

MADERO NOT TO VISIT DIAZ AS HAD PLANNED

Gets Tip That Dictator Meant to Trap Him When Mexico City Was Reached—Refuses to Discuss Situation or Change in Plans.

REBELS BELIEVE WAR WILL BE CONTINUED

Have Raised Cry "On to Chihuahua" and Prepare for Further Battles.

JUARIZ, Mexico, May 20.—"On to Chihuahua" is the war cry here today among the insurgents who, despite the declarations of Madero and Judge Carbajal that peace is assured, expect that fighting will be immediately resumed when the present armistice expires.

With the idea that Madero has been halted by a Diaz trick, the rebels are already planning a hard blow when hostilities are resumed. Two hundred and fifty federal soldiers who were captured here when Navarro surrendered, are today repairing the Mexican Central Railroad in the desert under guard of a large force of armed insurgents, and 1,000 rebels are ready to leave for Chihuahua the moment the word is given to open the war again.

Madero Doubtful

That the rebel leaders as a whole believe that peace by no means is slight and that more powder will be burned before Diaz is brought to his knees is indicated by the arrival here of two freight cars loaded with ammunition and the announcement that that more are on the way.

There is strong reason to believe that Madero was being captured into a trap when the president suggested that the rebel chief go to the capital to aid in re-organization of the government.

According to Madero's friends, attempts at his political or, perhaps, physical assassination were to have been made in Mexico City. Madero up to last night had been apparently in the capital and plans had been partially completed for a special car to accompany him with newspaper men when, without explanation, Madero issued a statement that he would not go to Mexico City until Diaz had resigned and De La Barra had been installed as temporary president.

Madero Gives Views

JUARIZ, Mexico, May 20.—What he and his associates hope to do for Mexico in the near future is apparently the chief concern of Madero, who is expected to be inaugurated as president of the republic on June 5.

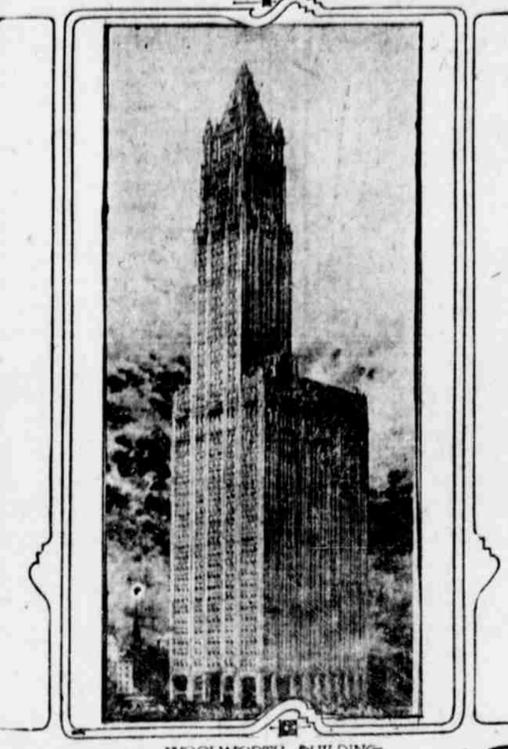

Will Be Careful

Your question whether I and my associates will be able to avoid Diaz's mistakes, whereby he was captured from a successful and patriotic revolutionist into a tyrant, will be better answered by public opinion than by me, because our and our patriot's hearts are better than mine.

No Difficulty With Church

I do not expect any difficulty in dealing with any participation from the political church. When I formed the new platform I took care not to touch on any point connected with religious questions. I have thought that the liberties of this nation are better reached by the rights of citizens and to establish a democratic practice.

WOOLWORTH BUILDING

Laid out flat the giant building will be longer than three city blocks and Salvatore's record speed for a mile would make 14 seconds the time necessary for that steel champion to cover the distance. Only the Eiffel tower in Paris, a steel skeleton, will exceed in height this new New York pinnacle.

GREAT INCREASE LOCAL SCHOOLS DURING YEAR

Over 1300 School Children Enrolled in Local Classes—Over 300 Increase Since the Opening of the Present School Year.

TWO BUILDINGS NOW UNDER WAY ARE NEEDED

Increase is Phenomenal During Past Year—Enlarged Facilities Soon.

Dislighted! Teddy Roosevelt knows Medford is on the map—but when he hears of the increase in the number of children of school age in the city he will no doubt order a gold medal to be hung in the city hall.

From a crossing on Bear creek known as "Middle-ford" a town, originally started there grew into a community called Medford—a little village in the Rogue river valley. Today it is known as Medford—the biggest little town on the Pacific slope.

The school attendance has increased in proportion until today the enrollment is 1213 pupils in both the intermediate and high school classes as follows: Washington school 696 pupils, Lincoln school 437 pupils, high school 186 pupils, of the 427 children registered at the Lincoln school 120 attend classes in the high school building, the former building being unable to accommodate them.

The Jackson school, located in Northwest Medford, is completed as far as the exterior is concerned and only the plastering and interior decorating remains to be done. The Queen Anne school on the east side is going up rapidly, work being commenced on the second story. Both schools will be ready for use at the opening of the autumn term.

Two ten-foot blocks have been purchased and with the proposed sale of the Washington school buildings are being erected, one at Monroe and Holly streets to accommodate the south side, and one at Peach and 12th streets to take up the surplus of the southwest portion of the city.

Until ready to build one of these blocks will be fitted up as an athletic field, with a foot ball gridiron, a baseball diamond and tennis courts. This will be strictly for school students.

Medford has one of the most liberal school systems in the country and under the direction of superintendent Collins and the members of the school board an educational system second to none has been perfected.

M'CALLEN PLEADS NOT GUILTY OF MURDER

ROSBURG, Ore., May 20.—Roy McCallen, who was indicted by the grand jury late Wednesday charged with the crime of murder in the second degree, entered a plea of "not guilty" in the circuit court today. Judge Coke, of Marshfield, has set the case for next Tuesday morning.

The crime for which McCallen is indicted occurred in this city on March 13, when he is alleged to have shot and killed E. A. Mahan, a former Rosburg plumber. Forty-two witnesses have already been summoned to appear and testify. Owing to the publicity given the shooting at the time it occurred, the attorneys believe the trial will consume at least a week.

WORE HIS HAT IN CHURCH TO GET AN INTRODUCTION

CHICAGO, May 20.—To illustrate the "officiousness" of some churches Rev. John Timothy Stone, pastor of the Fourth Presbyterian Church, Chicago, told a story of a man who sat through the service Sunday morning wearing his hat. When requested to do so by the usher, he removed the hat smilingly. The usher afterwards asked him if he had worn the hat purposely or if it was merely absent minded negligence.

Immediately after he escaped from his cage he attacked his trainer, Joseph Strael, injuring him badly. The lion is the property of Captain J. Ferrati. He escaped while being transferred from one of the arena cages to another. He roamed all over the park, scaring several hundred men and women, and at last was cornered with the aid of pitchforks, netted and carried back to his cage.
