

# PRESIDENT KERR TO BE HERE SOON

Comes to Look Over Valley in Connection With Establishment of Branch Experiment Station as Provided by Legislature.

John D. Olwell of this city, who recently attended a meeting of the board of regents of which he is a member of the State Agricultural college at Corvallis, states that President Kerr of that institution and several assistants may be expected in Medford within the next 10 days to locate a site for a branch experimental station which is to be located in southern Oregon, as provided by an act of the legislative assembly of the state of Oregon.

An appropriation of \$5000 yearly for the support and maintenance of this experimental station has been made, but, no part of this appropriation is to be used for the purchase or rental of the land and water or for the construction of buildings required in the work of the said branch experimental station.

This appropriation and the revenues derived from the lands will be used to support the station for agricultural experiment in southern Oregon.

Colonel Frank H. Ray of the Rogue River Electric company has already offered a tract of land near the Gold Ray power plant and has also agreed to furnish all the water and lights as well as the necessary power to run the station.

The act provides that the \$5000 of any part thereof shall not be used for building purposes and an additional appropriation will have to be made for this purpose.

The board of regents have been authorized to allow the station to cooperate with the federal experimental departments in any special line of work.

### CENTRAL POINT ITEMS.

W. E. Whiteside and Attorney Newman of Medford was in our city Thursday transacting business.

Court Purkeypile of Ashland spent Thursday with his mother and brother here.

E. B. PICKEL, Chairman Hospital Fund Committee.

## Church Grows

The Right Rev. Charles Scadding, D. D., bishop of Oregon, will make his official visitation of St. Mark's church, Medford, on Sunday morning, June 4, at 11 a. m., and will administer confirmation in St. Mark's church.

The Episcopal church in the diocese of Oregon stands second among all the dioceses in the United States in percentage of growth during the past year. This statement is made by the Living Church Annual, of Milwaukee, Wis., and is based on official reports.

Contributions from Oregon churchmen for their own work and for missions have been much larger than in former years, and aggregate more than the districts of Olympia and Spokane combined, and are as large as California and Los Angeles.

Interviewed by the Mail Tribune regarding this report Bishop Scadding said: "It is a satisfaction to hear this report, but it may give Episcopalians a bad case of 'enlarged head' were it not for the counter irritant of the consciousness of the many things we have not

Bishop Scadding.

done, of the many places we have not grown. Where progress has been made it is due to the hard pastoral work of the clergy, and to the deaconess work done by Miss Caroline P. Sheffield an officer of the New York board of missions assigned to Oregon."

"I hope," continued the bishop, "that the high standing Oregon has taken among all the dioceses in the Episcopal church will stimulate our members to greater things next year. "Our church school for girls—St. Helen's hall—and the Good Samaritan hospital are self-supporting, and are doing excellent work in the community. But in almost every parish and mission there are men and women who are mere church adherents, nominal members, who are taking but little interest, and less activity, in church extension. These must be aroused, and this means personal work on the part of bishop, clergy and those laymen and women already bearing the burden.

"Our immediate attention must be turned to the reopening of the Bishop academy, and the adequate endowment of the Episcopal fund, in order to relieve parishes and missions of heavy assessments for the bishop's salary. Our trustees have both these matters under consideration. I am far more pleased with the 'family dea' which is uniting us in our work; with the evidences in many places of a quickening of spiritual life, than with all the good results that can be tabulated."

### A GREAT PHYSICIAN.

What He Said of Germs That Cause Disease.

M. Pasteur, sometimes called the greatest physician, often said, "I believe that we shall one day rid the world of all diseases that are caused by germs."

Of all the diseases caused by germs, catarrh is one of the most persistent and loathsome. Catarrh can be cured, but only by destroying the germs.

Breathe HYOMEI (pronounce it High-o-me) and cure catarrh by killing the germs. The HYOMEI method is the only sensible method, because you breathe the highly antiseptic and germ killing air directly over the entire membrane infested with catarrh germs.

HYOMEI will cure catarrh. There may be some complicated cases where it will fail, but the chances are ten to one in its favor, and the sufferer from catarrh takes no risk, because HYOMEI is a guaranteed remedy, and if it doesn't cure, Chas. Strang will refund the purchase price.

HYOMEI will also give instant relief and cure in bronchitis, coughs, colds and croup. A complete outfit, including hard rubber pocket inhaler, costs only \$1.00. If you now own a Hyomei inhaler you can get a bottle of HYOMEI for 50 cents.

## SIMON MAKES CLEVER MOVE

Appoints Commission of Fifteen to Revise City Charter to Provide for a Commission Form of Government in Portland.

PORTLAND, Or., June 2.—The sudden action of Mayor Simon in appointing 15 citizens to draft a charter for a commission form of government for Portland, is looked upon by many persons today as a shrewd political appeal for votes on the part of Simon, who is up for reelection next Monday.

Simon is opposed for the mayoralty by A. G. Rushlight, republican, primary nominee, and both he and Rushlight are advocating a commission form of government. Simon, who refused to make the race in the primaries for the nomination is running independently.

According to the plans announced by Mayor Simon, the charter committee will meet a week following the election for the purpose of organizing and beginning work on the proposed charter. The date for its submission to popular vote has been left open.

### TO THE PUBLIC.

I have been at considerable expense and trouble to put my deer, elk, etc., at the front of my ranch, so that you could see and enjoy them. These animals are private property and as such are as much entitled to protection under the law as any other personal property.

It has become the custom of a great many to stop in front of my place and fill the air with every kind of discordant sounds in order to frighten the animals, thereby endangering my property by causing the animals to injure themselves. This is especially true of some autotists who stand in front of the pens and blow their horns for the especial purpose of frightening these animals.

Therefore I request that these animals be left undisturbed, and hereby give notice that I will prosecute and sue for damages any person or persons caught molesting the animals on my place in any way whatever.
