Brakes too, when they are out of or-

der do damage to tires. Should only only one of the back wheels lock when applying the brakes the tire on the slip-ping wheel will surely be injured. Another kind of tire trouble arises from weakened springs. Every time the car jolts badly the upper part of the

tive rubs against the mudguard and a result the envelope is damaged. Driving chains also are often the cause of injury to tires. If the chaffs are s'ack, the swinging motion produced by the car in running, will cause the lower part of the chains to strike the sides of the tires. When the chain line is too close to

the tires or when the chain bolts are too long, they rub the envelopes making oblique scratches on the rubber. These cuts or scratches on theinner side walls of the tires are crossed at regular intervals, first when the boils pass on the upper and again when they pass on the lower part of the side walls.
Oil or grease from leaky or overfilled

tanks should not be permitted to reach the tires, because oil and other fatty substances are most injurious to rubber Many money saving suggestions for motorists are found in "The Book of Bibendum published and distributed free by the Michelin Tire company, of Mill

TO THE PUBLIC.

I have been at considerable expense and trouble to put my deer, elk, etc., at the front of my ranch, so that you ould see and enjoy them. These animals are private property and as such are as much entitled to protection under the law as any other personal property.

It has become the custom of a great

many to stop in front of my place and fill the air with every kind of discordant sounds in order to frighten the animals hereby endangering my property causing the animals to injure themselves This is especially true of some autoists who stand in front of the pens and blow their horns for the especial purpose of frightening these animals.

Therefore I request that these animals be left undisturbed, and a hereby give notice that I will prosecute and sue for damages any person or persons caught noiesting the animals on my place it any way whatever.
