May Some Day be Great Britain's Queen

PRINCESS VICTORIA LOUISE OF PRUSSIA FROM A RECENT PAINTING.

Vast interest was taken by the English people in the recent visit of the Emperor and Empress of Germany to London with their only daughter, Princess Victoria Louise. The latter is now a charming young woman of eighteen, and gossip was busy as to the possibility of a new alliance between the reigning houses of Great Britain and Germany. The Prince of Wales, according to general understanding, is considering the important question of marriage.

DOG STILL HOLDS THE FAMILY'S CONFIDENCE

Theodore, the beautiful collie belonging to J. W. Bonar of Griffen Creek, who was seen by M. R. Harper, foreman on the Fruit Cove farm, killing some of Mrs. Bonar's chickens behind the barn, is still in good standing with the Bonar family. The dog is used in herding the chickens, much as others of its breed are manipulated in handling cattle. While out in the open Toddie, though persistent, is always very gentle with the chicks, but when behind the barn Mr. Harper charged him with being as voracious as his cousin, the wolf, and as cunning as his nephew, the fox.

After the charges appeared in print the Bonars were somewhat sober, but their implicit trust in their well trained and seemingly faithful dog was unshaken. Whether Theodore has seen the errors of his ways and reformed or is wisely postponing his chicken feasts is a question.

HON. B. F. MULKEY TO TALK OF PEACE MOVE

The members of the men's Bible class of the M. E. church Sunday school are anticipating very much of a treat for their session this morning.

Hon. B. F. Mulkey has promised to bring the timber into the deep waters of the lake and equipment and machinery are being taken to the grounds for the construction of a logging railway.

These peace conferences have accomplished. He will also bring out and picture specifically the possibilities of a peace conference leading to the absolute and entire disarmament of the nations of the world, using data gathered from reports of the several such conferences already held as the basis for his belief and argument that at a time not far distant these peace conferences will be participated in by representatives of every nation of the world. Then indeed will Micah's prophecy—"and they shall beat their swords into plowshares, and their spears into pruning hooks; nation shall not lift up a sword against nation, neither shall they learn war any more," become a truly living reality.

All property values depend upon the prosperity of the community. If our manufacturers are prospering, and the merchant likewise, the farmer will prosper, too. The persistent demand for goods "Made in Oregon" will help bring greater prosperity to the people of Oregon.

I Am Building Homes

In "Orchard" and "South Park" Additions, that you can own and will make you money. You can live in these homes and your rent money will pay for them. The price is right for a good investment. The location is the finest residence part of the city. Close in, on South Holly street. Just walk down to the orchard and see the homes under construction, or stop five blocks south of Main and select a lot and I will build a house like you want. Sidewalks, water and gas. This will be a long beautiful restricted bungalow street. I have improved building ideas—better homes at less cost. You will see the time in less than twelve months that you could make \$500 and your rent on a home investment. Why? Because the lot is \$500 below value and the home will cost more later. Can sell you a modern five-room home and lot as low as \$1600. I build homes, not houses.
