**Help for All**

Andrew Carnegie once suggested as an epitaph for his own tombstone what he said was the secret of his success: "Here lies a man who surrounded himself with men abler than himself."

Many able people are working for you, scientists, inventors, manufacturers, all trying to make something you want. Do you use their brains and their efforts—"surround yourself with them"—or do you plod along by yourself, years behind the times?

Take your own home. Have you your share of modern improvements there—money-saving, labor-saving, health-promoting? One of the most important of these is a New Perfection Oil Cook-stove.

A New Perfection stove never overheats a kitchen. It saves your strength. It saves fuel and time. With the New Perfection ovens with the glass doors you can go on with your ironing or any other work, and still be sure at a glance the joint is cooking properly.

Made with 1, 2 and 3 burners, with long, turquoise blue enameled chimneys. Handily washed throughout. The 2- and 3-burner stoves can be had with or without a cabinet top, which is fitted with drop shelves, towel racks, etc.

Dealers everywhere; or write for descriptive circular to the nearest agency of the Standard Oil Company (Incorporated)
