conference at once with O. A. Tveitnes and Anton Johannsen, local labor leaders. Before the conference began Rappaport refused to state whether it had any connection with the McNamara case. That the trial of the McNamaras will begin not later than August 1 is the belief of Attorney Rappaport. He declared positively that Clarence Harrow of Chicago would go to Los Angeles and would take active charge of the case.

Doesn't Discuss McNamagal. Rappaport refused to discuss the testimony of Orrie McNamagal. He would not say whether he thought McNamagal was in any way connected with the case. (Continued on Page 8.)
